Quarterly Issues/Programs List

WNCB provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **PUBLIC SAFETY/PUBLIC HEALTH**
- **MENTAL HEALTH**
- **PUBLIC EDUCATION**

**Section I
LOCAL PROGRAMMING**

Section I lists regularly-scheduled and special programs that represent the station's issue-responsive programming providing the most significant treatment of the issues listed above for the calendar quarter.

ISSUE	PROGRAM / TITLE	DESCRIPTION	GUEST	DATE/TIME	DURATION
COVID-19 Update & SCOTUS Confirmation Process	IHEARTRADIO COMMUNITIES: PUBLIC AFFAIRS SPECIAL	<ul style="list-style-type: none"> • Carolyn Reynolds, co-founder of the Pandemic Action Network, discussed the present state of COVID-19 in the US. Reynolds talked about winter preparations during the pandemic and how to interpret all the new information coming out potential vaccines. Steve Vladek, Professor of Law at the University of Texas School of Law & Executive Editor of <i>Just Security</i> & Senior Editor of the <i>Lawfare</i> blog - Vladek provided perspective on the purpose of our Supreme Court and judicial branch of government. He discussed the justice confirmation process and how the supreme court works from their case choices to their sessions.	REYNOLDS S VLADEK	10/04/2020 07:00 AM	030:00

U.S. Surgeon General Dr. Jerome Adams	12/27/2020 07:00 AM	030:00

**Section II
NETWORK (and/or SYNDICATED) PROGRAMMING**

Section II lists the network-provided (and/or syndicated) programming that the station broadcast during the preceding calendar quarter that addresses community issues.

ISSUE	PROGRAM / TITLE	DESCRIPTION	DATE/TIME	DURATION
COVID-19 TESTING	VIEWPOINTS	The University of Illinois at Urbana-Champaign has developed a quick and affordable saliva-based test that makes it possible for students, faculty and staff to get checked twice a week for COVID-19. We speak with one of its creators, Dr. Martin Burke about the largescale implementation of this method and the upcoming challenges with flu season quickly approaching.	10/04/2020 07:30 AM	030:00
ENGLISH AS A FOREIGN LANGUAGE	VIEWPOINTS	We all know the rule: "I before E, except after C," but it's not applicable in "weird" or "science" or many other words. The English language has many exceptions to its rules and these irregularities make it a difficult language to learn. Two language experts join Viewpoints this week to share the many frustrations of English and the rules at play today.	10/11/2020 07:30 AM	030:00
IMMIGRATION	VIEWPOINTS	In 2016, President Trump ran on a platform that vowed to deport all of the undocumented immigrants in the country. However, four years later and this population is still relatively the same. Is it a practical plan to deport millions who have lived in the U.S. for more than a decade, are law-abiding and fill important jobs that would otherwise be vacant?	10/18/2020 07:30 AM	030:00
END-OF-LIFE PLANNING	VIEWPOINTS	Planning for death is an important part of life. Getting your affairs in order and communicating your final wishes to your loved ones are two vital steps in this process. We speak with John Keith, the owner of Keith Monument, to better understand the field and some of the ways that COVID-19 has changed the way we celebrate life.	10/25/2020 07:30 AM	030:00
VOTING	VIEWPOINTS	There are more than 5.2 million Native Americans living in the U.S., yet only a small fraction cast a ballot each election cycle. What factors lead to this low turnout? Viewpoints speaks with two experts about how historical bias feels into the current challenges facing this group.	11/01/2020 07:30 AM	030:00
CLIMATE SCIENCE	VIEWPOINTS	According to the Environmental Protection Agency, greenhouse gases trap heat in the atmosphere leading to a warmer planet. The largest source of greenhouse gas emissions due to human activities is from burning fossil fuels like coal, oil and natural gas for electricity, heat and transportation. In recent years, the increasingly dry and warm climate in the U.S. has led to extreme fires, record drought and more severe hurricanes. So, what can be done to alter the path we're	11/08/2020 07:30 AM	030:00

		currently on and make renewable energy (that results in less emissions) widely accessible for everyone?		
SCIENCE	VIEWPOINTS	Before the pandemic, roughly 4 in 10 people across the world believed that if science didn't exist their lives would be no different, according to a global survey conducted by 3M Corporation. We dig into this staggering statistic and how COVID-19 has altered people's perception of the field.	11/15/2020 07:30 AM	030:00
GUN VIOLENCE	VIEWPOINTS	The 2018 massacre at Marjory Stoneman Douglas High in Parkland, Florida was the deadliest high school shooting in U.S. history. A teen gunman opened fire killing 17 students and faculty and injuring 17 others. Viewpoints speaks with high school teacher Jeff Foster who was there that day and is still an active voice in ending gun violence.	11/22/2020 07:30 AM	030:00
THANKSGIVING FLAVORS	VIEWPOINTS	Boozy Pecan, Cranberry-Pear, Banana Crème. The many flavors and textures of pie are endless. Just because Thanksgiving and all-things pumpkin have passed, doesn't mean an end to sugary holiday sweets. Viewpoints speaks with cookbook author Ken Haedrich about the prevalence of pie in American culture and how anyone - at any skill level - can bake a delicious pie in no time.	11/29/2020 07:30 AM	030:00
INFORMATION ACCURACY	VIEWPOINTS	How do professionals question people to get the information they want? We talk to an expert in interrogation and lying on this subject, and how law enforcement and job interviewers use the same tactics to find out if someone may be lying to them.	12/06/2020 07:30 AM	030:00
THE DIAMOND INDUSTRY	VIEWPOINTS	The northwestern coast of South Africa & Namibia has been a mining hub for diamonds since the 1900's. Local workers labor through long shifts and hazardous working conditions in order to feed their families. The pay? Roughly five cents per carat of rough diamonds found. While some may argue that the industry stimulates the local economy, once a company deems an area to be over-mined, it pulls out, leaving behind nothing for locals except ravaged land.	12/13/2020 07:30 AM	030:00
DISCRIMINATION	VIEWPOINTS	Segregation not only divides cities but leads to divided people as well. It fuels biases against people who may look or act different than us, leading to generations of inequity and discrimination. Viewpoints speaks with social justice activist, Tonika Johnson about the many impacts' segregation has had on the city of Chicago.	12/20/2020 07:30 AM	030:00
GAME SHOWS	VIEWPOINTS	Before the game shows of today, there were countless series of the past that defied our notion of showmanship. Full of grandiose props, charismatic hosts and the perfect, hand-picked contestants, these series kept viewers hooked till the very end and were (really) too good to be true. We discuss	12/27/2020 07:30 AM	030:00

		some of the most popular game shows in American history and how the industry has evolved over the last 70 years.
