

## Issues and Programs List – Complete Each Quarter

**Purpose:** On this form, summarize a list of several issues, which confront your community, and the programs you ran to address each. See 73.3526 (a) (9) or 73.3527 (a) (7). Do not rely on PSAs to satisfy this requirement. While an FCC inspector may not object, PSAs have little value if your license renewal is challenged!

**Station:** WXAV 88.3FM Chicago

**Date:** May 24 – June 14, 2020

(retain for seven years from above)

DURING THE PAST QUARTER, THE ISSUES SHOWN BELOW HAVE BEEN SIGNIFICANT TO OUR COMMUNITY.  
WE RAN THE PROGRAMS INDICATED TO ADDRESS THEM. ( 2 Quarter, 2020 )

Issue: Crew Dragon Deep Dive with Astronaut Garrett Reisman

WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio

Date: 5.24.20

Time of Day: 10:30am

Duration: 30mins

**BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):**

Engineer and astronaut Garrett Reisman spent four months on the International Space Station before moving to SpaceX. Ten years of work at the company are about to climax when a Crew Dragon carries astronauts Bob Behnken and Doug Hurley to the ISS. Garrett shares his excitement and inside knowledge about the mission and the groundbreaking spacecraft. We've also got headlines from The Downlink, and a night sky update as part of this week's What's Up.

Issue: Celebrating 30 Years of Hubble with Astronaut John Grunsfeld

WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio

Date: 5.31.20

Time of Day: 10:30am

Duration: 30mins

**BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):**

Former astronaut and NASA Associate Administrator John Grunsfeld is often called the Hubble Repairman. He's made three space shuttle trips to the space telescope to repair and upgrade it. Now he looks back over three decades of science, beautiful images, and inspiration delivered by the HST. Rubber asteroids are back, and you might win one in the new What's Up space trivia contest.

Issue: Crew Dragon Thrills While Mars Chills

WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio

Date: 6.7.20

Time of Day: 10:30am

Duration: 30mins

**BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):**

This episode opens with a special message about The Planetary Society's response to recent news. In our regular coverage, we celebrate the successful launch and arrival of the Crew Dragon spacecraft at the International Space Station. Then it's off to Mars with planetary scientist Edgard Rivera-Valentin. A team led by Ed has learned that it may be safer for robots and humans to visit the Red Planet than was thought.

Issue: Staying Alive in Space

WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio

Date: 6.14.20

Time of Day: 10:30am

Duration: 30mins

**BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):**

Keeping humans alive and well in space is hard enough. How will this be accomplished on a 3-year journey to Mars and back? Paragon President and CEO Grant Anderson shares the great progress we've made and the remaining challenges. Astronauts headed for the Red Planet may not need ice cream to stay alive, but will life be worth living without it?
