THE HEART OF ATLANTA: The Vasculitis Foundation (formerly the Wegener's Granulomatosis Association) was founded in 1986 by Marilyn Sampson, a Wegener's patient and registered nurse. Established to alleviate the isolation that patients and their families experience when these rare life-threatening diseases affect them, the Vasculitis Foundation (VF) helps patients and their families build a strong positive outlook. The following messages from the VF archives introduce some of the key individuals who were instrumental in establishing the VF and promoting the need for organized assistance for patients who live with Vasculitis. THE HEART OF ATLANTA: Living Water for Girls combats sexual trafficking and commercial sexual exploitation through raising awareness, providing a safe therapeutic refuge, and an aftercare wraparound program. Throughout 2009, we have had the opportunity to speak out, to raise awareness of the evil that is commercial sexual exploitation of children (CSEC). Thankfully, over 14,122 people have become aware and many are active in the battle against this horrible crime by their involvement with LWG and other community advocacy programs. Living Water for Girls is open and state licensed to offer a long-term comprehensive program for 10 girls at a time, in the 12-17 year old age group. Services being provided are individual, group, family, and addiction counseling; on-site home-school education, GED and vocational services; and life-skills training and spiritual wellness. Beautiful Layers: Stories from those who survived the life of prostitution and child exploitation. Living Water for Girls is Berean Christian Store's Give Hope Partner. The Quest Foundation issued a match grant challenge for \$40,000 to fund two critical staffing positions at the LWG home for girls who are victims of commercial sexual exploitation. Check back in with the campaign often at [www.livingwaterforgirls.org](http://www.livingwaterforgirls.org) to read about other people just like you who are getting involved. THE HEART OF ATLANTA: Free the Girls® is a 501(c)(3) tax exempt organization that provides job opportunities to women rescued from sex trafficking. At Free The Girls® we have a dream that the world can change. We have a dream to end slavery. We want you to dream with us. Give us your used bras and we will give a job to a former victim of human trafficking selling those bras in Africa. Why Bras? Used clothing is a profitable market in many countries around the world. Bras are usually sought after items. Some of the girls in our program are making 5x the minimum wage in their community by selling bras! Bras provide an opportunity for these women to work with other women, since they have a history of being abused and used by men. Once a program has been started with a safe house, it is designed to sustain itself. The women receive their starting inventory of bras at no cost, then pay a small amount of money for additional bras once they sell their initial inventory. This money is used to cover the expenses for the next shipment of bras. That means we only raise money to start new projects, not to keep established projects going. Bring your bras to a Free The Girls® bra drive or event--check under our events tab to see what's coming up in your area. Or have a drive of your own! You can also bring your bras to one of our drop-off locations. Check out their website for more info: [www.freethegirls.com/donate](http://www.freethegirls.com/donate) or contact our host, Mo Reiley, at [hearttofat@gmail.com](mailto:hearttofat@gmail.com).

THE HEART OF ATLANTA: Founded on the holistic premise that study abroad programs should offer course credit, International volunteer opportunities and adventure, Global LEAD has revolutionized the traditional view of study abroad. Students choose between Cape Town, South Africa, Athens and the Greek Isles, or Quito, Ecuador as their home for 5 weeks as they earn 6 upper-level college credits through the University of Georgia. Each location offers its own unique cultural aspects, but all LEAD programs emphasize experiential learning and “wow” moments. The inspirational and long-lasting impact results from meaningful service work with local communities as well as the adrenaline rush from shark-cage diving, cliff-jumping, white-water rafting or an authentic game drive. Coursework focuses on leadership theory, hands-on service learning and personal development principles and is taught by a combination of UGA faculty and PhD students as well as prominent members of the local community. THE RIVER CURRENT: The Push Back Project is a non-profit organization geared towards ending bullying in schools. Poline Milter, Founder of the Push Back Project joined the program to discuss how they help youth struggling with being bullied. The Push Back Project got its name by wanting to give students a chance to push back against bullies. This push is not a physical push, but a push to regain their life back. For so many bullied students, they live their life on pause. For instance, a student may feel scared or embarrassed at school. This student may become isolated and become quiet and shy. We want students to push back all the negativity and take charge of their life. It's time to un-pause your life! THE HEART OF ATLANTA: The Orange Duffel Bag Foundation provides coaching, training and ongoing mentoring to at-risk youth; support to their guardians and caring adults; and service to the community in a spirit of offering hope and enriching young lives. The 501c3 nonprofit, launched in February 2010, delivers professional level life plan coaching from certified life and executive coaches to youth (ages 12-24) who are in foster care or who have aged out, homeless youth and youth at-risk. Our curriculum has been piloted in various formats with youth in foster care and at-risk middle and high school students in both Georgia and Utah. The curriculum is based on the multi-award winning My Orange Duffel Bag: A Journey to Radical Change, and its 7 Rules for the Road, a nonfiction book about a homeless teen who became a successful executive and his self-help advice for success. They also help create opportunities for the youth by exposing them to caring adults in varied careers. PERSPECTIVES: Monique Houston, former sister-in-law of Whitney Houston, has decided it is time to speak out on the dysfunction and drug additions in the Houston family, and the codependency that has run rampant throughout the years. Monique Houston, first wife of Gary Houston and mother of his two oldest children, came forward after the Bobbi Kristina and family interview with Oprah Winfrey to speak about the enabling environment within the Houston inner circle that led to the untimely death of Whitney Houston. Houston has expressed concerns about the well-being of the singer's daughter, Bobbi Kristina, and the decision to expose her to the media so early after her mother's passing. She feels compelled to warn about the continued denial and unhealthy behavior that continues within the family, and petition for healing for the sake of the Houston grandchildren. PERSPECTIVES: Each year the Clean Air Campaign encourages Georgians to take advantage of Georgia TeleWork week, an event whose main aim is to enlighten people on the success of telework programs created by employers in the state of Georgia. The Georgia Telework Summit that also coincides with the event is held on August 22 during Georgia Telework Week. The Georgia summit also serves as a platform for employers to learn how telework can bring tremendous growth to the Georgia economy and help cut cost of living and commuting overall for residents. The number of teleworkers in metro Atlanta and the whole of Georgia can be increased from the current 600,000 to about 845,000 if employers agree to establish telework programs for them. Over \$2.7B worth of productivity is lost every year in Atlanta due to traffic because of the high number of commuters. Research has shown that teleworkers are 20% more productive than office-based workers. If the number of telework eligible people in Georgia embraced teleworking, commuter air pollution could be decreased by almost 50%. The second part of the show featured the pastor of New Zion Baptist Church and a discussion of the Inaugural 1000 Women in White Symposium, a day of empowerment for women from all walks of life on August 25<sup>th</sup>. PERSPECTIVES: EVERYTHING you think you know about the song, "We Shall Overcome" ...is WRONG. In the new book, We Shall Overcome: Sacred Song on the Devil's Tongue music historian Isaias Gamboa uncovers the shocking, untold story of the iconic freedom-song and introduces readers to its true author, Louise Shropshire - a sharecropper's daughter and self-proclaimed "nobody", who through love and dedication to God, Gospel-music and the African-American Church; overcame racism and poverty to find herself in the inner-circle of Rev. Dr. Martin Luther King Jr., Rev. Fred Shuttlesworth, Rev. Thomas A. Dorsey and the Civil Rights Movement. In the process, Shropshire composed and had copyrighted a popular Gospel-hymn that would become secularized by Pete Seeger and four other folk-singers - then peddled for untold millions all over the globe by Pete Seeger, Bob Dylan, Joan Baez, Bruce Springsteen and countless others. Exhaustively researched and featuring more than 160 extraordinary photographs -this extraordinary book not only describes the disturbing details surrounding the misappropriation of this sacred hymn, but also explores the historical attitudes of Black-exploitation, subjugation and racism in America - attitudes that enabled such an unthinkable act to occur in the first place and remain unchallenged for over half a century.
