How God
Makes Men
part 1 Issue:
Understanding
Human
Response

How does God make a Godly man? Pat Morley, the author of How God Makes Men - 10 Epic Stories, 10 Proven Principles, One Huge Promise for Your Life says Abraham is the example of believing God no matter what the circumstances. Joseph was sold into slavery and served 13 years in prison, but it was part of God's plan of using seemingly random acts for a much greater good. Nehemiah, who rebuilt the walls of Jerusalem, shows when we respond to God's call, we get an identity and destiny. That we are working for something that God cares about. Job shows us that suffering develops our character.

Leaving
School
Finding
Education
Issue:
Children and
Education

Are public schools a relic of a bygone era unfit to prepare students of today for careers and success? Since the education of children will determine our nation's success or failure, why trust them to a failing system? John Wiles, author of a dozen books on educational leadership, including Leaving School Finding Education, says the time has come to consider alternatives such as vouchers and homeschooling. Dr Robert Simonds, President of C.E.E., issues a challenge for grandparents to educate their grandchildren, since the focus in schools is not academics but homosexuality and drugging healthy kids.

Worldviews
Undermine
Destinies
Issue:
Education -
Worldview on
Religion

The worldviews of our citizens will determine our destiny as a nation. Since God only blesses those nations whose God is the Lord, what will happen to a nation that rejects the Lord? Sadly, most parents don't realize that schools are turning

children away from God and toward humanism, atheism and socialism. [Dan Smithwick](#) has done some fascinating research on worldviews in his PEERS Test that shows we are rapidly becoming a pagan nation. Dan compares worldviews of Haitians to Dominican Republicans to what could happen here. A worldview is more than the gospel. It's a whole world and life view.

God's
Wondrous
Design
Issue: The
Human Body

Schools do a disservice to their students by showing inaccurate and anti-Christian propaganda films like *Inherit the Wind* that makes a mockery of the Bible and suppresses the truth in unrighteousness. Anatomist and teacher at *Answers in Genesis*, [Dr David Menton](#), professor of the year at Washington U School of Medicine, discusses the ear, the eye, the brain and reproduction. Sound is converted from airwaves to tiny bones in the inner ear, to neuro-chemicals in the brain. Man's best efforts to replace the eye is a glass eye. The eye is much better in function and design than any camera lens.

The Love of
Jesus
Issue: Mental
Health - How
to Relate to
Others

Why do people fail in marriage, business, school or work? Why do we undermine, even poison, our closest loved ones? Our Lord was despised and rejected yet He didn't become bitter but continued to show unconditional love. How can we do that? We need to learn to love people just as Jesus loves us. [Pastor Bill Smith](#), author of *Loving Well (Even If You Haven't Been)* says Jesus demonstrates authenticity, patience, forgiveness and compassion so that we can be that way to others. Our Creator opens His Soul to us, sharing His most private thoughts, so that you can learn to live with agape love toward others.

A Nation of
Misled People
Issue:
Political
Leadership
Today

How do you kill 11 million people? What's the method used to do something that diabolical? Could it happen in America?

[Andy Andrews](#), author of *How Do You Kill 11 Million People? – Why The Truth Matters More Than You Think*, says 11 million people, the number killed by Nazi's from 1933 to 1945, could have fought back by overwhelming the few guards. But Nazi leaders like Eichmann told them they were there to be protected from the advancing Russian soldiers. That they would have good schools and jobs. They were lied to and they believed it. Are our leaders lying to us today? Is history repeating itself?
