Trespass Cannabis Grows on Public Lands

Dr. Mourad Gabriel of Forest Service, Ivan Medel of Integral Ecology Research Center

Trespass cannabis grows, those rogue operations of pot production on public land, often employ chemicals banned for sale in the United States. Past research has demonstrated that these chemicals have poisoned rare and endangered species like the Pacific fisher, Humboldt marten, and northern spotted owl. But what are they doing to our aquatic environment?

Thursday Night Talk Friends of the Lost Coast - Thursday, December 29, 2022 - 07:00 PM to 08:00 PM (58 minutes)

Organisation activities and fundraising challenge

Wednesday Science Talks Tom Wheeler - Wednesday, October 26, 2022 - 05:30 PM to 06:00 PM (28 minutes)

Humboldt County has some of the highest pedestrian fatality numbers in the state. Under the banner of "Vision Zero," transportation planners are imagining how we can manage our road network to reduce road fatalities down to zero. Investments in road safety, like Caltrans' new Broadway HAWK beacon, and planning efforts, like the Humboldt County Association of Governments' Safe and Sustainable Transportation Targets. Alexis Kelso of Caltrans and Stevie Luther of HCAOG join talk about how their agencies are working to save lives.
