Re: Station Chief Operator

It is an FCC requirement that each station have a designated Chief Operator. The chief operator is to review the station logs at least once each week to determine if required entries are being made correctly and to SIGN AND DATE the log upon completion of the review. The chief operator is also responsible for inspection and calibration of the transmission system, monitors, metering and auxiliary control systems in addition to any equipment performance measurements or other tests as specified in the rules or terms of station authorization. [See 73.1870]

At KNWC AM/FM, the designated Chief Operator is Clayton Heeren.

Signature Clayton Heeren on 4/14/10

At KNWC AM/FM, the designated Assistant Chief Operator is Jeff Rupp. This person assumes the role of the Chief Operator when the Chief Operator is away from the station or for some other reason is unable to fulfill his/her duties.

Signature Jeff Rupp on 4/14/10
