## Community Issues 4th Quarter 2010

Description of Issue	Show	Date	Duration	Synopsis
Safety	OT	10/1	1:31	<p>Until last year- Commercial Street was one of several areas in the city served by dedicated police patrols.</p> <p>seeing the presence of a police person is just a positive and welcoming presence, a perception of safety</p> <p>The Community Oriented Policing Services, or COPS, ended when staffing shortages forced officers back into city-wide patrols.</p> <p>we understood the budget crisis but we were very concerned</p> <p>Business owners say there's been more crime since then...and have been hoping to see neighborhood officers back on the streets.</p> <p>Now- it looks like COPS could finally be back on the beat...i'm ecstatic. i asked the city manager before i came up here if he'd heard the hoots and hollers</p> <p>Springfield has landed nearly two-point-two million dollars in federal money to hire and pay for fifteen new men and women for the force.</p>
Family Planning	5pm	10/5	1:39	<p>A cash-flow problem shut down the center more than six months ago...but those who run the facility never gave up.</p> <p>///Now the doors are open again and will see its first client this week.</p> <p>The center helps pregnant women and couples with a host of family related issues...and usually these people wouldn't have any where else to turn for help.</p> <p>After word spread of its closing...churches and community members stepped up to help.</p> <p>(Dr. Brady Hesington, Tri-County Pregnancy Resource Center)</p> <p>"It's also and outreach to women who may feel broken and hopeless and helpless in this situation. We really want to extend them a loving hand."</p>
Bullying	10pm	10/12	1:36	<p>At this vigil in Springfield, a New Jersey college student, three students at Mentor High in Ohio and many others are remembered- after recently taking their own lives.</p>

				<p>They flicked his ear, pushed him into his locker, they called him gay fag.</p> <p>All were bullied about their sexual orientation.</p> <p>It reminds me of what happened to me as a kid.</p> <p>It's an issue many at the Gay and Lesbian Community Center of the Ozarks have experienced personally, and they say it's nothing new.</p> <p>Just a lot of stares and jokes.</p> <p>I was playing football. I was a wrestler, was active in sports, but when people found out I was bisexual, they kind of got iffy to that and basically either beat me down or made derogatory comments toward me.</p> <p>They too, were pushed so far as to consider suicide.</p> <p>I just snapped and started talking about wanting to kill myself and just not liking feeling alone...</p> <p>They now lean on the support of their peers, and want young people who are lesbian, gay, bisexual, transgender, or still questioning to do the same.</p> <p>Hopefully it will help the younger ones here understand you don't really have to get pushed that far. There is help. Come here; we'll listen.</p> <p>They also hope for better legislation in Missouri to stop the bullying.</p> <p>Right now, bullying is really up to interpretation for schools, so when you say there should be no bullying, then the administration gets to decide what's bullying and what's not, and a lot of times, that leads to a lot of LGBT bullying.</p> <p>It's a problem, and people can get pushed to the edge, and when they get that far, they might not come back from it.</p> <p>we have to do what we have to do.. hundreds of thousands to remodel for 30-years, no feasible</p> <p>That's what the Bank of Billings' new president, Matt Spillman is coming into.</p> <p>i want to be open with the community when it comes to this project</p> <p>I knew coming to the bank, I knew poeple were emotionally attached</p> <p>A tour back in August showed us the issues.</p> <p>Water damage.</p>
Historical	10pm	10/31	:50	

				<p>Plaster peeling and wood warping. Thick wires keep the outer walls from falling over. Even the exterior stone walls are separating from the brick. the community makes your bank, so I've been inviting people to see what we're up against</p>
Homelessness	5pm	11/4	:25	<p>A local group is trying to make sure the problem of homelessness in Springfield stays in the forefront. The community partnership of the Ozarks is highlighting a specific issue on homelessness each week this month. The group says it wants to remind people that during tough economic times, there continues to be an increase in the number of homeless people, from children, to families to veterans. i would suggest going straight across, across Using nothing but tape, cardboard, creativity and teamwork- hold still over there These students are learning what is like to live without a real home- at least for a night... i don't really know what it is to feel a need, i've always had a roof over my head, For National Youth Homelessness Awareness Month- MSU's Plaster Stadium is transformed into a village of boxes... nothing special, nothing glamorous, but functional The event gives the "Rare Breed" youth shelter a chance to shed light on the issue of teens living on the streets. we have these people in our community and they need help we are currently serving over 60 every night Everyone had about two hours to get their cardboard boxes set up...before things got a little bit more realistic for folks experienceing life on the streets. if it keeps raining like this, im not sure how long it will last i hope it stops our kids don't really have a choice to go in and stay somewhere when its raining, so we hope they will stay and enjoy the entirety of the event. i will be out here all night, i'm here to do the whole thing, i dont quit</p>
Homelessness	10pm	11/12	1:33	

				<p>The rain - and darkness- provided enough motivation... to get some quick lessons on cardboard craftsmanship. i think this side is more sturdy</p> <p>Its a far greater lesson these folks are getting that'll be cause for thanks this season...</p> <p>its different because you know you have a nice house to go back to later on, but it is definitely a learning experience how it might be if you didnt have all that</p>
Homelessness	6pm	11/30	3:34	<p>Last November, members of several community agencies filled one room with one goal - to do more for Springfield's homeless population.</p> <p>Now, a year later, they've moved from studying and talking about the issue, to major progress toward getting more families a warm place to sleep.</p>
Health	5pm	12/01	3:51	<p>it is a hot-button issue in the medical community. should women who've had breast cancer get annual screenings with an m-r-i?</p> <p>radiologists meeting recently in chicago addressed the topic.</p>
Politics	10pm	12/30	2:30	<p>The six businesses that have applied for permits to sell alcohol in Boone County, Arkansas could be selling beer and wine in just a few weeks.</p> <p>Rooster's BBQ is one of two restaurants in Harrison that have applied to the state Alcohol Beverage Control Board.</p> <p>Owner Rusty Dees hopes the beer will compliment his barbeque and boost sales.</p> <p>He also thinks it will keep sales tax revenue in the county by cutting down on the number of people who drive across the county line.</p> <p>But after more than 65 years dry, the community remains very divided on the issue.</p> <p>The think that I have seen that has bothered me is the fact that we're split in the middle. You've got the wet people here and the dry people here.</p> <p>What I think, it will probably cut down is the trips to the line, having one on the way there and two or three on the way back.&gt;</p>

Dear Affiliate Partner:

To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (for QUBO Kids on NBC) as set forth in the attached Community Relations Quarterly Children's Programming Report for 4th quarter 2010. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: QUBO for both 4th quarter 2010 and 1st quarter 2011.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the educational and informational needs of children 16 and under. Please note that the age target for QUBO programming on NBC is 4-8 years old. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of the new FCC Form 398, we have added specific episode numbers.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.
6. Network on-air promotional efforts, which include a schedule of QUBO programming on NBC on-air promos.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 4th quarter of 2010 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content there to other than as directed by NBC via weekly postings on APT.

## "QUBO ON NBC" EDUCATIONAL OBJECTIVES

For 4th Quarter 2010

### EDUCATIONAL OBJECTIVES

#### 4th Quarter 2010 Educational Objectives

In compliance with the Children's Television regulations that became effective January 2, 1997, the **QUBO Programming Block on NBC** features an on-air icon (E/I) indicating that each program is "educational and informational" for children. This icon is displayed throughout each program. Also, in compliance with the regulations, the following document, which includes "educational and informational" objectives of **QUBO on NBC**, must be placed in your public file.

Each of the programs listed below, which make up the **QUBO on NBC** programming block, is specifically designed to serve the *educational and informational* needs of children ages 4-8. All of the programs have educational objectives that are central to the content and appropriate to the program genre.

From October 2, 2010 – December 25, 2010, **QUBO on NBC** aired six shows returning from the 3<sup>rd</sup> quarter. These are: **Turbo Dogs**, **Shelldon**, **3-2-1-Penguins!**, **Babar**, **Willa's Wild Life**, and **Jane and the Dragon**. Additionally, **Magic School Bus** and **Pearlie** premiered on the schedule, starting the second weekend in October, to replace **3-2-1-Penguins!** and **Jane and the Dragon**. All eight shows were developed specifically for a target audience composed of children 4-8 years of age. Six of the shows are book-based series. Six of the shows focus on important social-emotional messages for the target audience. All educational and informational messages are delivered through an animated narrative format.

**"Turbo Dogs"** is an animated show based on the books, Racer Dogs, by Bob Kolar. The series follows a group of six dogs from Racerville who love to compete with one another in races. In each story, one or more of the dogs encounter and solve problems that teach them social-emotional lessons on good sportsmanship, teamwork, cooperation, playing fair, and friendship. The show also imparts information on the mechanics of racing such as directionality and concepts of distance and time. The social-emotional messages are embedded through the stories using action and humor. The tags at the end of each episode reiterate and establish the educational message learned by the dogs.

**"Shelldon"** is an animated series about a school-aged yoka shell mollusk named Shelldon. He lives with his adoptive family, the Clams, in Shell Land, an undersea community populated by all sorts of sea species. Shelldon and his best friends, Connie (a cowrie shell mollusk) and Herman (a hermit crab), face a specific challenge in every episode. The problem may be managing a bully, improving their grades, learning how to be altruistic, or protecting their environment from natural and man-made disasters. In most cases, they rely on Dr. Shell, the most venerated intellectual and elder in Shell Land who teaches them and gives them opportunities to harness their potential and solve the problem. Each episode provides a direct social-emotional lesson and many episodes provide informational content relating to the sea life habitat of Shell Land and environmental conservation.

Based on the books by Laurent de Brunhoff, **"Babar"** is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces, including the death of his parents, as he journeys through life. Each episode of the show develops a social-emotional message such as taking responsibility, being patient and persistent in hard work, respecting people's privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a dilemma that is faced by Babar, one of his friends or family members.

**"3-2-1 Penguins!"** features two children, Jason and Michelle, whose vacation at their grandmother's cottage ends up being more adventure than they expect when their toy spaceship with four toy Penguins comes to life. The children are sucked into the spaceship, where they meet the now live Penguins and journey through space to solve an inter-galactic disaster threatening the Penguins and their friends. Each story begins with a problem, a moral dilemma for one of the siblings that affects his/her relations with the other, and ends after the children have learned an important social-emotional message through their adventure. The show communicates messages on topics such as honesty, being patient with others, and avoiding jealousy.

**"Willa's Wild Life,"** based on the book An Octopus Followed Me Home, by Dan Yaccarino, is an animated series centered on a six-year-old girl and her menagerie of animals. Willa lives at home with her father and pets – an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find ways to maintain healthy friendships, experience success, develop competence, and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants by helping others. She learns to appreciate the friends that she has rather than trying to change to fit in with the "cool" group. She realizes that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience.

Set in medieval times, **"Jane and the Dragon"** is an animated show based on Martin Baynton's best-selling book about a middle-class medieval girl named Jane. Jane is raised in the Royal Court as a Knight-in-Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Jane's best friend and a part of the castle community. In each episode, Jane encounters a challenge that tests her problem-solving skills and requires her to demonstrate her strength of character as a Knight of the King's Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved.

**"The Magic School Bus"** is based on a series of children's books about science written by Joanna Cole. The show features the ingenious Ms. Frizzle, an elementary school teacher and intrepid explorer who piles her students into her Magic School Bus and takes them on amazing field trips to impossible locations. The goal of each field trip is to answer questions or learn many new things about the place the class visits. Each episode is a fact-filled expedition to places as diverse as the solar system, the human body, or even inside weather systems. The bus transforms to suit the environment and the kids freely explore and share their learning with each other and with Ms. Frizzle, who nudges them to "make connections" and answer their own questions with research. The class pet, Lizzie, a large lizard, accompanies the class on their field trips. The content of the show is appropriate for children from ages 7 to 9 and in addition to all the factual content, the children also have a socio-emotional problem to solve that is embedded into the story line.

**"Pearlie"** is an animated comedy series based on the children's book series *Pearlie the Park Fairy* by Wendy Harmer. Pearlie is an optimistic, light-hearted fairy who sees the good in everybody, but often gets into situations because her desire to help is larger than her capacity to deliver. Aimed for an audience within the 4 to 8-year-old range, *Pearlie* focuses on the importance of following the rules, using good judgment and learning how to avoid getting into trouble. Since Pearlie was appointed by Fairy Head Quarters (HQ) to keep Jubilee Park in sparkling order she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. Pearlie's nemesis and cousin, Saphira, often takes advantage of Pearlie's good nature which requires that Pearlie must also frequently outwit the park bully. In each episode, Pearlie approaches new tasks and problems with a great deal of enthusiasm, but without the organization required to get the job done. Through plot developments and with the assistance of her friends, Opal and Jasper, she learns what to do and what not to do in each situation so the park can be restored to order.

## 4TH QUARTER 2010 SHOW SUMMARIES

**TURBO DOGS** is a show about six canine friends—Dash, GT, Clutch, Stinkbert, Strut, and Mags—who have their own distinct characteristics but share a common love of racing cars. The fastest dogs in Racerville, the Turbo Dogs often compete with one another in races. The dogs each have their own racers, which they maintain regularly, and that are equipped with individual GPS systems to help and guide them. Each story begins with one of the Turbo Dogs encountering a problem that must be resolved while preparing to compete. Usually, the Turbo Dog learns his/her lesson through experience and accountability for negative behavior. Social-emotional messages about sportsmanship, teamwork, cooperation, and fairness developed in the story are emphasized in a separate tag at the end of each episode.

**SHELLDON** is an animated series that takes place in Shell Land, a mythical undersea world populated by characters from a wide array of water-dwelling species. The main character, Shelldon, is an orphaned yoka shell mollusk adopted by the Clam family and living with them in the family-owned Charming Clam Inn. Dr. Shell, an elder and venerated inventor, and Connie, a cowrie shell classmate of Shelldon's also live at the inn. Shelldon and his buddies, Herman (a hermit crab) and Connie (a cowrie shell), always work together and solve problems that they face in school or in the community. A recurring problem is to staunch the plans of the local millionaire, Cecil Cracken, whose greed puts making money over protecting the environment. Dr. Shell is typically the children's key provider of knowledge and other resources. In each episode, the children learn a significant social-emotional lesson and also share information relating to their ocean habitat and environmental protection.

**3-2-1 PENGUINS!** draws upon characters from two stories and uses both long and short form material involving these characters to provide social-emotional messages to children. The show features two children, Jason and Michelle, whose vacation at their grandmother's cottage ends up being more adventure than they expect when their toy spaceship with four toy Penguins comes to life. The children are sucked into the spaceship, where they meet the now live Penguins and journey through space to solve an inter-galactic disaster threatening the Penguins and their friends. Each story begins with a problem and ends after the children have learned an important social-emotional message through their adventure with the Penguins.

**WILLA'S WILD LIFE** is an animated series featuring a six-year-old girl, Willa, who is permitted to share her home with an ever-growing menagerie of animals-- an elephant, a giraffe, a pair of performing seals, a bear, three penguins, and lots of rabbits. These creatures speak to Willa, offering her advice and friendship from each of their respective points of view. In each episode, Willa faces a challenge at home, in school or in her neighborhood. Her animals and best friend Dooley help her develop solutions to overcome each challenge. With the support of Dooley, the animals and praise from her dad, Willa finds ways to maintain healthy friendships, experience success, develop competence, and become altruistic.

**BABAR**, based on the books by Laurent de Brunhoff, is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces, including the death of his parents, as he journeys through life. Each episode of the show develops a social-emotional message such as taking responsibility, being patient and persistent in hard work, respecting people's privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a dilemma that is faced by Babar, one of his friends or family members. **BABAR** first appeared on the schedule in 2007 and returned with new episodes for the 2009-2010 schedule.

**JANE AND THE DRAGON** , based on the book of the same name by Martin Boynton, is a coming-of-age story about a middle-class, medieval girl who lives in the Royal Court with her family. As an only child, Jane is raised to be a Lady-in-Waiting but through her determination and a stroke of luck, she ends up being trained as a Knight in the King's Guard. Accompanied by her best friend, a giant green Dragon that lives in her backyard, Jane experiences a series of adventures that test her character and her skills as a young knight in a castle full of friends and foes. Each episode in the show takes us through the problems and challenges Jane encounters and the process she goes through to find the solutions for them.

**THE MAGIC SCHOOL BUS** is a show that features the most adventuresome teacher on the planet, Ms. Frizzle and her group of students who dutifully follow her approach to education—by taking magical field trips to learn about anything that interests her or them. All the students are curious, but with each one, there is often a personal problem that needs solving and the field trip has a way of dovetailing with the personal challenge to get everything all worked out. The class has been on 52 field trips, traveling in a magic bus that can transform its shape and power source, so it can travel through any environment, from the bottom of the ocean to outermost space. Ms. Frizzle can handle it all, from driving the bus, navigating unfamiliar terrain, to guiding the children's learning through inquiry. She is undeterred and rarely discouraged and expects no less from her students. Ms. Frizzle is amazingly understanding and permissive in her approach and the children are ambitiously curious about the world as a result. It's not just the bus that's magic.

**PEARLIE** recounts the weekly escapades of an optimistic, amiable fairy who has been appointed by Fairy HQ to maintain order in Jubilee Park. She lives among a dozen assorted characters, including her fairy best friends, Opal and Jasper, a garden elf, a wood nymph, possum, bats, other fairies, rats, a small colony of fleas, a lizard and her arch-rival, Saphira, who is also her fairy cousin. While Pearlie is very likable, she is a bit of a busy-body who likes to arrange things according to over-ambitious plans that ultimately get her in trouble. She gets along with everyone so, ultimately, every problem is solved and Pearlie learns a lesson. However, her greatest challenges are usually presented by her one enemy, the bully and diva Saphira. Fortunately, Pearlie rises to Saphira's challenges, not with meanness, but by outwitting her. Overall, learning is a constant process for Pearlie because she has big responsibilities, taking care of an entire little community, but she is indomitable and tenacious and ends up preserving order and happiness in Jubilee Park.

**TURBO DOGS**

**MARSHALL DASH [TDO106]**

As the new race marshal, Dash takes his role very seriously and immediately begins creating and enforcing new rules. Though his first rule is agreeable to everyone, soon he goes overboard and makes up rules that prevent the dogs from doing anything fun in his clubhouse. When they try to object, Dash insists on his position as the marshal. Mags tries reasoning with Dash, but he doesn't listen, and continues to enforce unfair rules until nobody wants to be around him. When he complains that his friends haven't asked him to join them for pizza, Mags reminds him that he didn't ask them before he made up those rules, either. Realizing she's right and that being marshal means he must lead and listen to others, Dash apologizes and promises to make rules on which everyone agrees.

**[Educational Message: Being a leader means you have to listen to the opinions and needs of those around you before making and enforcing rules that affect everyone. You cannot just form your own rules and boss everyone around.]**

**DOGS IN THE FOG [TDO106]**

Officer Gruffer visits the dogs to make sure their maps are loaded on the GPS for the next race. As he visits each clubhouse, he startles the dogs with his loud laugh, causing minor accidents in the process. Embarrassed, he heads to Doggone Pizza to eat, but his laugh ends up distracting Five. When he overhears Mags and GT discussing his laugh, he decides to change it so it doesn't cause more trouble. He tries Mags' high-pitched laugh, then a deeper laugh, but the dogs just find his laugh stranger. Disheartened, Gruffer decides never to laugh again. He learns to appreciate his laugh when the dogs get lost in the fog during the race without their GPS systems. The dogs rely on Gruffer's loud laugh to reach safety and explain that although they need to get used to it, they do appreciate his laugh.

**[Educational Message: You may have a feature or habit that is different from others, but you do not have to be too self-conscious about it. Your friends will get used to your difference and may even grow to appreciate or rely on it.]**

Connie gets an A on her assignment and the favors quickly begin to spread. Cecil Cracken sees a way to exploit this idea and take over Shell Land. First, he woos Connie by telling her this idea will make her famous. Then he charges people a fee to perform a favor. But there is also a penalty fee if you are not able to perform favors for others. As a result, the town is in chaos with people fighting over who gets to do a favor for someone else. Sheldon and Herman tell Connie, and when she starts a commercial to make Cracken the new Mayor, she tells Shell Land that they need to pass their favors on to one stingy, rich guy, Cecil Cracken. They all go and fix up his mansion. Now he owes tons of favors to others or will have to pay millions of sand-dollars in penalties.

Pearlie offers to take care of his fairy duties so children will not be sad that they've been forgotten. Drawing a blank and shocked at her preoccupation with perfection, she promises to correct the situation immediately. This is a major infraction of Fairy Rule #2, and Pearlie will probably fail the inspection because she cannot make it perfect. Pearlie recalls that she and Fern, the wood nymph, accidentally bumped into each other while flying through the park and thinks Fern probably picked up her wand. She discovers that the rats, Scrag and Mr. Flea, picked up Fern's wand, so Pearlie sets off to locate Fern. Unfortunately, along the way Pearlie decides to use

Fern's wand without permission and makes all the plant life grow into tangled mess of grass, flowers, trees and vines. Fortunately, Fern is found at Saphira's and Pearlie manages to get her wand back and restores the park.

## **WILLA'S WILD LIFE**

### **ALLIGATOR ATE MY HOMEWORK [WIL007]**

When Willa's school project is ruined, all eyes turn to Gus who is usually responsible for eating things. Gus insists that he is not guilty, but the animals have a hard time believing him. Willa and Dooley look for clues to try to find the culprit rather than blame Gus. They find a paint can that is too high for Gus to reach and a long footprint. All the clues seem to point to Koko who breaks down and confesses. The animals learn a lesson in telling the truth and not jumping to conclusions.

**[Educational Message: Don't jump to conclusions and place blame without proof. If you're honest about your mistakes, you'll probably be forgiven.]**

### **IF THE BOOT FITS [PEA103]**

All the boots from Aunt Garnet's store are missing. Saphira and Pearlle have also found that all of their boots are missing. Saphira immediately concludes that they have been stolen, and blames Opal, calling her the Outback Boot Bandit. Pearlle believes Opal is innocent even though Saphira convinces Gobsmack that Opal is the prime suspect. Jasper, Opal and Pearlle set a trap to find the thief and prove Opal's innocence. Sure enough, Nancy, the millipede, comes into the scene with several pairs of boots on her feet. She wanted to dance at the big "boot scoot" event taking place in the park that night. Because Saphira wouldn't give her time off, she "borrowed" them without permission and apologizes. Gobsmack sets up a punishment, which is to be his date for the "boot scoot."

Pearlie gets word that Jubilee Park is going to be inspected for a feature story on beautiful gardens. She goes to Aunt Garnet for help and is given a special mist to make the flowers grow. Although she warns against using too much of the mist, because flowers are very sensitive, Pearlie and Opal go overboard and the flowers get out of control. The flowers start arguing with Pearlie, and then start fighting each other. In desperation, Pearlie goes back to Aunt Garnet who scolds her for not following directions and mentions that everything needs a soaking. Pearlie is forced to think about what Aunt Garnet means and figures that the flowers need some rain to calm them down. With Jasper and Opal's help, she sprays water all over the garden. The flowers immediately pose beautifully for the photographers and Pearlie's garden is selected for a cover story.

**Jack Hanna's Animal Adventures**  
**2010-2011 Season**  
**Show Descriptions**  
**9/20/10 – 12/13/10**

**Mush! #2042**

Jack visits Will Steger, Arctic explorer, at Homestead, his training camp outside of Ely, Minnesota. Twenty miles from the Canadian border, Will is training and planning for his latest expedition ... a journey across the Arctic Sea by ski and dog sled, all in one season. In the harsh and dangerous environs in which Will travels, his life is entirely dependent upon his dogs. The expedition will be checking into the Internet on a daily basis so that students around the world can follow its progress. Will's goal is to bring international attention to pollution accumulating in the Arctic.

**Some Ruff And Grizzly Characters #2043**

Doug Seus has many animals at his home in Utah where he trains a few of them for movie appearances. His grizzly bears starred in "The Bear". Doug is helping animal conservation efforts by buying up their habitats. Sometimes the land is adjacent to national parks. Much of his support comes from actors who have been involved with Doug and his animals. We'll meet the stars of "The Bear" and experience Doug's special relationship with his charges.

**Special People, Special Dogs #2044**

Connie Bombaci of Madison, Connecticut, is a special person. She has adopted two Dalmatians that are deaf and taught them sign language, along with her Black Labrador-Dalmatian cross breed. The dogs can readily interpret simple commands given in American Sign Language. Jack then visits some very special dogs at Fidelco of Bloomfield, Connecticut.

**The Wilder Side Of Las Vegas #2045**

When you think of Las Vegas, you might think of the Strip, the casinos, "Sin City". But there's another side to the town, an even *wilder* side that many people never experience. Jack journeys to the Mirage Hotel, where a special group of bottlenose dolphins lives. These marine mammals participate in a unique program that is helping autistic children. After spending time in the water, Jack is ready to be back on dry land

**Elephants Of Amboseli #2046**

Jack spends a day with elephant researcher Cynthia Moss at her camp in Kenya. Surrounded by hundreds of elephants, Jack discovers how researchers study, observe, and identify these magnificent pachyderms. The visit includes a startling attack between an adult elephant and a baby cape buffalo who becomes separated from his herd. Fortunately, there is a happy ending.

### **Iguassu Falls (2200)**

In southern Brazil, Jack and Kathaleen boat up a raging river to Iguassu Falls, the world's largest. At the base of the falls, dad and daughter marvel at the unusual nesting site for thousands of Swifts. Later, in drier conditions, Kathaleen interacts with a family of hungry Coati Mundis. At the nearby Parque das Aves, Kathaleen encounters many native Brazilian birds including Toucans, Macaw Parrots and the Macuco.

### **Day In Queen Elizabeth National Park #2047**

Jack travels to Uganda and goes on safari in Queen Elizabeth National Park, one of the most spectacular spots in Africa! From hippos to kob and cape buffalo, Jack encounters exotic animals and amusing situations during an early morning game drive, an African boat safari, and a lively fishing expedition. Enjoy hilarious antics in an African drum shop, misadventures on a mud-caked road, and high-flying excitement with an eccentric African bush pilot as Jack explores the beautiful countryside of Queen Elizabeth National Park by land, sea, and air!

### **Saving Endangered Species #2048**

At the Sheldrick Wildlife Center in Nairobi, Kenya, Jack is introduced to orphaned baby elephants whose parents were the unlucky victims of poachers. Because the babies haven't learned how to survive in the wild, they are trained by humans to behave like elephants. Jack participates in showing the elephants how to break off branches, roll in the mud, and give themselves dust baths. Jack also travels to the Negre Sergoi Rhino Sanctuary to visit his friends Anna Merz and Samia (a black rhino Anna raised from infancy).

### **Chimpanzees Of Chambura Gorge #2049**

Travel with Jack to Uganda's Chambura River Gorge to visit a family of forty chimpanzees who make their home in this tropical treasure.... only recently discovered by a Peace Corps worker. After learning how to call and track chimps in the wild, Jack heads into the gorge to observe the chimps in their natural habitat.

### **Safari Through The Masai Mara #2050**

Jack flies to the Masai Mara Reserve in Kenya, where wildlife abounds! As he steps off the plane, Jack has an up-close encounter with cheetahs. During a walking safari, Jack experiences a variety of adventures while visiting hippos, zebras, rhinos, elephants, giraffe, and wildebeest in their natural habitat.

### **Education Worldwide #2051**

Children are the future in protecting and preventing endangered species, both in America and abroad. Jack shows us how education is the key to accomplishing this goal. We visit a giraffe center in Kenya, where children, some of whom have never seen a giraffe, come to learn all about these unusual animals. With Jack's help, the children even feed the giraffes! Later Jack introduces us to children at a Masai school.

### **In Search of the Giant Anteaters at Serra Canastra (2201)**

At the Serra Canastra National Park, near the town of Sao Roque de Minas, Jack sets off in search of Brazil's Giant Anteater. Jack also visits the humble beginnings of Rio Zoo Francisco, the country's longest river.

### **The Game Warden #2052**

Arriving at the game warden headquarters in Kenya, Jack discusses the importance of the job, conservation, and survival of elephants. The head game warden talks about poachers and shows Jack some of the rifles that have been confiscated. While on patrol they discover an elephant carcass, but are unable to determine if its death was caused by poachers or natural causes. The warden removes the tusks to prevent the ivory from being taken by poachers.

### **On Safari With Jack #2053**

Enjoy an exciting adventure filled with behind-the-scenes clips of Jack's recent month long trip to East Africa. In Kenya and Uganda we follow Jack as he explores the wonders of this region on land and by air. Jack, along with Busch Gardens animal expert Margo McNight, encounters cheetahs, gazelles, ostriches, lions, topis, elephants, and more while driving across the African plains.

### **Uganda Gorillas, Part 1 #2054**

With the Mountain Gorilla population nearing extinction, Jack heads to the Bwindi Impenetrable Rain Forest. Upon arriving in Uganda, Jack is quickly introduced to the African culture, with several amusing roadside detours. While traveling to camp, Jack and his crew use ingenuity to overcome obstacles including foot-deep mud and a rock being thrown through their windshield. Once at camp, Jack gives the grand tour and settles in to enjoy the campfire. The following day Jack begins his quest in earnest as his guide, Gongo, takes him deep into the African jungle in search of the Mountain Gorilla.

### **Uganda Gorillas, Part 2 #2055**

Tracking gorillas in Uganda's Impenetrable Rain Forest is quite a challenge. Through steep inclines and thick brush, Jack perseveres until he finally steps into the temporary home of a Mountain Gorilla and his family. With a viewing distance of just fifteen feet from the gorillas, Jack gets an intimate look at this primate's habitat and experiences some tense moments as a giant silverback gorilla charges him and his crew. We learn from the people on the front line what needs to be done to help preserve this dying species. In addition, the Ugandan culture is highlighted as Jack tries an authentic African lunch and talks to his guides about how they track barefoot in the jungle.

### **Arctic Expedition #2056**

With the icy Arctic landscape as a backdrop, Jack embarks on an adventure in search of polar bears. His journey takes him through remote towns where he introduces us to the Inuit people, their lifestyle, and the unique character of Arctic Bay. As he searches for the elusive polar bears, he braves the frozen terrain, sleeps in an igloo, and eats sardines and bannick! Jack eventually meets up with Canadian researcher, Glenn Williams who has successfully tracked polar bears and has done extensive research on their habitat. Jack finally comes face-to-face with a polar bear, but in an unpredictable place.

### **For Goodness Snakes (2202)**

In Sao Paulo, Jack visits the famed Institute BuTanTan, which has been producing anti-snake bite serum since 1900. In research labs, Jack encounters Brazilian Rattlesnakes, Jararacas and 50,000 poisonous spiders. During Jack's stop at BuTanTan, a rattlesnake victim is brought into the Institute's snakebite hospital for emergency treatment. Meantime, Kathleen heads for the town of Monte Verde and the Hotel Itapua where she checks out hundreds of Hummingbirds.

### **A Special Bond #2057**

Those who work with wildlife — like conservationists, zookeepers, and researchers — share a unique kind of dedication. It's a special bond formed with the animals that are the object of their care and concern. With Jack as our guide this program takes a look at two dedicated animal keepers at the Columbus Zoo who develop a special bond with Bengal Tiger and Clouded Leopard cubs. Jack also visits with Dr. Sarah Boysen, a noted researcher with Ohio State University, who studies the cognitive intelligence of chimps. Through her studies she is hoping to gain a better understanding of early man.

### **Swimming With The Manatees #2058**

Jack visits Crystal River in Florida, the birthplace of manatee research ... and the only place where you can swim face-to-face with the great manatee in the wild. Jack learns about the plight of the manatee and what's being done to save this endangered animal. He goes on patrol with the U.S. Fish & Wildlife to see firsthand how the manatees are being protected from boaters and divers.

### **Turtle Hospital #2059**

Jack visits the only Turtle Hospital in the world, located in a renovated hotel in Marathon in the Florida Keys. The hospital is run by Tina Brown and Richie Moretti. During his visit, Jack takes part in a turtle rescue as he goes out on an emergency call in a specially designed "turtle ambulance". Jack also assists in the operating room as a wounded turtle is freed from tangled fishing line. The adventure continues with a boat ride into the Gulf of Mexico for a turtle release. Jack learns about a new virus which causes tumors in sea turtles and discovers what is being done to nurse these turtles back to health and back into the wild.

#### **Miami Serpentarium #2060**

The Miami Serpentarium is a former tourist attraction that has recently moved from Miami to Punta Gorda on the west coast of Florida. The serpentarium is dedicated to snake research and anti-venom serum production.

#### **Dolphin Research Center #2061**

Jack visits the Florida Keys for an animal adventure of the aquatic kind! In Marathon, he visits a dolphin research center where he swims with the dolphins and learns about the unique social behavior of this fascinating and graceful mammal.

#### **Saving Beautiful Brazil (2203)**

Jack visits the Sao Paulo Zoo, where a small cat-breeding program aims to save many of Brazil's endangered wildcats including the Margay, Oncilla and Pampas Cat. At a Government Rehab Center in Campo Grande, Jack seeks scores of animals confiscated from smugglers, including Macaws, Toucans, Tapirs, Monkeys and an Anaconda. Meantime in Bonito, Kathaleen repels down 270 feet to discover the fresh water inhabitants living in the Anhumas Abyss.

#### **Cayman Encounter #2062**

Jack travels to the Cayman Islands where he takes a boat ride into the heart of Sting Ray City for an encounter with one of nature's most unusual fish. Jack dives with the rays for a close-up look at how they play, feed, swim, and interact with people. Jack also tracks the island's Blue Iguana and visits a turtle farm.

#### **Hands on University #2063**

Moorpark College in Moorpark, California features a unique program in animal handling and management. More than one hundred animals assist in teaching, ranging from large cats to baboons to birds. Jack sits in as a student for the day and goes into the field to work with some of the animals.

#### **Wildlife Waystation #2064**

Martine Colette's waystation is often the only alternative for thousands of wild and exotic animals who have nowhere else to turn. Jack visits her collection of rescued animals, which number in the thousands over the past years. Most recently, she has taken in a number of lions and two young grizzly bears. She has also built a new research facility for chimps.

#### **Pinnepeds - Tons of Fun #2065**

Pinnepeds include seals, sea lions and walruses. Highlighting this program is Jack's up-close and comical interaction with four infant Pacific walruses. Also featured are the giant elephant seals of Ano Nuevo during mating season. Ano Nuevo is one of the most populated pinneped rookeries in northern California.

### **Friends Of A Feather #2066**

It started as a childhood hobby for Joe Carvalho. Joe is now an internationally acclaimed bird trainer. After being serenaded by a talking parrot named "Echo", Jack helps Joe free-fly colorful macaws and Andean Condors from the hillside of an unlikely San Francisco home.

### **Orcas and Grizzlies (2213)**

In Canada's British Columbia, Jack flies by floatplane to Knight Inlet where he observes Grizzly Bears fattening up for hibernation on Pacific Salmon. Meantime, at Telegraph Cove, Kathleen boards a boat to find Dahl Porpoises, Pacific White-sided Dolphins and Killer Whales, the most formidable predators of the sea.

### **Rescue Dogs #2067**

What does it take to create a rescue dog? Jack visits one of the most successful training programs in the country located in San Bernadino, California. These are the same dogs that were instrumental in the search and rescue efforts of the Oklahoma City bombing disaster. Jack takes part in demonstrations which exhibit the incredible skill these dogs possess. We meet Walt Harrison and his dog Misty. Walt and Misty are the top rescue team in the U.S. This show is scheduled to honor the first anniversary of the Oklahoma City bombing.

### **World Of Birds #2068**

Jack travels to Capetown to visit the World of Birds. The third largest bird park in the world features 3000 birds representing 400 species. Many of the birds are rare and endangered. Walter Mangold, founder of the park, collected these birds from around the globe. We also travel to the very tip of Africa for an ostrich encounter at the legendary Cape of Good Hope. Jack rounds out his feathered adventure at Boulder Beach with a close up look at the endangered African penguin.

### **The Elusive Cheetah #2069**

North of Johannesburg Jack visits the world-renowned DeWildt Cheetah Center founded by conservationist Anne Van Dyk. A great deal is now known about the social and breeding behaviors of the elusive cheetah thanks to Van Dyk and the Center. In fact, the Center's captive breeding program is largely responsible for taking the cheetah off the endangered species list.

### **Operation Rhino #2070**

A concerted effort is underway to save the endangered black rhino at the hlulhuwe-Umfolozi Park in South Africa. Jack tracks the park's rhino only to encounter a charging bull elephant!
