To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (the '**NBC Kids**' educational and informational programming block) as set forth in the attached Community Relations Quarterly Children's Programming Report for the 2nd quarter of 2014. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: NBC Kids for both 2nd quarter 2014 and 3rd quarter 2014.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the early educational and informational needs of children 16 and under. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of FCC Form 398, we have added specific episode numbers. Please note that the age target for NBC Kids programming is identified as 2-5 years old.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.
6. Network on-air promotional efforts, which include a schedule of NBC on-air promos for NBC Kids programming.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 2nd quarter of 2014 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content thereto other than as directed by NBC via weekly postings on APT.

*Note Regarding FCC's Video Description Rules:* The programs supplied in the NBC Kids block are video-described to provide a better view experience for blind or visually impaired children. *Under the FCC's video description rules that became effective on July 1, 2012,, full-power affiliates of the ABC, CBS, Fox and NBC networks that are located in the top 25 television markets must provide 50 hours per calendar quarter of video-described programming during prime time or in children's programming. A video described program may be counted toward the 50 hours when it is originally aired and on one re-airing.. Although much of the programming aired with video description is likely to be newly produced, stations may count any program they are airing for the first or second time with video description after the effective date, even if the program aired on that station without video description prior to the effective date. Similarly, a station may count programming toward its 50-hour obligation even if that programming has aired elsewhere with video description, as long as it is airing with description for the first or second time on that station.*

## **2<sup>nd</sup> QUARTER 2014 EDUCATIONAL OBJECTIVES**

In compliance with the Children's Television Act regulations that became effective January 2, 1997, the **NBC kids** programming block features an on-air icon (E/I) indicating that each program is "educational and informational" for children. **This icon is displayed throughout each program.** Also, in compliance with the regulations, the following document, which includes "early educational and informational" objectives of **NBC kids**, must be placed in your public file.

The **NBC kids** programming block also meets the requirements for video described content, as established by the Twenty-first Century Communications and Video Accessibility Act, effective October 8, 2010. Full-power affiliates of NBC that are located in the 25 television markets with the largest number of television households must provide video-described content at any time they are providing children's programming. Each episode of content can be aired no more than twice in the calendar year.

Each of the programs listed below, which make up the three hour **NBC kids** programming block, is specifically designed to serve the early educational and informational needs of children ages 2-5. All of the programs have educational objectives and messages that are core to the content and appropriate for the program genre.

From April 5, 2014 – June 28, 2014, **NBC Kids** aired five shows returning from the 1<sup>st</sup> Quarter 2013. These are: **The Chica Show, Noodle and Doodle, Justin Time, Tree Fu Tom, and Lazy Town.** The sixth show, **Zou**, entered the schedule April 5, 2014.

All six shows were developed specifically for a target audience composed of children ages 2-5. All but one of the shows (**Noodle and Doodle**) have a narrative format. Three (**Justin Time, The Chica Show** and **Tree Fu Tom**) use elements of fantasy and imagination to develop the educational content. **The Chica Show** and **Tree Fu Tom** combine live action with animation; **Lazy Town** is live action with puppets, **Justin Time** and **Zou** are animated, and **Noodle and Doodle** is a live action, fact based craft and cooking show.

**The Chica Show** features a five-year-old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an

adventure—a fantasy transformation to animation-- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

**Noodle and Doodle**, an instructional series, features creating art projects and cooking projects around a specific theme. Host, Sean, drives around in a double-decker bus fully equipped with art supplies and a kitchen, ready for any assignment. The projects encourage parent engagement and often feature families working together to make something to display within the child's home. Sean's side-kick, Doggity, is an ever-faithful beagle who transforms into an animated character during interstitial trips to a parallel universe, set in a kitchen full of prank playing animated characters. The art projects typically promote utilizing recycled materials in order to demonstrate that creativity can transform something intended for one purpose into something that achieves a completely different goal.

**Justin Time** features a little boy, Justin, who wants very much to master his destiny, have great adventures, and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, providing him with an experience to help solve his problem when he returns home. Justin is accompanied by two imaginary friends throughout his adventures. There is Olive, a knowledgeable playmate, and Squidgy, the morphing flying sponge, who provides commentary and comedy along the way. Some examples of Justin's lessons involve learning that it takes focus to achieve success, our failures can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find an alternative way to achieve your goal. Justin promotes self-directed learning from the young child's perspective and imagination.

**Tree Fu Tom** is a live action/animated series about a little boy who lives in a rural area and has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods. While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn, and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him "Big World" magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish or relying on teamwork in order to accomplish a goal.

**Lazy Town** encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus, a gymnast/athlete prepared to answer any call for help, comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a

wide range of physical activities including playing games, competing athletically, and even building forts and play structures.

**Zou** is a French series based on the **Zou** books by Michel Gay. Targeted for children age 2-5, each episode explores the kind of learning issues that emerge from everyday encounters in the life of a preschool child. If Zou plays his drums too loud, how can he learn to play them softly? If Zou wants a car, but has only a cardboard box, how can he transform it? If Zou lost his friend's favorite airplane, how does he explain? How can Zou be successful at baking a cake if he has never done it before? How can Zou muster the courage to go to the doctor when he's afraid of injections? These are big issues in the mind and life of a preschool child and Zou demonstrates how to have fun, ask for help, listen to advice, and try different solutions until he can commit to the strategy that works. The show says it, shows it, and does it, in the embedded and naturally occurring lesson within each episode.

### **3<sup>rd</sup> QUARTER 2014 EDUCATIONAL OBJECTIVES**

There are no new shows during the 3<sup>rd</sup> quarter.

### **2<sup>nd</sup> QUARTER 2014 SHOW SUMMARIES**

**The Chica Show** features a five-year-old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

**Noodle and Doodle** is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. **Sean** drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character and Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art, and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.

**Justin Time** is an animated show specifically directed to the preschool audience. Each episode always conveys an embedded lesson; that it is possible to understand and manage any problem you have by thinking about it creatively. Justin is a little boy who has two imaginary playmates, Olivia (who meets him on his travels) and Squidgy the sponge (who also lives in Justin's bedroom). When Justin has a problem or doesn't want to do something his mother has suggested he daydreams his way into an adventure that takes him to places all around the world. On these adventures, he meets Olivia who guides him through an experience that demonstrates to Justin

how he can solve his problem. The show provides many facts about the context the characters visit while on the adventure, but the central point is to teach a lesson about a social/emotional dilemma universally experienced by preschool children.

**Tree Fu Tom** focuses on the amazing adventures of a young boy called Tom who, with the power of ‘movement magic’ called ‘Tree Fu’, can transform into a tiny but mighty magical super hero and travel to a wondrous enchanted kingdom called Treetopolis that exists in a tree in his backyard woods. During each program he calls upon the audience to follow his moves and send him the “Big World” magic he needs to solve a problem encountered by Tom and his friends. These include Ariella, a butterfly who is also a rancher and has rope lassoing skills, Twigs, an acorn sprite who folds himself into an acorn when he’s frightened, Squirmturn, a pill bug who looks like a large and imposing coal miner but is often timid and fearful, and Zigzoo, a green tree frog and the resident genius inventor. In each episode there are action adventure sequences that are key to resolving the challenge of the day.

**Lazy Town** is a show featuring the importance of health, fitness, and being good friends. Set in a fantasy world known as Lazy Town, which is populated by inactive residents, we meet a visitor named Stephanie who is determined to coax her friends and relatives into adopting a healthful, active life style. She wins over her new friends, Ziggy, Stingy, Trixie and Pixel, convincing them to leave their gaming consoles and candy stashes at home so they can go outside and play. She persuades her uncle, Mayor Milford Meanswell, and his friend Ms. Busy Body to support her efforts. Robbie Rotten, who lives underground, and is determined to return Lazy Town to its former state of inactivity and quiet, constantly foils the characters’ efforts. The athlete Sportacus, who lives in a zeppelin-like aircraft and receives signals from the kids or the Mayor whenever they need help, often comes to their rescue. Sportacus has two goals, to keep the peace and to promote healthful, positive living. When Robbie Rotten is discovered and contained through comic pratfalls, he returns to his underground lair and all is well in Lazy Town, until another day and another time when Robbie will rise again.

An animated series, **Zou**, is the story of a 5 year old zebra, Bizou, who lives in an intergenerational household composed of his parents, grandparents, and great grandmother. They reside in a lovely brightly colored suburban community of vertical, bi-pedaled zebras that walk, talk, dress, and interact like humans. Bizou’s best friend, Elzee, lives next door and his other good friend, Zac, is often found in his father’s store. Bizou also has a less rewarding relationship with his snooty, spoiled cousin Zinnia, a budding ballerina. We follow Zou through his hum-drum days, vicariously participating in his birthday, a trip to the store, taking his pet parakeet Poc, to the doctor, or helping Elzee find a lost toy. The show is very centered on family and personal relationships, and the abundant adults in the family are always around to guide but not direct Bizou through his dilemmas, projects, and predicaments.
