Section 3: Supplemental (Non-Vacancy Specific) Recruitment Activities

Undertaken by Employment Unit

Covering Period: June 1, 2016 – May 31, 2017

Stations Comprising Station Employment Unit: WFXD, WKQS, WRUP, WQXO

Overview:

We continued to encourage those with job openings and those that would like to be notified of job openings at our stations to submit them to our General Business Manager.

Network and Station Employment Policy statements were reinforced to all current employees and introduced to all new employees to indicate the following position of Great Lakes Radio, Inc.:

Great Lakes Radio, Inc. and all its association stations in the Station Employment Unit is dedicated to affording equal opportunity to all qualified persons and that no person shall be discriminated against in employment on the basis of race, color, religion, national origin, or sex. There are specific new outreach activities and record keeping required showing compliance, and every person at Great Lakes Radio, Inc. is affected. Everyone from the janitor to the cake decorator, when classified under the rule as an employee, must be part of the process that ensures employment opportunities are disseminated in the widest possible manner, through multiple mediums, throughout our community.

Every effort has been taken by management, including many man-hours of time expended, to ensure full compliance with both the letter and spirit of the Equal Employment Opportunity Rules. As with last Summer, Spring and Fall, we also intend to participate in Job Fairs at the local university, continue to expand our employment contact list, and to improve our coordination with local community organizations to ensure successful future wide dissemination of specific job opportunities at Great Lakes Radio, Inc. and to encourage the widest possible numbers of people to explore employment opportunities in the broadcast industry in general. The following is a good example in that spirit, and is broadcast regularly on our schedule to all stations in our Employment Unit:

Great Lakes Radio Stations WFXD 103.3, WKQS 101.9, WRUP 98.3, and WQXO AM 1400 are looking for organizations that regularly distribute information about employment opportunities to job applicants or have job applicants to refer. If you organization would like to receive notification of job vacancies at our stations, please notify: Employment, c/o Great Lakes Radio, Inc., 3060 US 41 West, Marquette, MI 49855. Email our stations at employment@broadcasteverywhere.com or phone 906-228-6800. Great Lakes Radio Stations, WFXD 103.3, WKQS 101.9, WRUP 98.3, and WQXO AM 1400 are Equal Opportunity Employers and encourage minorities and females to apply.

Outreach Summary

Job Fairs:

Great Lakes Radio personnel (Rita, Nancy, Naomi, and Bruce) attended the Northern Michigan University Job Fairs on October 12, 2016 and the on March 22, 2017. At the job fairs, we posted our available positions for Marketing Executives and Internship fliers. Skills emphasized were sales experience, graphic design, news writing, community promotions, social networking and blogging. The Great Lakes Radio representatives talked about intern positions, encouraging real life experience to students in Commercial Broadcast Radio and various other majors. Representatives of the station also were present at Northern Michigan University's Fall Fest on August 22, 2016 distributing fliers for open positions and open internship positions.

Community Tours:

Community Tours were once again offered to local Girl Scout and Boy Scout troops. Great Lakes Radio personnel (Nancy) discussed opportunities available to tour the radio station with local Scout leaders as a way to get Scouts involved in or to explore radio careers and complete merit badges.

Training and Internships:

Great Lakes Radio, Inc. continued training for all personnel. 108 hours of training sessions were completed during the course of this reporting period and employees were encouraged to use a special private website to further their skills. The goal is to allow advancement of personnel to great positions in the company by providing necessary skills applicable in and outside of the radio industry. This training opens opportunities for some to gain positions for which they might not otherwise have been qualified.

Among the topics covered are audio theory, audio concepts, modern media in radio, RDS broadcasts, script writing, copyright law, copy improvement, press releases, electronic documents and filing, public engagement through new media, basic writing skills from sentence structure to diction. Radio Sales Marketing training was offered to smaller groups, including music programming and policies, traffic training, and so on. One-on-one training in departments – of both interns and employees – continued to increase in the last reporting year. Associated pay raises and advancement opportunities continued to open as training created impact, including pay bonus opportunities for those especially excelling after training.

Ongoing Outreach Efforts:

Great Lakes Radio continually intends to increase our outreach sources for the future, including the possibility of additional interns from Broadcasting, Marketing and non-traditional majors from our local university, Northern Michigan University and our local high school, Marquette Senior High School. We also consider the invitation to our community to give their input on our local programming an outreach which may lead to

individuals from non-traditional resources or venues. As we continue gathering more effective sources of outreach into our local community, we intend to introduce individuals to Broadcast Radio as an option by their contact with us in these outreach efforts.
