

## **Exhibit 2 Page 1**

### **Corporation for Native Broadcasting Purposes and Objectives**

Corporation for Native Broadcasting (a non-stock, not-for-profit broadcasting corporation, hereinafter "CNB") primary purpose is to provide education, music and entertainment based on the native culture. Almost as equally important is the CNB's secondary purpose, to promote communication cooperation, and change within the native and non-native communities by providing a venue for educational programs.

CNB will focus on both local and national programs to promote the native culture and bring the message of communication and cooperation to the attention of our listeners. Thus, the radio station's focus will be to educate our community in the following areas:

1. To make our audience aware of the regular news and information from all Tribal offices, and educational institutions and the same from the surrounding towns and communities.
2. To reinforce positive family values in the home. Educating and encouraging families to fulfill their respective roles in a productive society.
3. To serve as a venue for positive community news and activities.
4. To share positive and uplifting music from the different communities within our broadcast area, such as native, Christian, and popular music.
5. To educate the community about the native culture and language.

There is an oversight board composed of members who believe in the native culture and the need for communication and cooperation between the native and non-native communities. Their hope is to bring about positive change for all communities within our broadcast area. Board members will:

Set goals and give programming direction.

- Ensure that a greater percentage of the programming is based on the native culture.
- Determine if the programs meet the purpose of educating the public and promote positive change.

CNB will seek out local and national programming sources so that a regular schedule of programming can be provided which fulfills our educational goals and purposes for the community.

## **Exhibit 2 Page 2**

# **Corporation for Native Broadcasting Purposes and Objectives**

In summary, the programming presented to the public will encourage people to open the lines of communication between each individual community in our broadcasting area. And the native culture will be the cornerstone in the foundation of our teaching and programming focus.

### **EDUCATIONAL GOAL 1**

The goal of educating our listeners about the native community and the surrounding towns and communities will be fulfilled by local programs. After the station is established, national programs will be added. The local programs will be developed from a volunteer pool of organizations and DJs such as:

- Tiospa Zina Tribal School
- Sisseton Public Schools
- Sisseton Wahpeton College
- SWO Tribal Government
- City of Sisseton

### **EDUCATIONAL GOAL 2**

The goal of reinforcing positive family values will be accomplished by seeking out local and national programming, that target the specific needs of family members, both youth and adults.

Specific messages aimed at youth include:

- Saying no to illegal drugs and alcohol,
- Abstaining from sexual activity outside marriage,
- Treating others with dignity and respect,
- Stay in school and get an education,

CNB also will have programming targeted to help young adults:

- With their budgets
- Who are going through problems with alcoholism, physical or mental abuse, etc.
- Properly raise and nurture their children
- Find available resources in the community

## **Exhibit 2 Page 3 Corporation for Native Broadcasting Purposes and Objectives**

Once the station is established, programming will be developed specifically for women, men and the elderly.

These are only a few of the topics that will assist CNB to meet our educational goal of reinforcing positive family values. CNB has access to local professional counselors, churches and organizations that have counselors on staff available to our listeners.

### **EDUCATIONAL GOAL 3**

CNB also serves as a venue for positive community news and activities. Our sources include local government agencies; e.g. police, hospitals, fire departments, districts, various boards and committees, and social work organizations. Some of our features include:

- Community Organizations
- Community Issues and News
- Services Available in the Community
- Announcements of Weddings, Anniversaries, Birthday, etc.

### **EDUCATIONAL GOAL 4**

CNB visualizes the radio station with talk radio and uplifting, positive music components. The music comes from various sources and is a daily part of our community. In addition to well known artists, we invite local artists to share their music. Local musical and community events will be frequently promoted through on air initiatives.

### **EDUCATIONAL GOAL 5**

CNB will educate the community about the native culture and language through local programming developed by the Sisseton Wahpeton College and the Tiospa Zina Tribal School.

**WORKSHEET #6**

**FAIR DISTRIBUTION.** FM Applicants may use this worksheet to answer the questions in Section III, Questions 1 and 2.

1. Using the centroid method for calculating population, based on the most recent census block data, the number of people residing within the radio station's 60 dBu (1 m/Vm) service contour (calculated based on the standard curves in 47 C.F.R. Section 73.313(c) is:  

17,981  
x .10  
1,798
2. Multiply the population on line 1 by .10 (10%)
3. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a first NCE aural service from the proposed facility is:  

1,776     N/A
4. The number of people within the radio station's 60 dBu (1 m/Vm) service contour who will receive a second NCE aural service from the proposed facility is:  

14,879     N/A
5. Is the number of people reported in 3. and 4. equal to or greater than line 2? If "No," applicant should answer "No" on Section III of Form 340.  

Yes     No
6. Is the number of people in 3. or 4. at least 2,000? If "No," applicant should answer "No" to the questions in Section III of Form 340.  

Yes     No

Applicants answering "Yes" to both Questions 5 and 6 should answer "Yes" to the corresponding question in Section III of Form 340 (Question 1 for first service, Question 2 for second service) and include an exhibit describing the extent of first and/or second service. Applicants may use this worksheet as the exhibit, if desired.

**Exhibit 12**  
**APPLICANT NAME**  
**ESTABLISHED LOCAL APPLICANT CERTIFICATION**

The applicant hereby certifies it qualifies as an established local applicant pursuant to 47 C.F.R. Section 73.7000.

Governing documents requiring localism be maintained are included within this exhibit and are included in the public inspection file.

**DIVERSITY OF OWNERSHIP APPLICANT CERTIFICATION**

The applicant hereby certifies that the principal community contour of the proposed station does not overlap the principal community contour of any other authorized station in which any party to the application has an attributable interest as defined in 47 C.F.R. Section 73.3555.

Governing documents require that such diversity be maintained and are included within this exhibit and are included in the public inspection file.

## ARTICLES OF INCORPORATION

Executed by the undersigned for the purpose of forming a South Dakota Corporation under SDCL 47-22 South Dakota Nonprofit Corporation Act.

### ARTICLE I

The name of the corporation is Corporation for Native Broadcasting

### ARTICLE II

The period of existence is perpetual

### ARTICLE III

The purposes for which the corporation is organized.

For the purpose of owning and operating radio and television broadcast stations, and the production and dispersion of educational media and the transaction of any lawful business for which corporations may be incorporated under this chapter. ☒

### ARTICLE IV

Check one: The corporation will have members.  The corporation will not have members.

### ARTICLE V

If the corporation is to have one or more classes of members, any provision which the incorporators elect to set forth designating the class or classes of members and stating the qualifications and rights of the members of each class.

The corporation will have members. The members of the corporation will consist of those individuals and organizations desiring to affiliate with the corporation, elected by the incorporators, to work cooperatively for the purpose of the corporation. ☒

### ARTICLE VI

If the directors are not to be elected or appointed by one or more classes of members, a statement of the manner in which such directors shall be elected or appointed.

Directors shall be elected, by the corporation members, at the first annual election for directors.

### ARTICLE VII

Any provisions which the incorporators elect to set forth for the regulation of the internal affairs of the corporation, including any provision for the distribution of assets on dissolution or final liquidation.

A non-profit, non-stock corporation exclusively for charitable and educational purposes within the meaning of Section 501, of the Internal Revenue Code.

### ARTICLE VIII

The street address, or a statement that there is no street address, of its initial registered office is  
12572 BIA Hwy 700 Agency Village, SD ZIP 57262

and the name of its initial registered agent at such address is Diana Canku

### ARTICLE IX

The number of directors constituting the initial board of directors is six and the names and addresses of the persons who are to serve as the initial directors:

<u>Ed Red Owl</u>	<u>45613 Torvik Road, Sisseton, SD</u>	<u>ZIP 57262</u>
<u>David George</u>	<u>45148 119th St, Sisseton, SD</u>	<u>ZIP 57262</u>
<u>Tom Wilson</u>	<u>35 Hatle Drive, Sisseton, SD</u>	<u>ZIP 57262</u>
<u></u>	<u>Incorporators are directors also.</u>	<u>ZIP</u>

ARTICLE XI

Corporation for Native Broadcasting will require 75% of the total board membership to be held by members that reside within 25 miles of the city of Agency Village.

ARTICLE XII

The corporation will not purchase, own or operate any AM, FM or translator station(s) within the city grade signal of any existing station where the existing station meets the following qualifications: the corporation is the licensee, the original application was submitted to the FCC for a NEW full power station, the application was granted and the station built, and has been in operation (on the air) for a period less than 4 years."

**Exhibit 19 Page 1**  
**Corporation for Native Broadcasting**  
**NCE FM Interference Area to TV 6**  
**Sisseton, South Dakota**

The purpose of this exhibit is to show compliance with §73.525 of the Commission's Rules. The Rules require that an applicant proposing operation on FM Channel 210, whose antenna location is less than 196 kilometers from a television Channel 6 facility, furnish a map and an engineering statement, with calculations, demonstrating compliance with the Rules with regard to interference to the reception of television channel 6. There is one affected TV 6 station.

1. WDAY-TV - 166 km distant

Therefore, WDAY-TV must receive consideration.

First, the relative HAAT figures were generated for the above station using the NGDC 30 Second Database and the data from the FCC TV Database. The distance to the WDAY-TV contour was predicted according to the procedures specified in §73.684 of the Commission's Rules, "Prediction of Coverage," using the F(50,50) curves in Figure 9 of §73.699.

For each television channel 6 field strength contour, the associated F(50,10) FM interference contour was obtained from Figure 1 of §73.599. The distances to the applicable NCE-FM interference contour was predicted according to the procedures specified in "Prediction of Coverage," using the F(50,10) curves in Figure 1 of §73.333 of the Rules. Radials were then computed every 5 degrees from the proposed NCE-FM site to the point at which interference stops occurring.

A table of the proposed new NCE-FM F(50,10) interfering contour to the television channel 6 F(50,50) protected contour may be seen as Table 1 of this exhibit.

These calculations are based on the appropriate F(50,50), F(50,10) and FM/TV 6 protection ratio curves for an NCE-FM station operating with facilities of 10.0 kilowatts ERP at 211 meters HAAT. Free space calculations were used when computing the field strength for distances less than 1 mile.

**Exhibit 19 Page 2**  
**Corporation for Native Broadcasting**  
**NCE FM Interference Area to TV 6**  
**Sisseton, South Dakota**

The applicant chooses to use circular polarization and adjustments for vertical only polarization or television receiving antenna directivity have not been utilized.

A plot of the proposed NCE-FM stations' 67.25 dB $\mu$  F(50,10) interfering contour to the television channel 6 47 dB $\mu$  F(50,50) protected contour may be seen as Figure 1 of this exhibit, note that these contours do not overlap. Therefore, it may be concluded that the proposed NCE FM station will not cause any interference to the reception of TV-6, and the application complies with §73.525 of the Commission's Rules as pertains to interference to the reception of TV Channel 6 by NCE-FM stations.
