Narrative Of Program/Remote/
Interview

1. You have a bill that would require electric vehicle drivers to pay for the power they use when charging at state government facilities. Why is this necessary? EVs are more common and since they're owned by people who can afford a new car, they can afford to pay for electric while conducting state business

2. You also have a bill related to out-of-state students at state colleges and universities. What would it do? taxpayers deserve a break. Capital budget needs assistance and since out of state students/families don't pay taxes for those budgets, some burden of these costs should be passed along
