

On an ongoing basis, we maintain contact and confer with local government, civic, and business leaders, as well as members of the general public, about what they perceive as top-of-mind issues important to the communities we serve.

Recurring priority topics:

- Education
- Health care
- Opportunities for young people
- Employment opportunities, the labor pool, and availability of quality housing
- Health of the local retail economy
- Drug and alcohol abuse

Area community leaders have expressed concerns relating to challenges associated with municipal population decline, which is additionally affecting local school system enrollment; rural healthcare; workforce development and related industrial needs; infrastructure such as roads and bridges; substance abuse; tax revenue and public services; and voter registration along with participation in upcoming elections.

We strive to provide responsive and helpful programming. Further, we also work to educate and inform the people we are privileged to serve through a variety of public service announcements, local news coverage, community calendars, and other programs.

Since mid-March, we have necessarily refocused our local public service efforts on the COVID-19 pandemic and the tremendous risks to public health and the economy. Our coverage of this developing story and related chaos have been exhaustive, with cross-promotion on our sister stations to maximize engagement and reach.
