**Date of Release: October 15, 2019**

**Re: The Philips Foundation Donates Ultrasound to Health Wagon**

***The Philips Foundation Donates CX-50 Ultrasound System to Health Wagon***

**Wise, VA (October 15, 2019)** — The Health Wagon, the nation's oldest mobile clinic and the free clinic serving Lee, Scott, Wise, Dickenson, Buchanan and Russell Counties in Virginia, recently received a generous donation of a brand-new ultrasound system from the Philips Foundation. The Health Wagon would like to extend a very special thank you to the Philips Foundation for the very generous donation of a CX-50 ultrasound system. The Health Wagon would also like to thank all partners who were involved in identifying the diagnostic need and coordinating the donation of this generous gift that will save the lives of many. The Health Wagon has a strong partnership with the Philips Foundation and gives thanks for being great neighbors and giving back to disadvantaged and undeserved communities.

"This is truly a dream realized and it will have far reaching impact in saving lives of people that could not otherwise afford to get one. I see people die for lack of available diagnostic ultrasounds – people in our region will not avail themselves to diagnostic testing if they will incur a bill they cannot afford. This is one of the greatest gifts ever given to the Health Wagon," said Health Wagon Executive Director Dr. Teresa Owens Tyson.

Pictured below is Dr. Teresa Owens Tyson with the CX-50 ultrasound machine.
