

WOLG ISSUES AND PROGRAMS: FOURTH QUARTER 2016

ISSUE: YOUTH PROGRAMMING Jason & Christalina Evert

10/29/16 – 5:00 pm Pure Life hosted by Jason and Christalina Evert...30 minutes. This program dealt with how people can start over after giving in to peer pressure. Jason told the story of a young girl who had been abducted, treated terribly and then thrown into a latrine at a construction site. When the firemen reached her she threw human waste at him and told him to leave her alone. He said we are often like that, just wanting to stay where we are instead of truly believing there is help for us. He gave an analogy from Christopher West who said those living an immoral lifestyle are eating out of a dumpster. He quoted the scripture that said that a single day living in the house of God was better than living a thousand somewhere else. Many young people think that relationships will be destroyed by purity when exactly the opposite is true. In reality purity intensifies any relationship. He said pride is the main cause that keeps people from going for help. He said it takes true humility to seek help. Christalina quoted John Paul II saying "We will certainly encounter trials. It is a part of the life of faith. At times they will be light and at times very difficult or even dramatic. We may feel very alone but God's grace will never abandon us. Therefore we can expect to triumph over every trial, even the hardest in our lives." Some of the young people present then shared what has helped them most in this area.

11/5/16 – 5:00 pm Pure Life hosted by Jason and Christalina Evert...30 minutes. This program dealt with setting standards or having a game plan in dealing with life's temptations. He gave ten tips of practical things to do: #1 No missionary dating – thinking you will change someone, #2 Avoid impure relationships before they begin, #3 Avoid places where you know you will fall, #4 Know your boundaries and make sure your date knows them, #5 Pick solid friends, #6 Group or double date with friends who have the same standards, #7 Purify their lives by feeding their spirits, #8 Listen to the people who love you, family, true friends, your youth minister, #9 Do not be afraid to say no, #10 To have the courage to get out of a bad relationship. Have a "break-up buddy" that you can call for help. Christalina said every girl should have a "dump him" list: You've had to tell him to stop more than once, you feel the need to fix them, they look at pornography, they hit you or push you or do anything that frightens you, they get drunk or take drugs, they don't care if you lie to your family, they put you down, they cheat on you and lie to you, they flirt with other people, they use guilt to get what they want, they behave badly and blame others, they can't stand on their own two feet without you, and you can't stand on your own two feet and remain pure if you stay with them. Teens that were present then shared what works for them with these issues.

ISSUE: FAMILY, PARENTING AND RELATIONSHIPS Steve Wood

10/4/16 – 10:30 am Faith & Family Radio with Steve Wood...30 Minutes. In this show he talked about an interview he did with Phyllis Schlafly in 2005. They talked about how pornography has been involved in the abuse and deaths of innocent women and children. They also talked about Judicial Supremacy. Phyllis said the U.S. Congress passed the Pledge of Allegiance years ago, and recently some judges said it is unconstitutional, urged on by the ACLU. She said it began in the Earl Warren court. He had never been a judge. His was a political appointment. He then attempted to make the court the most powerful arm of the government. Their cases also gave the green light to pornography. Her book tells how our system was designed and how it works. Steve said he thought the most powerful chapter in her book was on "How to Stop the Judicial Supremacists". The constitution established the Supreme Court, but not the Federal Courts. She said our Constitution is a wonderful system of checks and balances. Article III states that congress can decide which cases the courts can or cannot hear. They also have the ability to decide the jurisdiction of the courts.

10/8/16 – 10:30 am Faith & Family Radio with Steve Wood...30 Minutes. This was the second part of a 2 part show about an interview he did with Phyllis Schlafly in 2005. This discussion concerned the Supreme Court and the importance they play in American Life. He suggested that no matter who wins the

presidential election there is a way to have some of these important decisions addressed and that is to take the matter back to the states. Article III section 2 of the constitution addresses this. Mrs. Schlafly stated how in many cases of abused and murdered children pornography play a role. Listeners can see her website for more information about these issues. She referred to how several years ago it was a federal judge who decided that children reciting the pledge of Allegiance was unconstitutional. She said the judges are overruling the will of 90% of the American people and the congress. She said this began in the Earl Warren court. She said he was the governor of California, had never even been a judge and had no judicial temperament yet was named as Chief Justice.

10/15/16 10:30 am Faith & Family Radio with Steve Wood... 30 minutes. This was the third show in a series that dealt with transgender and homosexual indoctrination in the public schools. He said the bathroom policies are now spreading rapidly all through the United States. He said the disturbing thing is that the United Nations population fund is involved in forcing transgenderism upon children throughout the world. One bright note is the ruling in Texas that has put a hold on transgender bathrooms in Texas. He said there is a troubling report from Panama where the same thing is happening with the U.N. However there were 100,000 people who protested this in the Panamanian capital. Health and Human Services has issued a regulation that all medical providers when asked to provide gender transition medical procedures, if they refuse to do it is a violation of federal civil rights laws. Many organizations have filed suit against this. This situation has caused many parents around our country to resort to home schooling.

(In November this program aired on WRYT & KHOJ at 10:30 am and on Satellites at 9:30 am)

11/12/16 Faith and Family Radio with Steve Wood... 30 minutes. In this show he discussed a two week mini-series entitled "Ideas and Strategies for 21st Century Youth Ministry". This was Steve's line of work before he began in radio. He said we are facing very particular challenges in our country at this time in history. He referred to many research agencies that say there is a 60% drop out rate of young people who regularly attended youth group and church with their families and in young adult years just quit going. He recommended people refer to these studies for help. He said the problem has to be diagnosed before it can be addressed. He recommended "Forming Intentional Disciples" by Sherry Weddell who gives the best easy to read summary of the problem for anyone working with youth today. Another problem as he sees it is that Youth Ministry is just sidelined – it doesn't get the attention that other things do today. He said one important thing to do is to make Youth Ministry a priority. Young people have to know that they are important in their communities. Another 6 year research project found that the most important thing was intergenerational relationships and discipleship or mentoring.
