Re: John Ostlund and Katrina Ostlund (J&KO)
KYNO(AM), Fresno, CA
Fac. ID No.: 18407
Special Temporary Authority (STA)
BESTA-20220203AAD

Dear Licensee:

This is in reference to the request filed on February 3, 2023. J&KO requested an extension of the STA granted on August 15, 2022, to continue operating ND with 25% power to allow time to repair the array's ground system due to extensive damage done by copper thieves.¹ In support of the request, J&KO stated that it plans to order all necessary materials in the near future after the insurance claims have been resolved.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

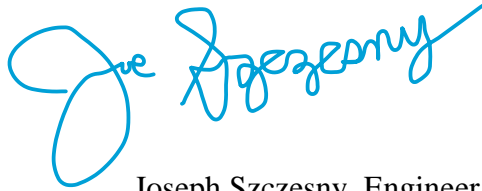

Accordingly, the request for extension of the STA is hereby GRANTED, and J&KO may continue to operate ND using tower #2(ASRN # 1013935) with a maximum reduced power of 12.5 kW (day and night). J&KO must reduce power further or cease operations if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. J&KO must submit an FCC Form 302 application to make any changes to the engineering parameters that are needed after the ground system has been repaired. Otherwise J&KO must submit an e-mail to my attention to note the date the station resumed licensed operations per the last license (BZ-7378) granted on August 25, 1978, to certify there were only

¹ KYNO(AM) is licensed for DA operation on 940 kHz with 50 kW (day and night) using different patterns. .

negligible changes to all engineering parameters.

This authority expires on **August 15, 2023**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is stylized with large loops and a long horizontal stroke at the end.
