Program 21-14	Writers/Producers:	Reed	d Pence
Air Week:	Studio Production:	Jasoi	Dickey
4/4/21			
SEGMENT 1:	ASSESSING THE PSYCHOLOGICAL WRECKAGE OF THE PANDEMIC	Time	Duration
Synopsis:	Many people are relieved that, thanks to vaccines, the COVID-19 pandemic seems to be waning. But the mental health wreckage of the last year will take longer to overcome. Experts discuss how it's showing up and what people can do to get back on track.	1:50	12:14
Host & Producer:	Reed Pence		
Guests:	Dr. Anna Glassman-Pines, Associate Professor of Public Policy, Psychology and Neuroscience, Duke University; Dr. Robin Gurwitch, Professor of Psychiatry and Behavioral Sciences, Duke University; Dr. Jennifer Plumb-Vilardaga, clinical psychologist, Duke University School of Medicine; Dr. Judith Orloff, Los Angeles psychiatrist and author, <i>The Empath Survival Guide</i>		
Compliancy issues:	healthcare; public health; mental health; consumerism; self-help; youth at risk; COVID-19 Pandemic		
Links:	Duke University Faculty Profile: Dr. Anna Glassman-Pines		
	Duke University School of Psychiatry and Behavioral Sciences profile: Dr. Robin Gurwitch		
	Health Care 6: Dr. Jennifer Carolyn Plumb Vilardaga		
	Judith Orloff M.D. Website		
SEGMENT 2:	THE BENEFITS OF WRITING BY HAND	Time	Duration
Synopsis:	Today's students often type their assignments, no matter the grade level. Writing by hand is done less frequently, and some students are barely able to produce cursive writing. However, studies show that writing by hand creates a better connection to the brain for learning content. Experts discuss how we might tap this connection in an increasingly tech world.	15:06	7:42
Host:	Nancy Benson		
Producer:	Libby Foster		
Guests:	Dr. Danny Oppenheimer, Professor of Decision Sciences, Carnegie Mellon University; Dr. Virginia Wise Berninger, Professor Emerita of Learning Sciences and Human Development, University of Washington.		
Compliancy issues:	healthcare; prevention; consumerism; education; technology; neuroscience		
Links:	Carnegie Mellon University Profile: Dr. Danny Oppenheimer		
	Pearson Assessments: Dr. Virginia Wise Berninger		

Program 21-15		Writers/Producers:	Ree	d Pence
Air Week:		Studio Production:	Jaso	n Dickey
4/11/21				
SEGMENT 1:	SURVIVING AN ACTIVE SHOOTER		Time	Duration
Synopsis:	With the recent active shooter incidents in Atlanta and Boulder, Colorado, experabout a return of mass shootings that had disappeared during the pandemic. Twee the changing theory of how to survive an active shooter incident through what's and fight."	o experts discuss	1:50	12:24
Host & Producer:	Reed Pence			
Guests:	Dr. Cheryl Lero Jonson, Associate Professor of Criminal Justice, Xavier University founder and President, Threat Assessment Group	; Dr. Park Dietz,		
Compliancy issues:	mass shootings; public health; public safety; guns and gun violence; police and I youth at risk; education	aw enforcement;		
Links:	Google Scholar Profile for Dr. Cheryl Lero Jonson			
	Threat Assessment Group (TAG) profile for Dr. Park Dietz			

SEGMENT 2:	THE PANDEMIC IN HISTORICAL PERSPECTIVE	Time	Duration
Synopsis:	Plagues such as COVID-19 are nothing new, and this pandemic is far from the worst the world has ever faced. A physician and historian examines COVID in comparison to other pandemics and discusses the lessons that will serve us well in the future.	15:16	7:21
Host:	Nancy Benson		
Producer:	Polly Hansen		
Guests:	Dr. Richard Gunderman, John. A. Campbell Professor of Radiology, Indiana University and author, Contagion: Plagues, Pandemics, and Cures From the Black Death to COVID-19 and Beyond		
Compliancy issues:	history, COVID-19 Pandemic; public health		

Links: Allen & Unwin Book Publishers: Contagion

Program 21-16	Writers/Producers:	Reed	d Pence
Air Week:	Studio Production:	Jaso	n Dickey
4/18/21			
SEGMENT 1:	GIVING CASH TO THE HOMELESS	Time	Duration
Synopsis:	Homelessness continues to be a stubborn problem despite many well-intentioned programs. A new experimental study finds that giving homeless people thousands of dollars in cash helps get many of them off the streets for good, calling into question many assumptions about the homeless and how they got that way. Experts discuss the new program and its implications for ending homelessness.	1:50	12:56
Host & Producer:	Reed Pence		
Guests:	Nan Roman, President, National Alliance to End Homelessness; Dr. Jiaying Zhou, Canada Research Chair and Associate Professor of Psychology and Institute for Resources, Environment and Sustainability, University of British Columbia; Rutger Bregman, historian and author, Human Kind: A Hopeful History		
Compliancy issues:	homelessness; economics; poverty; charities; unemployment; alcohol abuse; government; housing		
Links:	National Alliance to End Homelessness: Our People		
	Rutger Bregman Books		
	<u>University of British Columbia Profile: Dr. Jiaying Zhou</u>		
SEGMENT 2:	TRACING COVID IN ANIMALS & WATER	Time	Duration
Synopsis:	Scientists are testing hundreds of different kinds of animals as well as waste and storm water for COVID-19, looking for reservoirs for possible mutation. They've learned even pets can possibly harbor the virus but probably aren't a threat. An expert discusses how the knowledge will combat COVID variants.	15:48	7:06
Host:	Nancy Benson		
Writer:	Libby Foster		
Guests:	Dr. Vanessa Hale, Assistant Professor of Veterinary Preventive Medicine, The Ohio State University		
Compliancy issues:	prevention; public health; pets and people; environmental science; COVID-19 pandemic		
Links:	The Ohio State University Profile: Dr. Vanessa Hale		

Program 21-17	Writers/Producers:	Reed	l Pence
Air Week:	Studio Production:	Jaso	n Dickey
4/25/21			
SEGMENT 1:	HOW HIGH DRUG PRICES LEAD TO DRUG MISUSE	Time	Duration
Synopsis:	Millions of Americans cannot afford the medications they've been prescribed. Many skip doses, split pills or don't fill prescriptions at all as a result, with sometimes even fatal consequences. But doctors are often unable to consider cost very well in prescribing, as the same drug often costs patients vastly different amounts due to insurance differences. Experts discuss the problem and what patients can do to save.	1:50	12:51
Host & Producer:	Reed Pence		
Guests:	David Mitchell, cancer patient, founder and President, Patients for Affordable Drugs; Dr. Stacie Dusetzina, Associate Professor of Health Policy, Vanderbilt University		
Compliancy issues:	healthcare; economics; insurance; federal government and regulation		
Links:	Patients for Affordable Drugs - Our Team		
	Stacie B. Dusetzina, Ph.D Vanderbilt University Medical Center		
SEGMENT 2:	BRAIN ANEURYSM THROUGH THE EYES OF A SURVIVOR	Time	Duration
Synopsis:	Brain aneurysms—bulging in a brain blood vessel, like an inflated balloon—affect 1 in 50 people and are generally without symptoms until they burst. This occurs in about 30,000 people per year in the US, accounting for 3-5 percent of all new strokes. Here is the story of one survivor in her own words.	15:43	7:08
Host:	Nancy Benson		
Producer:	Reed Pence.		
Guests:	Janet Sutherland-Madden, brain aneurysm rupture survivor and author, Nose Over Toes		
Compliancy issues:	healthcare; public health; EMS and emergency response; rehabilitation		
Links:	Eckhartz Press - Janet Sutherland-Madden		
	Brain Aneurysm Foundation		

Program 21-18	Writers/Producers:	Reed	d Pence
Air Week:	Studio Production:	Jaso	n Dickey
5/2/21			
SEGMENT 1:	BOTTLED WATER AND TRUST IN OUR INSTITUTIONS	Time	Duration
Synopsis:	Bottled water sales have skyrocketed, in part because many people believe it is safer than tap water. Actually, bottled water faces few of the safety regulations that tap water does. The disconnect, according to a new study, comes from society's pervasive distrust in all governmental institutions. The lead researcher discusses how restoring faith in water could begin to restore faith in all American institutions.	1:49	13:17
Host & Producer:	Reed Pence		
Guests:	Dr. Manny Teodoro, Associate Professor of Public Affairs, University of Wisconsin, Madison		
Compliancy issues:	public health; local government; infrastructure; drinking water safety; federal government and regulation; politics; environmental science		
Links:	Manny Teodoro's Website		
SEGMENT 2:	COVID AND PTSD	Time	Duration
Synopsis:	Studies show that as many as a third of people who were very ill with COVID-19 later develop PTSD. Caregivers and healthcare workers may be afflicted as well. An expert discusses how this develops and what people can do to get better.	16:08	6:45
Host:	Nancy Benson		
Producer:	Libby Foster		
Guests:	Dr. Sanam Hafeez, clinical psychologist, Columbia University		
Compliancy issues:	healthcare; public health; mental health; consumerism; COVID-19 pandemic		

Links: Comprehend the Mind: Sanam Hafeez, Psy.D

Program 21-19	Writers/Producers:	Reed	l Pence
Air Week:	Studio Production:	Jaso	n Dickey
5/9/21			
SEGMENT 1:	THE DISTORTED SMELL OF COVID-19	Time	Duration
Synopsis:	Many of those who've had COVID-19 have suffered from a temporary loss of their sense of smell, but some have had what seems to be an even worse symptom weeks or months later—a distorted sense of smell, where everything, from coffee to flowers, smells sickeningly awful. An expert and a former sufferer discuss how disruptive to life this can be and what people can do to make it through to recovery.	1:52	12:40
Host & Producer:	Reed Pence		
Guests:	Duika Burges-Watson, researcher and Lecturer in Medical Sciences, Newcastle University; Chrissi Kelly, founder, Abscent.org		
Compliancy issues:	public health; consumerism, mental health; family issues; COVID-19 pandemic		
Links:	Newcastle University Staff Profile: Dr Duika Burges Watson		
	Life Kitchen: Taste & Flavour Book		
	<u>Abscent.org</u>		
SEGMENT 2:	RESEARCH ETHICS NOW VS. THEN: A CASE STUDY	Time	Duration
Synopsis:	In the mid-1960's, many Ivy League and Seven Sister colleges as well as prestigious prep schools allowed researchers to photograph incoming students naked as part of work on a now-discredited theory linking physical characteristics to leadership potential. A former student who went through it, now a physician and writer, discusses how research ethics have changed in the last 50 years.	15:34	7:12
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. David Sklar, Emeritus Professor of Emergency Medicine, University of New Mexico, and author, Atlas of Men		
Compliancy issues:	education; research ethics; sexual abuse; informed consent		
Links:	David Sklar's website		

Program 21-20	Writers/Producers:	Reed Pence	
Air Week:	Studio Production:	Jaso	n Dickey
5/16/21			
SEGMENT 1:	THE COVID BABY BUST	Time	Duration
Synopsis:	The US birth rate has been declining since the Crash of 2008, but it took an even larger decline during the pandemic to levels unseen since the Great Depression. Today fertility rates are below replacement levels, which could have big impacts on education, employment, and the tax base years down the road. Experts discuss how people make fertility decisions and the impacts they can have on the nation.	1:50	12:26
Host & Producer:	Reed Pence		
Guests:	Nell Frizzzell, author, <i>The Panic Years: Dates, Doubts, and the Mother of All Decisions</i> ; Dr. Philip Cohen, Professor of Sociology, University of Maryland; Dr. Laura Lindberg, Principal Research Scientist, Guttmacher Institute		
Compliancy issues:	women's issues; family issues; contraception; economics; poverty; education; public health; employment and workforce issues; taxes; federal government; parenting government; childcare; COVID-19 pandemic		
Links:	Nell Frizzell's Website		
	University of Maryland Profile: Dr. Philip Cohen		
	Guttmacher Institute: Laura D. Lindberg		
SEGMENT 2:	THE CHANGING FACE OF COLON CANCER	Time	Duration
Synopsis:	Colon cancer is striking much younger people than it used to, leading experts to lower the age on screening recommendations. A noted colon surgeon discusses screening and treatment options, and the way Covid-19 has changed patients' approach to getting screened.	15:18	7:35
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. James McClane, Chief of Colorectal Surgery, Norwalk Hospital, Norwalk, CT		
Compliancy issues:	healthcare; public health; education		
Links:	Castle Connolly Top Doctors: Dr. James M. McClane, MD		

Program 21-21		Writers/Producers:	Ree	d Pence
Air Week:		Studio Production:	Jaso	n Dickey
5/23/21				
SEGMENT 1:	KEEPING GENERIC DRUGS SAFE		Time	Duration
Synopsis:	Since the 1980's, almost all production of generic drugs has moved overseas, where a much tougher time making sure they're following rules for safety. An invedescribes the ways she's found that many drugmakers cut corners, putting safety what consumers can do to protect themselves.	stigative journalist	1:50	12:49
Host & Producer:	Reed Pence			
Guests:	Katherine Eban, author, Bottle of Lies: The Inside Story of the Generic Drug Book	n		
Compliancy issues:	healthcare; public health; fraud; federal government and regulation; patient safe consumer safety	ty; consumerism;		
Links:	Katherine Eban's Website			

SEGMENT 2:	COVID AND KIDNEY DISEASE	Time	Duration
Synopsis:	Covid-19 is usually a respiratory disease, but it can affect virtually any organ in the body. The nation's top kidney disease expert discusses how Covid can prompt life-threatening kidney effects in the previously healthy, and how those with kidney disease are more susceptible to severe Covid infection.	15:11	6:25
Host:	Nancy Benson		
Producer:	Libby Foster		
Guests:	Dr. Griffin Rodgers, Director, National Institute of Diabetes, Digestive and Kidney Diseases.		
Compliancy issues:	healthcare; public health; education; COVID-19 pandemic		

Links: Dr. Griffin Rodgers - Staff Profile

Program 21-22	Writers/Producers:	Ree	d Pence
Air Week:	Studio Production:	Jaso	n Dickey
5/30/21			
SEGMENT 1:	MISSING THE GOAL OF HERD IMMUNITY	Time	Duration
Synopsis:	Since the Covid-19 pandemic began, public health experts have looked to vaccines with the goal of creating "herd immunity," where so many people are vaccinated that the virus stalls out. Now it is clear we will not reach that goal, meaning the threat of the pandemic may drag on for years. One of the nation's leading infectious disease experts discusses how we are missing the target and what it means.	1:49	12:21
Host & Producer:	Reed Pence		
Guests:	Dr. William Schaffner, Professor of Preventive Medicine and Infectious Diseases, Vanderbilt University Medical School		
Compliancy issues:	healthcare; public health; ethics; consumerism; vulnerable populations; COVID-19 pandemic		
Links:	Vanderbilt University Medical School profile: Dr. William Schaffner		
SEGMENT 2:	CLINICAL TRIALS AND TRUST IN UNDERSERVED COMMUNITIES	Time	Duration
Synopsis:	People of color are less likely than others to receive timely treatment for medical issues. This is reflected in Covid-19 vaccination numbers, in cancer treatment, and in clinical trial participation. Experts discuss ways to increase participation, especially in clinical trials that might ultimately raise trust in medicine.	15:12	7:36

Program 21-23	Writers/Producers:	Reed	d Pence
Air Week:	Studio Production:	Jaso	n Dickey
6/6/21			
SEGMENT 1:	UNDIAGNOSED MYSTERY DISEASES	Time	Duration
Synopsis:	Hundreds of patients nationally have diseases that have confounded doctors and yielded no diagnosis and no reliable treatment. Today the Undiagnosed Diseases Network, founded and funded by the NIH, helps these patients, but its funding is uncertain beyond 2022. Patients and a physician leader of the UDN discuss the lonely plight of these patients and the hope UDN provides.	1:50	12:32
Host:	Reed Pence		
Producer:	Polly Hansen		
Guests:	Meghan Halley, mother of child with unidentified illness; Troy Evans, patient with unidentified illness; Kimberly LeBlanc, genetic counselor and Associate Dir. of Research Operations, Undiagnosed Diseases Coordinating Center, Harvard Medical School		
Compliancy issues:	healthcare; public health; ethics; consumerism; federal government and regulation		
Links:	<u>Undiagnosed Disease Network - Harvard University</u>		
	UDN Peer		
SEGMENT 2:	TASTY FOOD VS. HEALTHY FOOD: FINDING A BALANCE	Time	Duration
Synopsis:	Many Americans believe that healthy food doesn't taste good, and tasty food isn't healthy. A chef who is also a cardiologist discusses how to find a balance by seeking out healthy ingredients rather than whole categories of foods.	15:24	6:57
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. Michael Fenster, Professor of Health Professions and Biomedical Sciences, University of Montana and author, Food Shaman: The Art of Quantum Food		
Compliancy issues:	healthcare; public health; consumerism; diet and nutrition		
	Chaf Du Miller auchaite

Program 21-24	Writers/Producers:	Reed	Pence
Air Week:	Studio Production:	Jasoi	n Dickey
6/13/21			
SEGMENT 1:	HOW COVID MASKS HAVE AFFECTED CHILDREN'S LANGUAGE DEVELOPMENT	Time	Duration
Synopsis:	Infants, toddlers, and grade school children use many cues to learn language. Some of them are visual, involving seeing the mouth move. Some depend on clearly hearing speech. Both have been impacted by mask wearing during the pandemic. Experts now studying how far behind children are as a result discuss how language develops in children and how it's been affected in the pandemic.	1:50	12:31
Host:	Reed Pence		
Producer:	Libby Foster		
Guests:	Dr. Stephen Camarata, Professor of Hearing and Speech Sciences, Psychiatry, Psychology, Human Development and Special Education, Vanderbilt University and author, <i>The Intuitive Parent: Why the Best Thing For Your Child Is You</i> ; Sara Charney, speech pathologist, Mayo Clinic Arizona		
Compliancy issues:	education; public health; consumerism; youth at risk; disabilities		
Links:	Stephen Camarata Vanderbilt Profile		
	Health Care For People: Sara Charney		
SEGMENT 2:	REFINERIES AND THEIR NEIGHBORS: HOW SAFE IS THE AIR?	Time	Duration
Synopsis:	A recent report shows that more than a dozen refineries around the US are emitting benzene pollution into the air at higher levels than allowed by the EPA. An activist discusses this newly labeled problem and what the agency can do to curb it.	15:23	7:06
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Eric Schaeffer, Exec. Director, Environmental Integrity Project		
Compliancy issues:	air pollution; environmental science; federal government and regulation; public health; manufacturing and industry; minority issues		
Links:	Environmental Integrity Project		

Program 21-25	Writers/Producers:	Reed	l Pence
Air Week:	Studio Production:	Jaso	n Dickey
6/20/21			
SEGMENT 1:	SUDC—SUDDEN UNEXPLAINED DEATH OF A CHILD	Time	Duration
Synopsis:	Each year, some 400 US children over age 1, most of them toddlers, die overnight for no known reason. Families, longing for answers, often find that their families, friends, and even pediatricians are unfamiliar with this classification of death, or that they even occur. Family members who have lost a child, a medical examiner, and a research expert who has lost a child discuss SUDC.	2:01	12:23
Host:	Reed Pence		
Producer:	Regan Huston		
Guests:	Estuardo Torres, father of SUDC victim; Dr. Eric Eason, Assistant Medical Examiner, Cook Country, IL; Laura Gould Crandall, research scientist, Dept. of Neurology, NYU Langone Comprehensive Epilepsy Center and mother of SUDC victim; Ron and Jordana Zachara, parents of SUDC victim		
Compliancy issues:	youth at risk; public health; parenting; healthcare; child safety		
Links:	SUDC Foundation		
	Cook County Medical Examiner Website		
	Laura Gould Crandall profile at sudc.org		
SEGMENT 2:	"TONSIL STONES"	Time	Duration
Synopsis:	Some people find that small "stones" are growing on their tonsils. They're an accumulation of skin cells, food, and other debris. While they are not medically dangerous or painful, they often produce bad breath or sometimes pain. Two expert physicians discuss tonsil stones' formation and treatment.	15:26	6:31
Host:	Nancy Benson		
Producer:	Morgan Kelly		
Guests:	Dr. Alter Peerless, otolaryngologist, Mercy Health, Cincinnati; Dr. Lauren Bohm, Assistant Professor of Otolaryngology, University of Michigan		
Compliancy issues:	healthcare		
Links:	Dr. Alter Peerless profile at Merch Health		
	Dr. Lauren Bohm info at Michigan Medicine		

Program 21-26	Writers/Producers:	Reed	l Pence
Air Week:	Studio Production:	Jaso	n Dickey
6/27/21			
SEGMENT 1:	GROWTH HORMONE FOR SHORT KIDS	Time	Duration
Synopsis:	Thousands of parents take their children to doctors each year seeking synthetic growth hormone to cure their relatively short stature, even though most of these children are merely late bloomers and have nothing wrong with them. Growth hormone also makes less difference in height than parents often imagine. Studies show that short stature generally does not create psychological damage. Experts discuss the issue.	1:50	12:23
Host:	Reed Pence		
Guests:	Dr. Laurie Cohen, Director Growth and Neuroendocrine Programs, Boston Children's Hospital and Associate Professor of Pediatrics, Harvard Medical School; Dr. David Sandberg, Professor of Pediatrics, University of Michigan Medical School and C.S. Mott Children's Hospital		
Compliancy issues:	youth at risk; parenting; healthcare; consumerism; child safety; education		
Links:	Boston Children's Hospital - Dr. Laurie Cohen		
	Mott Children's Hospital - Dr. David Sandberg		
SEGMENT 2:	MARFAN SYNDROME	Time	Duration
Synopsis:	Marfan syndrome produces obvious physical symptoms such as extreme height, but its hidden symptoms, especially in the heart and eyes, can be much more serious. Experts discuss its diagnosis and treatment.	15:26	6:31
Host:	Nancy Benson		
Producer:	Scarlett O'Hara		
Guests:	Dr. Gregory Perens, Professor of Pediatrics, UCLA Mattel Children's Hospital; Dr. Simon Fung, Assistant Professor of Ophthalmology, UCLA Medical Center		
Compliancy issues:	healthcare; consumerism; youth at risk		
Links:	UCLA Health: Gregory Perens, MD		
	UCLA Health: Simon Fung, MD

Program 21-14	Written & Produced: Amirah Zaveri & Evan Rook		
Air Week: 4/4/21	Studio Production: Jason Dickey		
SEGMENT 1:	ENTREPRENEURSHIP IN THE ADULT-USE CANNABIS MARKET	Time	Duration
Synopsis:	New York is the latest to legalize recreational marijuana. This move will create thousands of new jobs and is expected to generate billions of dollars in revenue after a lackluster year in tourism, real estate and business. And New York isn't alone. Each year, more states are voting to allow both adult-use and medical marijuana sales. But, with this, comes challenges. In a fast-growing industry, how do you ensure that smaller entrepreneurs aren't left behind? Or those who've been systemically affected by the war on cannabis are given greater opportunity?	1:47	9:29
Host:	Gary Price		
Guests:	David Wunderlich, senior attorney, Hoban Law Group; Demitri Downing, founder, executive director, Marijuana Industry Trade Association of Arizona		
Issues Covered:	law, business, social equity, career, drug use, government, incarceration		
Links:	MITA Webinar: Social Equity Mentorship: Marijuana, Wellness and Encouraging Responsible Use David Wunderlich - Hoban Law Group FlowHub: Cannabis Industry Statistics 2021 Intrado: U.S. Legal Cannabis Market Projected to Double to \$41.5B by 2025		
SEGMENT 2:	ALPHABETICAL ARRANGEMENT	Time	Duration
SEGMENT 2: Synopsis:	Organizing people or items by A to Z is a common method all over the world. It's used in schools, businesses, libraries and more. But why is this the predominant method today? What are some other systems that people of the past used? Historian Judith Flanders joins us this week to shed some light on the fascinating study of alphabetization.	Time	9:04

4/11/21			
SEGMENT 1:	MANAGING MENTAL HEALTH IN THE MEDICAL FIELD DURING A PANDEMIC	Time	Duration
Synopsis:	Physician burnout is still a very real problem in the U.S. — and the pandemic has only exacerbated these feelings in some of the hardest hit hospitals across the country. We speak with Dr. Greg Hammer at Stanford University about the pandemic's lasting effects on mental health and systems that have been created to better support people working in medicine or in medical school.	1:47	10:50
Host:	Gary Price		
Guests:	Dr. Greg Hammer, pediatric intensive care physician, anesthesiologist, professor, Stanford University School of Medicine		
Issues Covered:	mental health, physician burnout, workplace, career, COVID-19 pandemic, health & medicine

SEGMENT 2:	END-OF-LIFE PLANNING: HAVE YOU GOTTEN YOUR AFFAIRS IN ORDER?	Time	Duration
Synopsis:	About 60 percent of Americans don't yet have a written will in place. People spend a lifetime working hard, saving money, building assets, but often never think about what would happen in case they suddenly passed away. Viewpoints speaks with life planning expert, Abby Schneiderman, about the importance of organizing your life both on paper and online.	12:37	8:10
Host:	Marty Peterson		
Guests:	Abby Schneiderman, co-CEO, Everplans, co-author, In Case You Get Hit By a Bus: How to Organize Your Life Now for When You're Not Around Later		
Issued Covered:	death, law, personal finance, aging, personal affairs, relationships

SEGMENT 1:	THE ROLE WE EACH PLAY IN SLOWING CLIMATE CHANGE	Time	Duration
Synopsis:	Despite the pandemic, carbon emissions are at an all-time high, topping records over the past 3.6 million years. For years, scientists have warned of humans approaching a critical tipping point of global warming – and it's here. Sustainability scientist Dr. Kimberly Nicholas joins Viewpoints this week to break down the current climate landscape and explain why turning things around requires a collective effort.	1:48	9:34
Host:	Gary Price		
Guests:	Dr. Kimberly Nicholas, associate professor, sustainability science, Lund University, author, <i>Under the Sky We Make: How to Be Human in a Warming World</i>		
Issues Covered:	dimate change, global warming, politics, government, transportation, environment, industry, diet

SEGMENT 2:	THE GROWING WEALTH OF THE BILLIONAIRE CLASS	Time	Duration
Synopsis:	Facebook founder and CEO, Mark Zuckerberg added 41 billion dollars to his wealth over the past year. And that's nothing compared to what Tesla CEO, Elon Musk raked in: 157 billion. The majority of humans on the planet can't even fathom earning that amount of money. Yet, for many in the top .01 percent, it's a neverending cycle of holding onto and building their wealth for generations to come. As the rich get richer and take up a bigger piece of the pie, what's left for the rest of us? How can leaders and laws slow this extreme wealth inequality?	13:24	9:27
Host:	Marty Peterson		
Guests:	Chuck Collins, director, Program on Inequality, Institute for Policy Studies, author, <i>The Wealth Hoarders: How Billionaires Pay Millions to Hide Trillions</i>		
Issues Covered:	wealth inequality, wage gap, income, poverty, personal finance, investment, economics

SEGMENT 1:	WHAT HAPPENS TO THE HUMAN BODY IN SPACE?	Time	Duration
Synopsis:	From abrupt changes in gravity to galactic cosmic radiation, astronauts face numerous challenges as they push to explore farther into the unknown. Dr. Emmanuel Urquieta, from the Center for Space Medicine at the Baylor College of Medicine, joins Viewpoints this week to help us understand some of the health impacts of spending time in space and the hurdles that come with longer missions like sending humans to Mars.	1:47	11:02
Host:	Gary Price		
Guests:	Dr. Emmanuel Urquieta, chief medical officer, Translational Research Institute for Space Health, assistant professor, Center for Space Medicine, Baylor College of Medicine		
Issues Covered:	health & medicine, career, technology, innovation, science, space exploration

SEGMENT 2:	THE SKY-HIGH COST OF COLLEGE	Time	Duration
Synopsis:	Today, the average student graduating from a four-year, public university leaves with \$28,600 in student loans. On top of this, students owe interest once payments kick in, and this can range from 3 to 5 percent for federal loans and can go as high as 12 percent for private loans. For some, the large sum of these loans plus interest can take several years to pay off and has a big effect on life decisions like when to start a family or if they can afford to leave a toxic job. This week — we cover the student loan crisis in the U.S. and talk about alternative options and resources that can help lower the current cost of higher education.	14:51	8:11
Host:	Marty Peterson		
Guests:	James Lewis, president, National Society of High School Scholars		
Issues Covered:	higher education, personal finance, student loan debt, career, networking

Air Week: 5/2/21	Studio Production: Jason Dickey		
SEGMENT 1:	JIMMY STEWART: THE HOLLYWOOD ACTOR & FIGHTER PILOT	Time	Duration
Synopsis:	The late actor, Jimmy Stewart, gave us some very memorable characters during his time in Hollywood – many very funny; others endearing; and some dark and villainous. Perhaps Stewart's most dramatic role was the one that not many people know about, but that molded his life and his psyche – not to mention his acting – for most of his career: serving as a fighter pilot in World War II. We talk to an author who delved into Stewart's war service about how flying missions over Europe and seeing his comrades die affected the actor and the types of roles he chose to play post-war.	1:47	10:37
Host:	Gary Price		
Guests:	Robert Matzen, author, Mission: Jimmy Stewart and the Fight for Europe		
Issues Covered:	history, war, military science, acting, career, mental health, film

SEGMENT 2.	EASY SWITCHES FOR A MORE EARTH-FRIENDLY DIET	Time	Duration
	As more Americans look to decrease their carbon footprints, what's one way to make a big difference? Flipping the narrative on the traditional American diet. Beef is more carbon-intensive to produce than chicken, but did you know that cheese is also worse than chicken? It's this knowledge that can change people's dietary decisions and decrease greenhouse gas emissions, slowing global warming. Paul Greenberg, a food and science writer, joins Viewpoints this week to share how people can adjust their daily eating habits to make a difference.	14:26	8:43

5/9/21	THE REDUCE, REUSE, RECYCLE CONUNDRUM	Time	Duration
SEGIVIENT 1.	THE REDUCE, REUSE, RECYCLE CONUNDROW	Time	Duration
Synopsis:	How often do you buy an item from the store that's packaged in a plastic container or wrapped in plastic? Daily decisions like these add up and are feeding into the global plastic crisis. Scientists estimate that there's anywhere between nine to 16 million tons of plastic on the sea floor, polluting the environment, harming species and releasing harmful microplastics into every corner of the planet. Two experts on plastic join us this week to shed some light on the problem and how we can each make a difference by changing our consumption habits and calling on leaders to craft stricter laws on waste management and manufacturing.	1:46	12:05
Host:	Gary Price		
Guests:	Jennie Romer, attorney, author, Can I Recycle This? A Guide to Better Recycling and How to Reduce Single-Use Plastics; Kate Melges, plastics project leader, Greenpeace USA		
Issues Covered:	trash pollution, health & medicine, recycling, consumption, waste management

SEGMENT 1:	THE CYCLE OF FOOD WASTE	Time	Duration
Synopsis:	The average person ends up trashing 25 percent of the food they buy from the grocery store. This can mean fresh produce, expired dairy, stale bread – the list goes on and on. This cycle of food waste across households, grocery stores and restaurants adds up, resulting in more than 81 billion pounds of fresh, edible food being thrown away each year. What's the solution? Two food experts join us this week to offer some answers.	1:47	9:24
Host:	Gary Price		
Guests:	Dr. Elena Belavina, associate professor, operations management, Cornell University; Jenna Harris, senior manager, donor relations & supply chain, City Harvest		
Issues Covered:	food production, waste management, climate change, food insecurity, business, pollution		
Links:	City Harvest – Share Lunch, Fight Hunger Initiative		
	USDA Food Waste Breakdown		
SEGMENT 2:	THE 40TH ANNIVERSARY OF THE NASA SPACE SHUTTLE	Time	Duration
Synopsis:	The birth of the space shuttle in 1981 marked a new era of space travel. For the first time ever, NASA had a spacecraft that could launch into space and come back to earth and land like an airplane. While the shuttle had many successful flights, there were also some big catastrophes that ultimately led the program to cease operations in 2011. Former chief historian of NASA Roger Launius joins Viewpoints this week to tell the story of this era of American space history.	13:12	9:54
Host:	Marty Peterson		
Guests:	Roger Launius, space historian, former chief historian, NASA, author, NASA Space Shuttle: 40th Anniversary		
Issues Covered:	government, history, space exploration, invention, technology, engineering

SEGMENT 1:	THE DEBATE ON INVASIVE SPECIES	Time	Duration
Synopsis:	Many people are worried that non-native plants and animals are invading the U.S. and preventing native species from thriving. Each year, a lot of money and time is spent trying to rid the land of these aliens - often to no avail. But, are these species present because they're the only ones that can exist in that environment? Are some plants and animals actually helping to create a more diverse and robust ecosystem? And are some native species really native to the U.S.? Our guests offer up a different perspective on the invasive species debate.	1:47	8:11
Host:	Gary Price		
Guests:	Fred Pearce, science journalist, researcher, author of <i>The New Wild: Why Invasive Species Will Be Nature's Salvation</i> ; Tao Orion, permaculture educator, author of <i>Beyond the War on Invasive Species: A Permaculture Approach to Ecosystem Restoration</i>		
Issues Covered:	invasive species, biodiversity, ecosystem management, ecology, science

SEGMENT 1:	THE ENVIRONMENTAL EFFECTS OF STAGGERING PALM OIL PRODUCTION	Time	Duration
Synopsis:	In the U.S., most Americans commonly use vegetable or olive oil when cooking. While we don't often hear about palm oil, it's in many of the products that we buy at the grocery store, including everything from food to personal care products. And abroad, palm oil is widely used in cooking and frying. Last year, global consumption reached 72 million tons. However, this ingredient is not being produced sustainably and has led to widespread deforestation in Southeast Asian countries. What's being done to curb the palm oil crisis?	1:48	9:59
Host:	Gary Price		
Guests:	Jocelyn Zuckerman, journalist, author, <i>Planet Palm: How Palm Oil Ended Up In Everything and Endangered the World</i> ; Dr. Patricio Grassini, associate professor, agronomy & horticulture, University of Nebraska-Lincoln		
Issues Covered:	business, environment, pollution, deforestation, wildlife protection, food production, agriculture, sustainable farming
