QUARTERLY SIGNIFICANT PROGRAMS REPORT

July 1 – September 30, 2023

Station KSCW is a CW Network affiliate in its service area. In carrying out its responsibilities as a public trustee, the station deals with and is responsive to the principal issues arising in its community on a continuing basis. A variety of specials, public service announcements, public affairs programs and broadcasts on matters of concern to our community are supplemented, in some cases, with in-community projects. Our most significant programming, which has dealt with current community issues during the preceding three-month period, is set forth below.

Specific Treatment of Community Issues

News stories carried in the Monday through Sunday 7am Morning newscasts, 9pm newscasts, and the rebroadcast of the daily KWCH 10:00pm, ranging in length of 45 seconds or more address community issues.

News stories carried in the Monday through Friday 4pm and 6:30 pm Newscasts ranging in length of 45 seconds or more address community issues.

News stories carried in the Saturday 6pm and Sunday 5:30 pm Newscasts ranging in length of 45 seconds or more address community issues.

COMMUNITY ISSUES

Crime – Reports on criminal activity throughout the entire viewing area as well as the rest of the country and the world. Here we are listing just a few of the stories that were included in our newscast this quarter.

Community - Connecting with the all members of the community and serving their specific and special needs is important in a diverse culture. In Wichita, as in most communities, there is a need for the public and private organizations to contribute money, time, and services to important issues, organizations, and causes within their community. As a public medium, we carry a responsibility to let the community know about important causes that are worthy of public support.

Economy - The economy is of major importance to Kansas residents. Continuing growth keeps our employment rate high; new contract acquisitions by the local aircraft manufacturers, old businesses leaving town, new businesses coming in, proposed tax increases/decreases, and major weather concerns for residences and businesses. All of these factors impact the community, and are of ongoing interest and concern for our viewing audience.

Education – Coverage of educational issues in the viewing area including the various school districts, higher education facilities, and communities.

Environment - Environment issues and concerns are of interest are aired regularly in newscasts to keep viewers informed of the latest in Environmental technology, treatments, advisories, etc.

Health & Safety - In Wichita, as in most communities, there is a need for public awareness of certain public and personal safety issues, and as a public medium, it is our responsibility to help ensure that a message is disseminated.

Politics – Coverage of the issues and decisions by city, county and state government can affect them.

Description of Programs Providing Most Significant Treatment of Community Issues

FCC Report

Third Quarter 2023

Tours

KWCH offers tours to groups interested in learning how a television station operates. Tours are tailored to the individual needs of the group, which usually consists of school-age children. It focuses on the history of the broadcasting facility and explains the types of jobs offered in each department. Tours are conducted by the Promotions Department and questions are welcome throughout.
