

KFI-AM 640
Los Angeles, CA
Quarterly Issues/ Programs List
3rd Quarter, 2014
July 1, 2014–September 30, 2014

Section I
ISSUES OF CONCERN TO THE COMMUNITY

KFI-AM 640 provides its listeners with programming that addresses issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

Crime – During this quarter, there were several crime-related stories that we focused on including: a local man who shot and killed an intruder who was fleeing his home and whether or not he will be charged and trial and subsequent conviction of two women who were accused of beating and killing a woman outside an Orange County club.

Economy – Several issues fell under this category this quarter including, Orange County getting rid of their cash pay toll on more than 61 miles of toll roads, which caused massive problems with incorrect fees being charged to customers who were not aware that tolls needed to be paid, and the national fight to increase the minimum wage, which resulted in a local fight for the City of Los Angeles to increase the minimum wage in the city.

Environment – This quarter, issues that fell into this category included: California lawmakers fighting, and succeeding in getting California to be the first state to ban single use plastic bags, and California's record drought and the crackdown on water use and possibly the implementation of water allocation.

Infrastructure – This quarter, several serious infrastructure issues were brought to light after several 90+ year old pipes burst, causing road problems and wasting several million gallons of water at a time when California is experiencing a drought. Discussed these issues as they happened, keeping the public informed of potential problems and emergency evacuations and discussed the larger issue of an aging infrastructure at a time when the state has little money to dedicate to the problem.

Public Safety - During the quarter, we kept the public informed on a daily basis of potential traffic issues, due to accidents, or police chases as well as provided up to date information when a large earthquake hit Northern California's Napa Valley.

Section II LOCAL PROGRAMMING

This section lists regularly-scheduled and special programs that represent the station's issue-responsive programming providing the most significant treatment of the issues listed above for the calendar quarter.

WEEK ENDING: July 5, 2014						
ISSUE	PROGRAM	DESCRIPTION	GUEST	DATE/TIME	LENGTH
