**Section I**  
**ISSUES OF CONCERN TO THE COMMUNITY**

**KFI-AM 640 provides its listeners with programming that addresses issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:**

**CHARITY**

During the 4<sup>th</sup> quarter, KFI held a day long radiothon event at the Anaheim White House Restaurant to benefit the 501c3 charity 'Caterina's Club,' which helps to feed more than 1,200 children every night in several Orange County cities; Buena Park, Anaheim, Stanton and Garden Grove. During this event, we broadcast live from 5am until 10pm and covered the issue of local hunger throughout the day. KFI raised more than \$250,000 and 47,000 pounds of pasta and sauce during this event.

**CRIME**

During the quarter, several issues fell under this category including: The Bell Gardens mayor being shot and killed, allegedly by his wife during a domestic incident; the problem of aggressive panhandling in Orange county; and the LAPD misclassifying almost 1,200 'violent' crimes as 'minor' crimes, leading to the release of several violent criminals from prison under Proposition 47.

**HEALTH**

Several issues fell under this category during the quarter including: October being Breast Cancer Awareness month, discussed the new research and information surrounding the disease; whether or not LA County is ready if Ebola comes to LA; and the 'kissing bug' disease making an appearance in Southern California.

**MEDIA**

During this quarter, several issues fell under this category including: Bill Cosby being accused by more than 15 women of sexual assault more than 20 years ago; Actor Stephen Collins admitting to sexual misconduct with underage girls, also more than 20 years ago; and Marine Andrew Tahmorressi being ordered released from a prison in Mexico after being held there for months on weapons charges.

**PUBLIC SAFETY**

This quarter two main issues fell under this category; California's drought caused safety issues after the southland was drenched with rainstorms. The storms caused runoff, flooding and mudslides in several areas. Later in the quarter, the rain turned into snow, stranding some motorists in the local mountains or on the highway.

## Section II LOCAL PROGRAMMING

**This section lists regularly-scheduled and special programs that represent the station's issue-responsive programming providing the most significant treatment of the issues listed above for the calendar quarter.**
