Starting the show, the KING 5 Investigative team examines the biggest backlog in state history of mentally ill people sitting in jail, waiting for legally mandated medical help. Another story looks at voter registration anomalies in three Washinton counties. Switching gears, jail officials in Forks, WA downplayed accusations a predator was working in their midst. The offender was not an inmate, but rather a jail officer. Another story from KING 5's Facing Race team asks the question 'can the color of your skin impact the value of your home?'
