Why I Make PSNI03000H

How I define making? In the broadest possible terms it is making something come into the world that didnt exist. Everybody whos ever made anything is bringing something into fruition for a reason. And that act, in and of itself makes us stewards of our culture. Its somethings that we are talking about its a response. Its telling a story, thats really what it is. And I would include everything that could be made, painting, sculpture, welding. All of that. When a kid gets their hands on the world and learns that they can make their fantasies play and make their reality. Thats power. As far as I'm concerned, everyone should feel that kind of power. If there is something that interests you, to bring into the world, thats fantastic. Go figure out how to do it.
