THEY'RE THE CUDDLIEST COMPUTERS IN
THE CLASSROOM...

AND THESE LOVEABLE ROBOTS COULD
SOON BE CARING FOR YOUR ELDERLY
PARENTS OR EVEN TEACHING YOUR

STORY TIME JUST GOT SUPER HIGH TECH

MEET THE DRAGON BOTS

THESE PINT SIZE ROBOTS ARE THE LATEST CREATION OF
CYNTHIA BRAZIL AND HER TEAM AT M-I-T'S PERSONAL
ROBOTICS GROUP

INTERACTIVE AND EXPRESSIVE, THEY'RE CALLED SOCIAL
ROBOTS

AND THEY'RE BEING TESTED IN CLASSROOMS TO HELP
YOUNG CHILDREN LEARN.

*(Cynthia Breazeal, Personal Robotics Group, MIT Media Labs
SOT): "Social robots are designed to be partners, you know, to
be helpful entities, to engage people... not like a tool that you
use, but more like an other, that you really feel you can
collaborate with"*

THE BOTS TELL STORIES, AND URGE CHILDREN TO DO
THE SAME

BEHIND THE SCENES, RESEARCHERS OPERATE THE
ROBOTS

*(Brad Knox, MIT Researcher): "In some cases, I'm monitoring
and controlling ... I can make the robot go 'ha-ha!'"*

*(Cynthia Breazeal, Personal Robotics Group, MIT Media Labs
SOT): "This is a technology that I think supports early childhood
learning, much better than just flat screens-- because of the
social engagement, because of the physicality"*

MAGGIE LAKE: How far are we from seeing this kind of robot in
a classroom

CYNTHIA BREAZEAL: I think it's gonna happen very soon.

WELL A LOT OF TESTING HAS BEEN IN EDUCATION.
BRAZIL THINKS THE OPPORTUNITY IS MUCH BROADER
AND IT WILL INCLUDE ELDER CARE AND PEDIATRICS
TREATMENT IN HOSPITALS. LIKE THIS ROBOT CALLED
HUGGABLE USED IN HOSPITALS TO COMFORT SICK
