

Additional Information - 2023 Children's Television Programming Report
WXOW

On two occasions during the reporting period, Station experienced technical issues that resulted in small portions of a regularly scheduled program being lost or not aired. On April 22, 2023, roughly five minutes of the program Animal Outtakes was lost from the station's multicast stream; On August 5, 2023, roughly 3.5 minutes of the program Vets Saving Pets was lost from the Station's primary stream. Given the brief duration of these interruptions, and the fact that they were due to unexpected technical difficulties, the Station has counted these programs as airing in full.
