

Issues and Programs List

April 1 – June 30, 2020

KNUE - KTYL-FM - KKTX-FM – KISS

Section I - Issues

ISSUE 1 – Better Nutrition – About 15% of children and 35% of adults in East Texas are obese. What assistance is available in East Texas to live a healthier lifestyle for adults and children?

ISSUE 2 – Health – The COVID-19 pandemic brought a surplus of issues that no one saw coming. Companies have been forced to cutback resulting in major layoffs, leaving many without an income or health insurance. For many, testing positive for COVID won't only damage your health, but it can damage your wallet when you are left without health insurance coverage or an income to cover the costs. We talk to a representative from UT Health East Texas who offers free medical screenings and general physician appointments at no charge for those without health insurance in the Tyler and surrounding areas.

ISSUE 3 – Black Lives Matter – Protests have been popping up all over East Texas following the death of George Floyd, including right here in Tyler. Members of the East Texas chapter of the NAACP, Tyler city council members, Tyler police, clergy and other community members were hosted by Shawn Knight of 107.3 KISS FM to discuss race relations in Tyler and East Texas.

ISSUE 4 – Foster Care/Adoption – There are hundreds of children living in foster care across East Texas. In addition, May is Foster Care Awareness Month. We talk with the Hope Haven organization from East Texas which is a home for young to teenage girls who can't find a foster family or haven't been adopted.

ISSUE 5 – Animal Neglect – Horse neglect in East Texas is an all too common problem, and local government is not equipped to adequately investigate cruelty complaints. Pegasus Project relationship with the SPCA of East Texas, along with Allyson's legal expertise, makes it uniquely situated to move quickly and serve as an immediate advocate for horses in need.

Section II – Responsive Programming

These stations air responsive programming in the form of a weekly, locally-produced, 30-minute (approximate) program, EAST TEXAS TODAY. EAST TEXAS TODAY airs at 7:00 AM each Sunday and addresses the issues identified as significant to the community as well as a variety of other related topics. A comprehensive description of the EAST TEXAS TODAY programs is presented below.

DATE	LENGTH
