New York City mayors have a world stage on which to strut and they have made legendary use of it. Yet few have matched the bravado, combativeness and egocentricity that Ed Koch brought to the office during his three terms from 1978 to 1989. As Neil Barsky's film recounts, Koch was more than the blunt, funny man New Yorkers either loved or hated. Elected in the 1970s during the city's fiscal crisis, he was a new Democrat for the dawning Reagan era — fiscally conservative and socially liberal. “Koch” finds the former mayor politically active to the end (he died in 2013) — still winning the affection of many New Yorkers while driving others to distraction.

What happens when America's most joyous, dysfunctional city rebuilds itself after a disaster? New Orleans is the setting of "Getting Back to Abnormal," a film that serves up a provocative mix of race, corruption and politics to tell the story of the re-election campaign of Stacy Head, a white woman in a city council seat traditionally held by a black representative. Supported by her irrepressible African-American aide Barbara Lacen-Keller, Head polarizes the city as her candidacy threatens to diminish the power and influence of its black citizens. Featuring a cast of characters as colorful as the city itself, the film presents a New Orleans that outsiders rarely see.

Ten trillion dollars in Americans' retirement savings are invested in large and small accounts managed by banks, brokerages, mutual funds and insurance companies. But whether your IRA or 401K will assure a safe retirement is largely a gamble. Building off reporting from the groundbreaking special "Money, Power and Wall Street," FRONTLINE raises troubling questions about how America's financial institutions protect our savings. "The Retirement Gamble" reveals how fees, self-dealing and kickbacks bring great profits to Wall Street while imperiling the prospects of a secure future for individuals. The film questions who has the consumer's best interests in mind, and whether there is a better way to manage our retirements.

In recent years, an unusual spate of deadly shark attacks has gripped Australia, resulting in five deaths in 10 months. At the same time, great white sharks have begun appearing in growing numbers off the beaches of Cape Cod, Massachusetts, not far from the waters where Steven Spielberg filmed Jaws. What's behind the mysterious arrival of this apex predator in an area where it's rarely been seen for hundreds of years? Are deadly encounters with tourists inevitable? To separate fact from fear, NOVA teams with leading shark experts in Australia and the United States to uncover the science behind the great white's hunting instincts. With shark populations plummeting, scientists race to unlock the secrets of these powerful creatures of the

What happens when America’s most joyous, dysfunctional city rebuilds itself after a disaster? New Orleans is the setting of “Getting Back to Abnormal,” a film that serves up a provocative mix of race, corruption and politics to tell the story of the re-election campaign of Stacy Head, a white woman in a city council seat traditionally held by a black representative. Supported by her irrepressible African-American aide Barbara Lacen-Keller, Head polarizes the city as her candidacy threatens to diminish the power and influence of its black citizens. Featuring a cast of characters as colorful as the city itself, the film presents a New Orleans that outsiders rarely see.

It is a tale of mysterious threats, persistent failures and small victories, where survival is a long shot at best. Throughout, Otter 501 acts as a lens. Her story reveals a previously unseen world of otter behavior and also acts to illuminate some of the most difficult ecological questions of our time: Do we have a responsibility to

save species that hover on the edge? Are our actions the cause of the illnesses sweeping through the sea otter population? And since we simply can't return the world to its pristine pre-human form, are preservation efforts like this doomed to fail? Otter 501's survival may hold the hint of an answer.

This is a probing portrait of the four doctors in the United States still openly performing third-trimester abortions in the wake of the 2009 assassination of Dr. George Tiller in Wichita, Kansas — and in the face of intense protest from abortion opponents. It is also an examination of the desperate reasons women seek late abortions. Rather than offering solutions, "After Tiller" presents the complexities of these women's difficult decisions and the compassion and ethical dilemmas of the doctors and staff who fear for their own lives as they treat their patients. Official Selection of the 2013 Sundance Film Festival. By Martha Shane and Lana Wilson.
