TOP COMMUNITY ISSUES FOR KRXP.

FOR THE QUARTER BEGINNING OCTOBER 1, 2022 AND ENDING DECEMBER 31, 2022.

1. **CHARITY:** X1039's support of the Bear Creek Nature Center's eighth annual Bear Creek Bear Run. The run on 11/04/2022 raised funds to help the nonprofit Friends of El Paso County, which offers educational programs to the community.
2. **CRIME:** Details are still coming in after the devastating mass shooting at Club Q. A 22-year-old gunman walked into the LGBTQ bar and opened fire, allegedly killing at least five people and injuring 25 others on the night of 11/19/2022. The gunman was subdued by customers in the bar and is in the hospital. This is the same man who was arrested in June 2021 after a standoff at a home in Lorson Ranch where he reportedly made a bomb threat and other threats of violence. This has shaken the area's LGBTQ community. Colorado Gov. Jared Polis, has called the attack "horrific, sickening and devastating." And President Biden responded to the tragedy with calls for gun reform and a plea to end LGBTQ hate. The FBI is investigating if this was a hate crime.
3. **ECONOMY:** The IRS has adjusted several tax provisions due to inflation that could leave more money in your wallet. Due to rising prices, the thresholds for each tax bracket are increasing, which could result in fewer taxes taken from your check next year. The IRS is also raising the standard deduction by \$900 for single filers, \$1800 for married filers, and \$1400 for heads of households.
4. **EDUCATION:** Fountain Fort Carson will be the first school district in El Paso County to launch the first electric school bus in the county next week. The bus will make its first trip next Wednesday (10/19/2022) with a select number of students on board. The first trip will end at Fountain Middle School, where the district will have speakers and a demonstration/tour of the bus describing the benefits to students.
5. **ENTERTAINMENT:** Matt Stone, Trey Parker and Dana "Loca" Rodriguez put out a special announcement about the upcoming opening date for Casa Bonita. In a video posted to Twitter they say May 2023 is the magical time when we'll be able to enjoy the sopapillas again.

6. **GOVERNMENT:** Voters passed measure FF, creating the Healthy School Meals For All program. Starting next school year, K-12 kids will receive free lunch, and Coloradans making more than \$300,000 a year will foot the bill. Colorado Springs voted against recreational marijuana in the city. Alcohol delivery was also rejected. We're still awaiting results from some other close races from the election. We will keep you posted when we learn more.
7. **HEALTH & SAFETY:** The State of Colorado is urging Coloradans to stay up to date on mammograms, and is offering free mammograms to those who qualify through the Women's Wellness Connection program. In Colorado, the CDPHE said more than 5,000 people will be diagnosed with breast cancer this year. The program serves individuals ages 21 to 64 without health insurance or limited insurance and those in financial need. In addition, it provides free Pap tests to check for cervical cancer. Visit the CDPHE website for more details.
8. **MILITARY:** The Secretary of the VA visited the Colorado Springs location on 12/15/2022 to address questions from veterans and their families about the new PACT Act. The VA said that so far, more than 176,000 veterans have applied for benefits related to the act, and more than half a million have received the screenings from burn pit exposure. He said he realizes that many veterans have lost trust in the VA because of frustration and isolation after trying to navigate the system and that they're trying to regain that trust.
9. **NATIONAL & STATE:** The historic Artemis I mission came to an end yesterday as NASA's Orion spacecraft made a successful splashdown in the Pacific Ocean. The mission sent the uncrewed spacecraft on a trip around the moon for a little over 25 days to test whether its capsule could make a safe return to Earth. Now that it has cleared that hurdle, NASA is looking to choose a crew of astronauts to fly the Artemis II mission, which could take off as soon as 2024.
10. **POLICE & FIRE:** Dispatchers may soon be able to provide more services to 911 callers in an emergency. The company 'Prepared' is offering a program, allowing dispatchers to see the emergency through a caller's cell phone. This service is already being used at the Larimer County Sheriff's Office. Once you call 911, the dispatcher gives you the option to send a link as a text to your cell phone. Once you click the link, the caller can provide the dispatcher with live video, photos and location. This system can be used for any situation including fires and even home invasions. Local agencies aren't using it yet. The Teller County Sheriff's Office is looking to add this new system in northern Colorado.

11. WEATHER & UTILITIES: (12/21/22) Get ready for what's coming tonight. A cold front moves in and by tomorrow morning wind chills will be dangerous with -20 to -50°F likely. We will also see light snow overnight, but any accumulation or impact looks to be pretty minimal. Less than 2" expected. If you must travel make sure to take extra clothes and tell someone your route and make sure your car is in good working condition.
