# TOP COMMUNITY ISSUES FOR KRXF.

FOR THE QUARTER BEGINNING OCTOBER 1, 2020 AND ENDING DECEMBER 31, 2020.

1. **CHARITY:** KRXF's support of KILO-FM's "Stuff The Truck" food drive for Care & Share of Colorado Springs, benefitting local families struggling with food security for the holidays.
2. **CRIME:** The Pueblo County Sheriff's Office arrested a man and woman in connection with a child abuse death investigation of a 15-month-old toddler who was in foster care at their Pueblo West home. Prosecutors say the child had many injuries throughout his body and they believe the suspects tried to hide them before a child services visit. The two arrests stem from a report of an unresponsive child on Sept. 16 at the home on S. Coral Drive. The child was taken to a hospital but died two days later. Three other foster children lived at the home, as well as a biological child of one of the suspects.
3. **ECONOMY:** Southwest Airlines announced it will expand service to the Colorado Springs Airport. The Dallas-based airline said it will start flying to Colorado Springs in the first half of next year.
4. **EDUCATION:** After a recommendation from county health authorities, the Widefield, Harrison, Cheyenne Mountain, Manitou and Lewis Palmer school districts will postpone students' physical return to classrooms in January. Each school district has drafted a 'return to learn' plan that will see some students returning to classrooms as early as January 9.
5. **ENTERTAINMENT:** The In-N-Out grand openings in Colorado have made international news, as read in the UK's *Daily Mail*. On Friday afternoon, the Colorado Springs location wait times were at 14 hours, causing traffic gridlock and in Aurora, a fight broke out between two men, one of them literally getting knocked out of his sweatpants, as their wait times were about 12 hours.
6. **GOVERNMENT:** Congress has approved a \$900 billion COVID-19 economic relief package to deliver help to businesses and individuals as well as to provide money to deliver vaccines. The package would establish a temporary \$300 per week supplemental jobless benefit and a \$600 direct stimulus payment to most Americans, along with money for businesses, schools, health care providers and renters facing eviction. The Save Our Stages Act was also passed with \$15 billion in aid to independent venues and their staff.

7. **HEALTH & SAFETY:** The Department of Corrections says 303 inmates at the Fremont Correctional Facility have tested positive for COVID-19. Inmates have been provided KN95 masks and are required to wear them, and they are limiting movement in the facility. In response to the spike in cases, the Fremont County Public Health Director said residents nearby should get tested in case of widespread infections. MAKO Medical will provide free drive-thru testing starting tomorrow (10/22/2020,) at the Garden Park Building located at 201 N. Sixth Street.
8. **MILITARY:** Evans Army Community Hospital on Fort Carson will start administering the Moderna vaccine today (12/22/2020.) The first round of doses will be given to healthcare workers and emergency services personnel as part of the distribution plan put in place by the Department of Defense. Once prioritized groups and individuals have been vaccinated, vaccines will be offered to military family members and retirees at a later date. The vaccine is voluntary and prioritized Department of Defense personnel are “highly” encouraged to take it. Fort Carson is the first military installation in the state to receive the vaccine.
9. **NATIONAL & STATE:** Pfizer announced that its COVID-19 vaccine candidate has been 90% effective. The company says that in Phase 3 trials, the vaccine has proven to promote a vaccine efficacy rate above 90% following the two-shot regiment. Pfizer's vaccine candidate began Phase 3 testing in the summer and is among a handful of vaccine candidates that could be distributed in the coming months pending FDA approval.
10. **POLICE & FIRE:** A thief broke into a Sheriff's Deputy's vehicle parked right outside of the sheriff's office headquarters and stole a number of items over the weekend. The deputy discovered the break-in around 3:45 in the morning Sunday. The brazen thief stole the deputy's Glock 45, along with magazines and ammunition, as well as the deputy's ballistic vest, body camera, and sheriff's office badge. Detectives are reviewing surveillance footage. Anyone with information on the crime is urged to call the sheriff's office immediately at 390-5555.
11. **WEATHER & UTILITIES:** Fountain Mayor Gabriel Ortega announced at a city council meeting yesterday (10/13/2020,) the water is now safe to drink. Perfluorinated Compound (PFC) contamination, a known cancer-causing agent, was found in Fountain and Security-Widefield water in 2016. Since then, the Air Force has given the city \$4.3 million to make the water safe with new filtering units. The contamination is believed to have come from firefighting foam used at Peterson Air Force Base.
