TOP COMMUNITY ISSUES FOR KRXP.

FOR THE QUARTER BEGINNING APRIL 1, 2021 AND ENDING JUNE 30, 2021.

1. **CHARITY:** Colorado College received the largest gift from an individual donor in the college's 147-year history. Yesterday, an anonymous donor made a \$33.5 million commitment to the college, with instructions for a large portion of the funds to go towards the Colorado Springs Fine Arts Center at the College. The money will also help the college in its day-to-day activities, and will also help make the school more accessible for current and potential students, according to the acting co-president.
2. **CRIME:** A gunman opened fire at a birthday party in Colorado Springs, killing six adults before killing himself yesterday. Police say the shooting happened around 12:40 a.m. at a home on Preakness Way inside the Canterbury Manufactured Home Community on the east side of the city. The Colorado Springs Gazette reports officers arrived at a trailer to find six dead adults and a man with serious injuries who died later at a hospital. The suspected shooter was the boyfriend of a female victim at the party attended by friends, family and children. Children at the shooting were placed with relatives. Police have not released the identities of the shooter or victims. Authorities say a motive wasn't immediately known.
3. **ECONOMY:** JBS SA, the world's largest meat processing company who also has a plant in Greeley, says it paid the equivalent of \$11 million to hackers who broke into its computer system. The Brazil-based company said on May 31 that it was the victim of a ransomware attack, but yesterday was the first time the company's U.S. division confirmed that it paid the ransom. JBS said the vast majority of its facilities were operational at the time it made the payment. It said it decided to pay in order to avoid any unforeseen issues and ensure no data was exfiltrated. The FBI has attributed the attack to a Russian gang that has made some of the largest ransomware demands on record in recent months.
4. **EDUCATION:** Governor Polis announced the winners of the \$50,000 scholarships in the Colorado Comeback Cash drawing. The vaccinated teens were from Centennial, Boulder, Littleton, Longmont, and Grand Junction. One of the original winners was from Steamboat Springs, but he said during the news conference that he had a full-ride scholarship available to him, so he made his winning scholarship available to another vaccinated teen.

5. **ENTERTAINMENT:** Governor Jared Polis announced yesterday that Coloradans who are vaccinated against COVID-19 now have a chance of winning a million dollars. The Governor cited similar programs that are working in other states like Ohio, which saw a “surge of interest” in COVID-19 vaccines after the state announced its lottery. Governor Polis said the money is coming from unused funds which were set aside for vaccination advertising, and believed it would be more effective in the lottery than advertisements. The first drawing is June 4, with weekly drawings after that. Winners will be contacted by the Colorado Department of Public Health and Environment, and you do have to be a Colorado resident, and at least 18 years old.

6. **GOVERNMENT:** Governor Jared Polis announced yesterday that Coloradans who are vaccinated against COVID-19 now have a chance of winning a million dollars. The Governor cited similar programs that are working in Ohio, which saw a “surge of interest” in COVID-19 vaccines after the state announced its lottery. Governor Polis said the money is coming from unused funds which were set aside for vaccination advertising, and believed it would be more effective in the lottery than advertisements. The first drawing is June 4, with weekly drawings after that. Winners will be contacted by the Colorado Department of Public Health and Environment; you do have to be a Colorado resident, and at least 18 years old.

7. **HEALTH & SAFETY:** The State of Colorado has redefined what establishes a COVID-19 outbreak. As of yesterday, the state says, "five or more confirmed or probable cases of COVID-19, of which at least one case has had a positive test with onset in a 14-day period" would establish an official COVID-19 outbreak. Since the pandemic started, an outbreak was considered when two or more positive COVID-19 cases within 14 days.

8. **MILITARY:** After Vice President Kamala Harris was appointed as the Chair of the National Space Council, several Colorado Lawmakers are inviting her to come and see the state's space industry first hand. Senators Michael Bennet, John Hickenlooper, and other Colorado representatives extended the invite yesterday, citing Colorado's extensive involvement in space exploration and research, the U.S. Air Force Academy's top undergraduate aerospace engineering program, how the University of Colorado Boulder receives more NASA funding than any other public university and much more. Lawmakers also reaffirmed how Colorado should be Space Command's permanent home.

9. **NATIONAL & STATE:** (6/28/21) Rescue workers are still holding out hope they will find survivors as they head into a fifth day of digging through the rubble of a partially collapsed condo building outside Miami. The death toll stands at 9 as of this morning, but more than 150 people remain missing. Families of the missing rode buses yesterday to a site nearby from which they watched rescuers work. The Israeli Die-as-pra Affairs Minister led a humanitarian delegation that included several Israeli experts in search-and-rescue operations. He said the experts have told him of cases where survivors were found after 100 hours or more..

10. **POLICE & FIRE:** A 15-year-old and 9-year-old were killed April 17 while crossing Fountain Mesa Road and Mesa Ridge Parkway in Fountain. According to police, the boys were struck by a westbound vehicle as they crossed the road against a red light. The older boy died on the scene, and the younger was rushed to the hospital where he later died. A third boy, 15, was also struck and suffered minor injuries. The driver remained on scene and was cooperating with the investigation. Police are still investigating what led up to the crash but say it currently does not appear the driver committed any traffic violations.

11. **WEATHER & UTILITIES:** A massive four-year- project has broken ground in Colorado Springs with hopes to improve military access, mobility and safety along sections of I-25, as well as highway 94, S. Academy Blvd., and Charter Oak Ranch Road. The first project goes along highway 94 between Peterson and Schriever Air Force Bases. The second project is aimed to help people traveling between Peterson Air Force Base and Fort Carson. Though the new project will bring traffic congestion for the next couple of years, it's something CDOT leaders and Colorado Springs Mayor John Suthers say is necessary. The Mayor cited traffic congestion, long wait times, and a crash in those areas nearly every day.

KRXP NEWS UPDATE 05/27/2021 1 MIN. AAA is estimating about 37 million people will hit the road to celebrate the unofficial kickoff of summer, and it's going to be costly. The national average for the price of gas is just over \$3 per gallon. The U.S. hasn't seen prices this high since 2014. It's also an increase of more than \$1 per gallon from the week preceding Memorial Day last year. Some of the price increase is due to the cyberattack on the Colonial Pipeline earlier this month. Though that supply pipe is back in full operation, some gas stores in the Southeast aren't fully stocked yet. Another contributing factor is that the global price of oil is up significantly from last year.

Customers can expect a secure wireless communication network to CSU, giving customers more information about how much water, gas, or electricity they're using, along with providing a breakdown of usage throughout the day. It also means these meters can quickly provide information about leaks or outages. As always, scammers can be expected, so CSU says expect two pieces of mail notification and one phone call ahead of the new meter's installation.

KRXP NEWS UPDATE 05/27/2020 1 MIN. Those who travel on Gold Camp road starting today, expect up to one-hour delays. Tomorrow, the road will be completely closed. Crews from multiple agencies will work to remove the boulder that fell from the mountain above and closed the road on April 25. Crews are asking people to avoid the area. The Upper Columbine Trail near tunnel 2 will also be closed during this time. North Cheyenne Canyon Road remains closed while the City finishes a parking improvement project north of Helen Hunt Falls.

KRXP NEWS UPDATE 06/1/2020 1 MIN. The closure of North Cheyenne Canyon Road has been extended through mid-June due to wet weather conditions preventing progress on the parking project. The road was expected to open over the Memorial Day weekend. Now the road will remain closed weekdays through June 18 (weather permitting.) The road has been closed since May 3 while crews finish the lot which still must be striped to mark individual parking spaces that will increase from 75 to 92. Drainage improvements also are part of the work.

KRXP NEWS UPDATE 06/3/2020 1 MIN. A massive four-year- project has broken ground in Colorado Springs with hopes to improve military access, mobility and safety along sections of I-25, as well as highway 94, S. Academy Blvd., and Charter Oak Ranch Road. The first project goes along highway 94 between Peterson and Schriever Air Force Bases. The second project is aimed to help people traveling between Peterson Air Force Base and Fort Carson. Though the new project will bring traffic congestion for the next couple of years, it's something CDOT leaders and Colorado Springs Mayor John Suthers say is necessary. The Mayor cited traffic congestion, long wait times, and a crash in those areas nearly every day.

KRXP NEWS UPDATE 06/4/2020 1 MIN. The Colorado Department of Transportation announced full closures this weekend along I-25 in Lone Tree for emergency bridge repairs. Starting tonight at 9pm through 5am tomorrow, expect the FULL closure of northbound I-25 and double lane closures on southbound I-25 from Ridgeway Parkway to Lincoln Avenue. The closure schedule can be found on the CDOT website. Expect delays if you're taking that route during those times.
