# TOP COMMUNITY ISSUES FOR KRXP.

FOR THE QUARTER BEGINNING JANUARY 1, 2021 AND ENDING MARCH 31, 2021.

1. **CHARITY:** One local restaurant received much needed aid from none other than Dave Portnoy, the founder of Barstool Sports. Portnoy took matters into his own hands when restaurants shut down in New York City due to the coronavirus pandemic, and introduced the Barstool Fund in December with \$500,000 of his own money. Since then, The Barstool Fund has raised Nearly \$27M from the likes of many big names including Aaron Rodgers, Guy Fieri, Tom Brady, Kid Rock, the New England Patriots, and more. Portnoy has helped 142 businesses so far – including one in Colorado Springs. Owner AJ Frasca of Panino's received the call from Portnoy, informing him he would receive some of the money to help the restaurant get along.
2. **CRIME:** Donthe Lucas, the Colorado man on trial for the murder of his pregnant girlfriend Kelsie Schelling in 2013, has been found guilty of her murder. The jury came to the verdict, and Lucas was immediately sentenced to life in prison without the possibility of parole. Kelsie disappeared 8 years ago after she found out she was eight weeks pregnant, and drove from Denver to Pueblo to have a discussion with Lucas. The 21-year-old was never seen again, and to date her body has never been found. The mother of Kelsie urges those out hiking, to keep searching so she can be found and properly laid to rest.
3. **ECONOMY:** Starting April 16th, Colorado Springs City and County officials will be able to decide how to handle COVID-19 restrictions, as the state will no longer mandate the COVID dial. Mayor John Suthers met with Governor Jared Polis about how the state will give power back to local leaders. Suthers and City Officials say they have no intention of placing a City-wide ordinance that would require people to wear masks or restrict business capacity. While restrictions will be lifted, private businesses will still be able to implement their own restrictions.
4. **EDUCATION:** The federal government has approved a request from Colorado which will allow students to take one state standardized test this year in either math or English, due to the challenges the pandemic put on education last year. Students in fourth, sixth or eighth grades will take the math assessment and students in grades third, fifth and seventh will take the English or language arts assessment, however parents can opt to have their students do both.

5. **ENTERTAINMENT:** Red Rocks Amphitheatre announced yesterday it received approval from the State to open for its 80th anniversary season at a capacity of 2500 for physically distanced shows. The venue also announced new COVID protocols, and listed events coming up for the year. Red Rocks also said some event dates could change depending on artist availability, tour schedules and Covid-related conditions. In further detail the venue said guests are welcome until one hour after sunset, and concessions will be sold on the Top Plaza. Masks are required in the amphitheatre and no vehicles will be permitted in the park after 7 p.m.
6. **GOVERNMENT:** Colorado's entire congressional delegation has written a letter to President Joe Biden, hoping to keep the Space Command at Peterson Air Force Base. The letter urges the President to conduct a review on the decision to move U.S. Space Command from Colorado Springs to Huntsville, AL. The final decision for the permanent home of U.S. Space Command is expected in 2023, pending the results from a required environmental impact analysis.
7. **HEALTH & SAFETY:** Three drive-up COVID-19 vaccine clinics are being offered through Centura Health as registration for the clinics is open. The clinics are being held in Colorado Springs, Pueblo and Commerce City. The first event is taking place tomorrow at the Broadmoor World Arena from 10 a.m. to 6 p.m. and will offer 2,000 Moderna vaccine appointments. If you are currently eligible for the vaccine, register on the Centura website. You can also call 1-877-COVAXCO for more information.
8. **MILITARY:** Actor Terry Crews gave a shout out to soldiers from Fort Carson with the 4th Infantry Division on Facebook after he got vaccinated at the mass COVID vaccine clinic in Los Angeles. The troops are deployed in L.A. helping with FEMA's mass vaccination sites. Crews added health care workers, doctors and military worldwide to the thank you as well.
9. **NATIONAL & STATE:** Ten people, including a Boulder Police officer, were killed at a King Sooper store in Boulder. Officers were initially called to the store for reports of a man shot in his vehicle. When they arrived the suspect started shooting at police. Windows to the store were seen shattered. Many customers were able to escape or hide. Hundreds of police officers from throughout the Denver area responded to the afternoon attack. Police announced a suspect was seriously injured and taken into custody. Boulder Police say Officer Eric Talley was killed. He had been with the department since 2010. The ATF and FBI are assisting in the investigation.

**10. POLICE & FIRE:** Pueblo Police are asking the public for help with any information tied to a house fire after two people were found dead and two others were seriously injured. The fire happened at a home on W. 15th Street, just northwest of Downtown. The home was fully engulfed in flames when crews arrived, and they discovered two people with critical injuries, and later found two others deceased in the basement. At this time, no one has been publicly identified. The coroner is working to determine the cause of death for the people found in the basement. If you have any information, call Pueblo Police.

**11. WEATHER & UTILITIES:** Winter Storm Xylia has affected areas across the state very differently. It was one for the record books according to predictions, and as of midnight, Denver had seen 27.1 inches of snow. The official snow recording comes from Denver International Airport, which moves this storm into fourth place on the Top 10 snowstorms in Colorado recorded history. 1913: 45.7 inches, 2003: 31.8 inches, 1946: 30.4 inches, 2021: 27.1 inches, 1982: 23.8 inches.
