

KRWG-FM Las Cruces, New Mexico
KRXG-FM Silver City, New Mexico
Quarterly Program Topic Report
1st quarter, 2024

Through meetings with local community leaders, review of area newspapers and other publications, and production of daily newscasts (Monday-Friday), the staff of KRWG-FM/KRXG-FM has determined that the following issues are of primary importance to the citizens within our coverage area:

1. Arts, Entertainment, and Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.

2. Business, Economic Development, Environment - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is an important issue. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing, which is also a source of news and related issues. Environmental concerns are often at odds with economic development pressures.

3. Local Public Affairs and Education– Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.

Stories placed in these three main categories are broadcast on local newscasts each weekday (Monday-Friday) at 645, 745, 845, 1644, 1748, and 1844.

Story descriptions and broadcast time(s) are listed on the upcoming pages by topic area.

1. Arts, Entertainment, and Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.
