Good morning and welcome to Spotlight Indianapolis! Our Weekly program celebrates the people and organizations creating positive impact every day. Including events and current issues, that influence our city.....

Many of us have gathered with loved ones over the holidays. And, many families use this time to share memories looking over old photographs. The pictures connect us with our past and help us remember why the bonds of family are so special. As technology advances the way we preserve these memories...our iPhones and computer files for example....many of us have wondered how to preserve old family albums and picture keepsakes. My guest today, has tackled this problem head on! She is leading a project to create digital collections of images.

PROGRAM: **SPOTLIGHT INDIANAPOLIS**

AIR DATE: January 24

AIR TIME: 5:30 A.M.

PROGRAM LENGTH: 30 minutes

PROGRAM TOPIC: Art with a Heart...Served Up with Love

PROGRAM HOST(S): Donna Jones

GUESTS: Andrew Lee, Executive Director, Bridget Woodsen, AWAH intern, Lisa Heeter OR Joanna Ireland, program recipients

PROGRAM DESCRIPTION: Today's program focuses on the not-for-profit Art with a Heart with an emphasis on the programs it offers thousands of central IN kids.

1. So exactly what is the mission of Art with a Heart? How is it you hope to impact the lives of children?
2. In my research for today's program, I ran across a video where you said something that really struck me. You said, "People think of art education and they think of the product, but in fact, the process is just as important as the product." Can you elaborate on that please?
3. Can any school participate? What has to happen to make them eligible?
4. Creative Kindergarten Connections is a model for teaching that is so interesting and creative because it uses art to improve students' ability to achieve standards in reading, math and writing which is no easy task these days given the ever-changing educational landscape. I know it utilizes both teachers and volunteers. Exactly, how does it work?
5. In October of last year, a final evaluation report on the program was released. Over how long a period does this report cover and what were its findings?
6. It all boils down to impact, doesn't it? What can you tell us in terms of the impact any one of your programs can have on a child be it academically, emotionally or just generally?
