

### **SciTech Now**

30 minute weekly program  
Fridays at 8:30pm on KLRN

Chris Duel hosts this weekly newsmagazine program. The show covers everything from the IT industry to biomedical enterprises, bringing attention to the science, technology, engineering and mathematics (STEM) advancements in South Central Texas and around the country.

Program number: 101  
Program length: 26:46  
First air date/time: February 12, 2016 7:30pm

It's the largest single-location collaborative workspace in the country for tech "geeks." Its name is perfect... Geekdom. Now in its fifth year, the San Antonio, Texas tech incubator is educating and attracting young talent while serving as a catalyst for new startups and apps. In this segment, we look at what is being created for the future and how the community benefits from the unique community service that's provided by the "geeks".

Program number: 102  
Program length: 26:46  
First air date/time: February 19, 2016 7:30pm

A look at the Center for the Intrepid at Fort Sam Houston in Texas. Through a team of various physicians, CFI provides patients with "state-of-the-art" amputee care, helping them return to their highest physical, psychological and emotional selves. In this segment, we discover how CFI uses "state-of-the-world" technologies for rehabilitation, research, education and training, for our heroes.

Program number: 103  
Program length: 26:46  
First air date/time: February 26, 2016 7:30pm

San Antonio Pets Alive has been instrumental in helping the city reach a no kill status for its stray pet population. But they are not slowing down now. A new CEO is changing things at warp speed and using technology to turn around the struggling pet rescue group.

We'll let you know what to expect and everything you need to know leading up to the kick off on Friday, October 23rd.

Program number: 104  
Program length: 26:46  
First air date/time: March 4, 2016 7:30pm

What happens when a design expert and a tech expert decide to become partners? In the case of San Antonio's Jill Giles and Brad Parscale, they form a highly successful web marketing company that boasts a diverse clientele, including one of the leading candidates for President of the United States.

Program number: 105  
Program length: 26:46  
First air date/time: March 11, 2016 7:30pm

The oil and gas industry is enjoying a boom in South Texas. But not all of the technology and discovery is taking place on the land or underground. A San Antonio-based company is assisting from the sky using state of the art drones, many of which are operated by former Air Force fighter pilots. Data Wing specializes in aerial data collection and analytics utilizing many of the skills that were honed in military aviation.

Program number: 106  
Program length: 26:46  
First air date/time: March 25, 2016 7:30pm

San Antonio and Fiestas are synonymous. Now with the city's ever-expanding educational opportunities in the world of STEM - Science, Technology, Engineering and Mathematics - there is an idea whose time has come: San Antonio's first ever Science Fiesta.
