

# KFNT Public Size Quarterly Issues Apr - June - 2015

Quarterly issues for April, May June 2015.....

1. As a resort community, many residents and visitors to the Coachella Valley are driving "buzzed". Every year there are numerous accidents and deaths caused by drunk and "buzzed" driving. In that "buzzed" driving is as dangerous and illegal as drunk driving. To keep the issue in front of the driving public KFUT-FM used two Public Service announcements to drive the message home. The second was provided by the US Department of Transportation and it featured Jeff Foxworthy with a humorous approach to promote a designated driver.
2. In another driving issue, with increasing sales of "smart phones" we addressed texting while driving. Called Texting a Million Places, this National Highway Safety Commission spot uses areas dangerous tasks, including driving a vehicle. We also ran a PSA on using the proper car seat for kids and infants.
3. The Coachella Valley is home to several Native American Tribes. The Get outside and Play Ball ad produced by the USDA, encourages Native American Families to get their children outside of the home to get some exercise. In that same vein we used an ad from the US Forest Service, called Busy Family which encourages families to put down the video games and head to a National Forest for outdoor recreation.
4. In light of the Hurricane Sandy disaster, although Riverside County is not impacted by hurricanes, we felt it was important to encourage people to be ready for any disaster. To that end we ran Family Routine, provided by FEMA, which asks people to plan and prepare for a natural disaster. In the same vein of being prepared for the unknown, we ran Feed the Pig, which encourages families to save some money for the unexpected. One of the ways to do so is to save money on energy costs. We ran Save Energy by the US Department of energy with ideas on how to save energy use in the home and thereby saving money to use on other things.
5. Home foreclosure is a serious issue in Riverside County. Already financially stressed homeowners are given a number to seek free help from HUD in a commercial called Making Home Affordable.
6. Riverside County has a higher than average school dropout problem. Twelve Years Mentoring from the United Way encourages listeners to volunteer as a tutor in K-12 education.
