Issues Programs List

Quarterly Issues Programs List Station: WQUS, WCRZ, WWBN, WRCL, WFNT, WLCO January 1, 2022, through March 31, 2022

Section I - Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. <u>THE LINK BETWEEN OBESITY AND CANCER</u>: 36% of adults in Genesee County are obese. The rate of adult obesity for the entire state of Michigan is 31%. That's more than 1/3 of our population and that number is growing. Studies are finding that obesity significantly increases a person's risk for a variety of cancers. However, not all forms of fat carry equal risk. An expert discusses who is more at risk and why.
- B. <u>KIDS WHO'VE LOST PARENTS TO COVID</u>: Since the beginning of the pandemic, at least 1 in 5 Genesee County residents have been infected with COVID-19, a total of 101,110 reported cases. Many of those cases resulted in death, leaving a number of children without their parents. New estimates show that more than 167,000 children under 18 nationwide (a number growing rapidly) have lost a parent or major caregiver to Covid-19. Experts discuss how these "forgotten grievers" are coping and what actions might help ease the impact on them.
- C. <u>SEASONAL AFFECTIVE DISORDER</u>: Michigan is ranked in the top 10 states that suffer the most from seasonal depression. The winter months can be very tough on Genesee County residents and their families. SAD can develop into non-seasonal major depression if left untreated. An expert gives advice on how to combat SAD and reduce the risk of getting it next year.
- D. HOW LATER SCHOOL START TIMES AFFECT PARENTS AND STUDENTS: The average high school starting time in Michigan is 7:49. However, some students in Genesee County start class as early as 7:20 am. This can cause Sleep deprivation in teens. Lack of sleep has been linked to depression, anxiety, weight gain, and worsened heart functioning. An expert shows, through a case study, how implementing later school start times allows students and parents to get more sleep.
- E. <u>WHO'S RESPONSIBLE FOR A MASS SHOOTING?</u>: Just outside of Genesee County, the Oxford school shooting incident took place in early 2022. It was a huge shock to the community. The school shooter used his parents' gun, and now they are facing charges for their role in the incident. Experts discuss how the accountability of mass shootings doesn't always just fall on the shooter.

Section II - Responsive Programs

Radio Health Journal covers a full range of community issues and airs every Sunday morning on all six stations at 6:30am. The program is 30 minutes in length. See attached program log.

Program 22-01	Executive Producer:		Reed Pence
Air Week:	Production Manager:	J	lason Dickey
1/2/22			
SEGMENT 1:	HOARDING DISORDER: MORE THAN JUST TOO MUCH JUNK	Time	Duration
Synopsis:	Hoarding disorder affects at least five percent of Americans, and despite TV programs showing its effects, it is still widely misunderstood. Experts discuss the danger hoarding poses to others, including neighbors, children, and first responders; why those with the disorder are so attached to things; and the right and wrong ways to address the problem.	1:50	12:20
Host & Producer:	Reed Pence		
Guests:	Dr. Carolyn Rodriguez, Associate Professor of Psychiatry and Behavioral Sciences, and Associate Dean for Academic Affairs, Stanford University School of Medicine; Elaine Birchall, social worker specializing in hoarding disorder and co-author of <i>Conquer the Clutter: Strategies to Identify, Manage and Overcome Hoarding</i>		
Compliancy issues:	Children and Youth at Risk, Mental Health, First Responders, Family Issues, Public Safety		
Links:	Carolyn Rodriguez – Stanford University profile		
	Birchall Consulting		

SEGMENT 2:	DEALING WITH LIFELONG DISEASE	Time	Duration
Synopsis:	Life-threatening, lifelong chronic diseases from infancy are at the top of the list of medical challenges. A woman who has dealt with cystic fibrosis her entire life discusses how mindset is often the biggest factor in living a full life with such a disease, and sets out her recipe for shoring up one's approach. Developing a chronic disease in your 30s or 40s strikes a lot of people as unfair. The deck seems stacked against someone like that. But what happens when you're diagnosed with a lifelong chronic disease almost at birth? That's what happened to Mary Elizabeth Peters, a theater artist and patient advocate in Boston.	15:12	7:43
Host:	Nancy Benson		
Producer:	Bridget Killian		
Guests:	Mary Elizabeth Peters, author of Don't Let Them Kill You: 10 Rules for Navigating Chronic Illness In the Age of Infinite Intervention		
Compliancy issues:	Mental Health, Consumerism, Health Care, Children and Youth at Risk, Public Health		
Links:	maryelizabethpeters.com		

Program 22-02	Executive Producer:	Reed Pence	
Air Week:	Production Manager:	Jason Dickey	
1/9/22			
SEGMENT 1:	SEGMENT 1: CAN 911 RESPOND TO MENTAL HEALTH CRISES?	Time	Duration
Synopsis:	Up to 15% of calls to 911 involve people having a mental health breakdown, yet many call centers, especially in rural areas, have no one with any training on what to do or who to dispatch in those cases. Typically they send police, who may also have no training on how to handle mental health crises and may inflame the situation. Experts discuss why this happens and how communities can respond better.	1:50	12:15
Host & Producer:	Reed Pence		
Guests:	Dr. Adam Vaughan, Assistant Professor of Criminal Justice and Criminology at Texas State University; Tracy Velazquez, Manager, Public Safety Research, Pew Charitable Trusts		
Compliancy issues:	Police, Criminal Justice System, Mental Illness, Emergency and First Responders, Economics, 911, Mental Health, Local Government, Public Safety, Jails and Prisons		
Links:	Dr. Adam David Vaughan – Texas State University Faculty Profile		
	Dr. Vaughan on Twitter		
	<u>Tracy Velazquez, MS, MPA – Women's Media Center</u>		
SEGMENT 2:	CHILDREN'S "PSYCHOTIC-LIKE EXPERIENCES	Time	Duration
Synopsis:	Children and young adolescents may experience perceptual distortions or strange thoughts, but if they become frequent and disruptive, they can be an early tip-off to serious future mental health distress. An expert discusses this new field of mental health research in adolescents.	15:07	7:53
Host:	Nancy Benson		
Producer:	Polly Hansen		
Guests:	Dr. Nicole Karcher, Instructor, Department of Psychology, Washington University, St. Louis		
Compliancy issues:	Education, Public Health, Mental Health, Children and Youth at Risk		
Links:	<u>Nicole Karcher – Psychiatry</u>		

Program 22-03	Executive Producer:	Ree	ed Pence
Air Week:	Production Manager:	Jaso	on Dickey
1/16/22			
SEGMENT 1:	WEATHER DISASTER CLEANUP: COSTLY & INEFFICIENT, BUT NECESSARY	Time	Duration
Synopsis:	Severe life-threatening weather, such as the rare December tornadoes that tore through Kentucky and other states in December 2021, will likely become more frequent with climate change. Experts discuss the difficulties in cleaning up large scale disasters and how planning could improve the results cheaply.	1:50	12:05
Host & Producer:	Reed Pence		
Guests:	Dr. Sybil Derrible, Professor of Urban Engineering, University of Illinois at Chicago; Dr. Nazli Yesiller, Director, Global Waste Research Institute, California Polytechnic State University		
Compliancy issues:	Waste Disposal and Landfills, Natural Disasters, Pollution, Hazardous Materials, Climate Change, Local and State Government, Environment, Recycling		
Links:	Sybil Derrible		
	Director - Global Waste Research Institute - Cal Poly, San Luis Obispo		

SEGMENT 2:	THE LINK BETWEEN OBESITY AND CANCER	Time	Duration
Synopsis:	Studies are finding that obesity significantly increases a person's risk for a variety of cancers. However, not all forms of fat carry equal risk. An expert discusses who is more at risk and why.	14:55	7:26
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. Anthony Perre, Chief, Department of Outpatient Medicine, Cancer Treatment Centers of America		
Compliancy issues:	Health Care, Public Health, Consumerism		
Links:	Anthony Perre, MD Internal Medicine Atlanta, Ga CTCA		

Program 22-04	Executive Producer:	Reed Pence	
Air Week:	Production Manager:	Jason Dickey	
1/23/22			
SEGMENT 1:	THE SLEEPIEST WORKERS? YOUR LOCAL POLICE	Time	Duration
Synopsis:	Studies show that law enforcement is the most sleep deprived of all professions, with potentially damaging and even fatal consequences for decision-making and reaction time, as well as long-term health damage. Experts discuss the unique challenges in having a poorly rested police force and in fixing it.	1:50	12:54
Host & Producer:	Reed Pence		
Guests:	Dr. Jagdish Khubchandani, Professor of Health Science, Ball State University; Dr. John Violanti, Research Professor Of Epidemiology and Environmental Health, University at Buffalo		
Compliancy issues:	Police and Law Enforcement, Local Government, Public Safety, Police, Public Health		
Links:	Dr. Jagdish Khubchandani New Mexico State University		
	John Violanti: Faculty Expert on Police Stress - University at Buffalo		
SEGMENT 2:	PET FOOD: NOT AS SIMPLE AS MOST PEOPLE THINK	Time	Duration
Synopsis:	A growing number of pet owners are tempted to put their dog or cat on vegan, gluten-free or raw diets. An expert pet nutritionist and veterinarian discusses what pets should and shouldn't eat to be healthy.	15:46	6:28
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. Valerie Parker, Associate Professor of Veterinary Clinical Sciences, The Ohio State University Veterinary Medical Center		
Compliancy issues:	Diet and Nutrition, Pets and People, Food and Nutrition		
Links:	Valerie Parker College of Veterinary Medicine		

Program 22-05	Executive Producer:	Ree	d Pence
Air Week:	Production Manager:	Jason Dickey	
1/30/22			
SEGMENT 1:	KIDS WHO'VE LOST PARENTS TO COVID	Time	Duratio
Synopsis:	New estimates show that more than 167,000 children under 18 (a number growing rapidly) have lost a parent or major caregiver to Covid-19. Psychologists say deaths under such circumstances are also much more difficult for survivors to adjust to and will have a major impact on the US. Experts discuss how these "forgotten grievers" are coping and what actions might help ease the impact on them and to the nation.	1:50	11:23
Host & Producer:	Reed Pence		
Guests:	John Bridgeland, co-founder and CEO, Covid Collaborative; Dr. Dan Treglia, Associate Professor of Practice, University of Pennsylvania School of Social Policy and Practice		
Compliancy issues:	Charitable Organizations, Health Care, Diversity, Federal Government, Children and Youth at Risk, Federal Government and Policy, Education, Family and Parenting, Economics		
Links:	Dan Treglia, PhD, MPP - School of Social Policy & Practice		
	Our Staff Civic		
SEGMENT 2:	HOW WARFARE DESTROYS HEALTHCARE	Time	Duratio
SEGMENT 2: Synopsis:	HOW WARFARE DESTROYS HEALTHCARE According to the Geneva Convention and other agreements, health facilities and workers are supposed to be protected from the violence of war. However, they're targeted much more often than most people know. A noted expert in the field discusses how this violence happens, its consequences, and how international organizations may be able to turn this trend around.	Time 14:15	Duratio 8:12

Program 22-06	Executive Producer:	Reed Pence	
Air Week:	Production Manager:	Jason Dickey	
2/6/22			
SEGMENT 1:	PUNISHING COVID-LYING DOCTORS	Time	Duration
Synopsis:	There's a growing number of complaints to state medical boards regarding doctors lying about Covid-19 and vaccines. The doctors spreading misinformation are not always reprimanded by state medical boards and are allowed to continue voicing the misinformation. They cite freedom of speech as a defense, but other doctors say licensed professionals have an obligation to the truth. Experts explain the controversy.	1:50	13:17
Host & Producer:	Reed Pence		
Guests:	Dr. Brian Castrucci, President and CEO, De Beaumont Foundation; Dr. Humayun Chaudhry, President and CEO, Federation of State Medical Boards		
Compliancy issues:	Charitable Organizations, Children and Youth at Risk, Education, Public Health, Free Speech, Health Care, Federal Government and Policy		
Links:	Brian C. Castrucci - de Beaumont Foundation		
	Humayun J. Chaudhry DO, MACP, President and Chief Executive Officer		
	Federation of State Medical Boards		
SEGMENT 2:	NEEDLE PHOBIA	Time	Duration
Synopsis:	Some people who have not yet gotten the Covid vaccine are simply afraid of the needle. Bad childhood experience can keep people from receiving necessary medical treatments. A needle-phobic and a physician explain how parents should discuss injections with their children from a young age.	16:08	6:47
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. Gary LeRoy, family physician and former president of the American Academy of Family Physicians; Laura Munoz, needle phobic		
Compliancy issues:	Public Health, Mental Health, Consumerism, Health Care, Children and Youth at Risk, Family and Parenting

Program 22-07	Executive Producer:	Ree	d Pence
Air Week:	Production Manager:	Jason Dickey	
2/13/22			
SEGMENT 1:	CLIMATE CHANGE & NATIONAL SECURITY	Time	Duration
Synopsis:	The future of climate change impacts a lot more than our crops. Natural disasters and mass migrations of people threaten the health and safety of populations and governments around the world. Experts discuss how climate change creates economic, sociological, political, and military issues.	1:51	13:26
Host & Producer:	Reed Pence		
Guests:	Sherri Goodman, Senior Strategist, Center for Climate and Security and former First Deputy Undersecretary of Defense for Environmental Security; Dr. Teevrat Garg, Assistant Professor of Economics, School of Global Policy and Strategy, University of California, San Diego		
Compliancy issues:	Children and Youth at Risk, Political Strategy, Public Health, Sociology, Economics, National Security, Federal Government and Policy, Military, Climate Change		
Links:	<u>Sherri Goodman</u>		
	Teevrat Garg		
SEGMENT 2:	THE VEGAN FUTURE	Time	Duration
Synopsis:	Some experts believe that the future of food is vegan. With the increasing effects of global warming, changes to farms are inevitable. Experts talk about why eating animals is inefficient, and why our planet won't be able to support it in the future.	16:19	6:09
Host:	Nancy Benson		
Producer:	Reed Pence		
Guests:	Dr. Roanne van Voorst, President, Dutch Futures Society and author of Once Upon A Time We Ate Animals		
Compliancy issues:	Agriculture, Climate Change, Children and Youth at Risk, Public Health, Health and Wellness, Consumerism, Environmental Impact

Program 22-13	Executive Producer:	Amirah Zaveri	
Air Week:	Production Manager:	Jason Dickey	
3/27/22			
SEGMENT 1:	WHO'S RESPONSIBLE FOR A MASS SHOOTING?	Time	Duration
Synopsis:	Even as many students switched to virtual learning, school shootings didn't stop. One recent school shooter used his parents' gun, and now they are facing charges for their role in the incident. Experts discuss how the accountability of mass shootings doesn't always just fall on the shooter.	1:50	12:18
Host:	Reed Pence		
Producer:	Kristin Farrah		
Guests:	Shavaun Scott, psychotherapist, author; Dr. Joyce White Vance, Professor, University of Alabama School of Law, Former U.S. Attorney, Northern District of Alabama

SEGMENT 2:	THE PROBLEM WITH A NEW ROAD PHENOMENON CALLED 'SUPER SPEEDING'	Time	Duration
Synopsis:	Less congested roads during the pandemic gave room for drivers to increase their speed, creating a whole new type of driving called 'super speeding'. The issue is that there's also been the largest number of car crash deaths since 2006. Experts talk about the dangers of speeding and how we can slow drivers down.	15:10	7:55
Host:	Nancy Benson		
Producer:	Kristin Farrah		
Guests:	Dr. Nichole Morris, Director, Human-First Research Lab, University of Minnesota; Dr. Colleen Peterson, Assistant Research Scientist, University of Michigan Transportation Research Institute
