RE: Report of Political File Upload Issues

Dear FCC,

On Tuesday, April 9, 2024, a political file was uploaded to KYVA FM and KXXI FM for Patricia Lundstrom NM State Rep Dist 9 Dem Primary. The file showed the upload was successful when uploaded on Tuesday, April 9, 2024 at 7:26pm. Today, when double checking, I observed KYVA FM took, but KXXI FM did not, although it was uploaded in a timely manner.

Secondly, when uploading 2024 Millennium Media Political Advertising Inquiries B File on Friday, April 12, 2024, I observed the 2024 Millennium Media Political Advertising Inquiries A file, which was uploaded on Monday, April 8, 2024 at 6:40pm, was missing on KYVA AM, KYAT FM and KXXI FM, although it took on KYVA FM, despite being uploaded in a timely manner.

All files have been re-added with confirmation of uploading being successful. I will inspect these again to make certain the issues do not arise again.

I am advising you at this time about these issues, to go on record, as we take uploading of our Public Files for the four Millennium Media Radio Stations, seriously.
