58 minutes

Producer/Host: Ron Beard

What is the brief history of your organization's work on affordable workforce housing in your community? What led to its creation? How did you decide to frame the issue for your situation? Where did you find inspiration, including other community examples (Martha's Vineyard, elsewhere?) What approaches have most resonated with people in your community? What strategies have you tried and what has worked well? How have you approached the question of keeping housing that you designate/support as affordable into the future? (covenants, etc.) How have you engaged local government, lending agencies? How is your work funded? Share some vignettes about the families who have benefited from your work? How do they fit into the workforce and as community members? What are the challenges that you have faced in getting the community to support your efforts? Are there myths about affordable, workforce housing that you have had to address?

### **Coastal Conversations 7/23/21 4pm: Art of the Maine Coast**

58 minutes

Producer/Host: Natalie Springuel

The Maine Coast has captured the imagination of artists for generations. On today's Coastal Conversations we talk with two contemporary artists and an art writer about the relationship between art and the coast of Maine. Why is it that Maine inspires a deep sense of place in so many people? How and why do artists paint here? What are the threads that

link Maine's well known historical artists with today's painters. What makes them different? And finally, how can art help Maine communities be more resilient to changes along the shorelines and in society?

Our guests on today's Coastal Conversations are Tom Curry, a landscape painter from Brooklyn, Maine, Judy Taylor, landscape and figure painter from West Tremont, and Carl Little, art writer, critic and poet from Somesville. Carl Little's art writing featured in Maine Boats Homes and Harbor. Join me as they share insights about their work and what inspires them to keep coming back to the Maine coast for artistic inspiration.

58 minutes

Producer/Host: Natalie Springuel

Maine coastal and ocean issues: Life and Science on Mount Desert Rock

Today, we venture out to the most remote of all of Maine's islands, Mount Desert Rock, an exposed ledge, barely 3 acres in size, that emerges from a remarkably productive patch of ocean about 22 nautical miles south of Mount Desert Island. We'll then hear about life on

the Rock and the rhythms of the daily research tasks, like tower watches, where all wildlife and vessels spotted from the lighthouse are documented, in an ever growing, decades old data set. We'll learn about the scientific, logistical and artistic work happening at Mount Desert Rock this summer, from interviews with a number of this summer's undergraduate residents. And then we'll wrap it up with a conversation among those residents about the ethical questions they are grappling with related to science and the impact of humans on Mount Desert Rock's wildlife, from sharks to seals, to gulls, the omnipresent gulls, and even down to the microscopic plankton species that drive this complex oceanic food web. The voices on today's show are all members of the 2021 College of the Atlantic Mount Desert Rock crew, all of whom, including station managers, are either current students or '21 graduates of COA.

### **Community Wellness Watch 8/31/21 4pm: Senior Care**

58 minutes

Producer/Host: Emma Weiss, WERU intern

Community Wellness Watch is a program about public health. Hosted and produced by WERU intern Emma Weiss, the first full-length program for this project is focused on Senior Care. Each month, Emma sits down with local healthcare providers to talk about how they have adjusted their practices throughout the COVID-19 pandemic and how they continue to keep our communities healthy and safe. This is not meant to serve as professional medical advice, but rather we hope to inform listeners of healthcare resources in the area and give a huge thank you to these providers for their very important work. Support for Community Wellness Watch comes from the Maine Community Foundation.
