

List of NPR Funders for Inclusion in Station Public Files

In a 1999 rulemaking proceeding, the FCC retained the requirement that stations must maintain a list of all program funders, including those underwriting national programs, in their public inspection files for a period of two years from the airing date of the underwritten program. A simple list of the funders by name is all that is required. The following list may be put in your public files as a reference for NPR's national underwriting credits.

*Programs funded through General Support include the following:
