Where the US figures in all of this and the implications for the Christian is always the concern. The Pope's involvement in the migrant push in Europe was included, as well as, his Zoom meeting with Bill Clinton where he insisted the use of fossil fuels by the US needs to stop, and a transfer of funds to the third world countries to pay for our ecological debt needs to happen. Mahmoud Abbas' criticism of the US as the major problem in the Middle East, Israel in particular, was dealt with, as well as the need for Israel to

give up some of her land for a Palestinian state to become a reality. The push by Governor Newsom for a more aggressive transgender program in California's schools was dealt with as well as, the training of educators to recognize problem parents who are not willing to cooperate with the new program. 10/14/23: 8:00 – 8:30 am • Eagle Watch News—Alan Tucker • This week's broadcast dealt almost exclusively with the war in Israel and the Scriptural implications of it. The reactions by other nations were part of the program roster, such as the UN leadership and their refusal to condemn Hamas for their initiation of the attacks. Scripture teaching and prediction of this which is to take place in the end time, was an important part of the program's consideration. Reaction by Israeli leadership to the lack of condemnation of the terrorist acts was mentioned also. The church's proper response and their place in all of this was included in the program. The fact that weapons given to Ukraine are showing up in the equipment Hamas is using was dealt with and the fact that this is not new, since the same thing happened in the war in Afghanistan. Militant groups are benefiting from our seemingly endless supply of weaponry and the news of that was in the broadcast as well. Where the Christian stands now and what their reaction should be in light of what's going on was in the radio script as well.

10/21/23: 8:00 – 8:30 am • Eagle Watch News—Alan Tucker • Program time dealt again primarily with the war in Israel, along with the uniqueness of the land of Israel in relation to the rest of the world. The rejection by international leaders to the possibility of Palestinian refugees coming to their own countries was mentioned as a possible new trend since Hamas tends to come with them. The Biden administration's plan to charge for the rescue of US citizens from Middle East countries was considered, especially in light of billions more promised to Ukraine and the president's recent intention to give \$100 million to Gaza. Time was also given to the general confusion and chaos that seem to be the trademarks of our day. The proper Christian response to all of this as supported by Scripture was mentioned throughout.

10/28/23: 8:00 – 8:30 am • Eagle Watch News—Alan Tucker • Program time was given to the war in Israel and all the ramifications it's producing here in our country and around the world. Initially, the role of the Palestinian Authority in Gaza was dealt with along with their constant intent to rid the world of the Jews. A portion of their official document revealing that was read. Emmanuel Macron, president of France, was included in the discussion because of his desire to form a global coalition and fight Hamas to the point of putting French boots on the ground. The conflict in Israel has brought to the surface the dangerous position this administration has taken on the southern border. We now know that many terrorist cells exist in this country and potentially could cause a life or death kind of a situation here at home. The additional problem caused by the likes of congresswoman Rashida Talib, who has spoken at rallies in support of Hamas, was included in this week's program roster.

11/04/23: 8:00 – 8:30 am • Eagle Watch News—Alan Tucker • The program for this week concerned itself again with the war going on in the Middle East. Time was given to the escalating conflict and the possibilities that could include the greater powers who are becoming increasingly involved. Where this could all lead was discussed as well. The involvement by our

president and Emmanuel Macron of France was discussed and the possible ramifications of their suggestion for a two-state solution in the land of Israel. It was noted that this was tried before under President George W. Bush with tragic results. There is no reason that we should expect anything other than more tragic results in our homeland. All of this was considered in the program. The new speaker of the House in Congress was mentioned and the possible impacts he may have were listed. Other news worthy of mention was the discovery of a bio lab evidently being used by the Chinese in California, the skepticism of the president of Toyota regarding the new electric vehicles and the waning demand for them and what that may mean for the car market was included in the program time as well. Time was then given to covering several headlines that had to do with the rise of Emmanuel Macron's popularity. His prominence on the world's stage was noted with a number of recent headlines. The world's inevitable progression toward a one world system of government was noted as well. The continued conflict in the Middle East was given considerable time as more nations become involved. Mention was also made regarding the coming destruction of Damascus and how that may all come to pass. The role the Pope and the Catholic Church may play in the end time was considered as well. How all these things may dovetail together, such as the globalists role, the coming central bank digital currency system. as well as the place the antichrist may have in all of this and how it may figure into the end of things all made the program roster. The proper Christian response to all of this was again included in the discussion.

Mention was made regarding the kind of military response, or lack of, the US is carrying out. The fact that President Biden is seen as being compromised because of his dealings with Ukraine, China, and others doesn't help matters was discussed as well. The program roster included opposition farmers are experiencing due to efforts of Bill Gates who has purchased thousands of agricultural acres and suggesting things like fake meat and other attempts of control, to say nothing of the higher price of fertilizer. The anti-Semitic sentiment in this country and around the world was included in broadcast time with an emphasis from Scripture as to the source of it all. The supposed solution to the conflict and general overall unrest having to do with the Jew, is the usual fall back known as the two-state solution. The UN's involvement and outright advocating for this was also introduced. God's opinion regarding this push, clearly given in Scripture, will not end well for those who are negotiating for this, and mention was made of this in program time.
