

Quarterly Programming and Issues Report

KWAX FM 91.1

For the Period April 1 through June 30, 2022

KWAX is the primary control point for transmitters KWRX Redmond, and KWVZ Florence and translators K255CA Bend, K215ED Sun River, K287BF Glide, K225BF Salem, K217FZ Newport, K225CC Corvallis, K250BK Roseburg, and K270BJ Cottage Grove. All stations and translators repeat the programming originated at KWAX Eugene-Springfield in its entirety. KWAX provides live programming from their studios each Monday through Friday from 8 a.m. through 5 p.m.

KWAX is an all classical music format station with no local or national news sources. As such, the primary focus on community issues for KWAX is music education and support and awareness generation for the arts and the many arts groups active in the communities served by the station and network of transmitters and translators.

KWAX Presents-Broadcasts of local and regional professional arts groups performances

Participating professional arts groups from around the extensive KWAX coverage area supply digital quality recordings and liner notes from each performance. *KWAX Presents* is an ongoing initiative started in 2018 to provide a broadcast of each participating arts groups' recent performance. *KWAX Presents* is a service to listeners who may not have the means or mobility to attend in person and as a method to expand awareness of each groups' performances to a greater audience.

The Covid-19 emergency caused much of the traditional arts group seasons to be cancelled, creating a lack of engagement with their patrons. Live performances began to return in the fall of 2021 and second quarter broadcasts were a mixture of encore and recent live performances. These included the Newport Symphony on 4/22; the Eugene Symphony Orchestra on 4/5 and 5/13 & 27; Chamber Music Amici on 4/8; High Desert Chamber Music on 6/10; and Eugene Vocal Arts on 4/1 and 5/6. All presentations aired beginning at 10 a.m.

Listener's Choice – Friday afternoons

As a service to listeners around its coverage area, KWAX offers four hours of weekly programming devoted to listener requests. Each week KWAX solicits requests on Friday mornings and presents an afternoon of classical music pieces completely programmed by listeners.

Bach Festival Minutes-mornings and afternoons during Festival

Eugene is home to the world-renowned Oregon Bach Festival, an annual two-week series of performances by world-class musicians and conductors. After two years of COVID-19 cancellations, live performances returned to local performing arts venues daily beginning June 17, 2022. As a service to listeners and to acknowledge the value of the Oregon Bach Festival to the community, KWAX produced daily "Bach Minutes" highlighting that day's performance, including the musicians, piece presented, and historical perspectives on the music.

Classics for Kids

Every Saturday KWAX programs a special hour of classical music designed especially for youth. Classics for Kids® has been honored with a National Community Impact Award for Engagement by the Corporation for Public Broadcasting in recognition of its innovative on-air and online services for children. The six-minute syndicated weekly program hosted by Naomi Lewin tells a story of the origin of a particular style, describes the ethnic influence of some music, or focuses on a particular composer. KWAX host Rocky Lamanna then programs representative pieces for the balance of the hour and discusses the opportunity for kids to engage further with quizzes, activities, and other curriculum available on the Classics for Kids website. Recent programs featured Spanish, Mexican, Paraguayan, and Cuban composers for Hispanic Heritage Month, Giacomo Puccini in a program relating opera to modern musical theater, and Edvard Grieg and his prominence as a Scandinavian composer after being raised in a music loving family.

Arts Line-Daily on-air community bulletin board for arts events throughout the KWAX coverage area

KWAX provides and solicits contributions to its Arts Line. Arts groups of all types are encouraged to call the KWAX Arts Line number and record a message regarding their event or performance. These recordings are assembled into a daily Arts Line message and broadcast several times each day as a service to local arts groups and listeners.

Weather Forecast-Weekdays between 8 a.m. and 5 p.m.

Weather is an important topic in Western and Central Oregon. Because our service area has several micro-climates from coastal conditions to mountain passes, weather information is an important service for listeners. In the absence of local news and information, KWAX provides weather forecasts for around our coverage area each weekday during their live programming block from 8 a.m. through 5 p.m.

Other Syndicated Programming that supports classical music education:
