

2019 – 2nd QUARTER

ISSUES AND PROGRAMS

TIME FOR HOPE – 30 minute program that aired 4-20-2019 @ 11:00 AM. Dr. Fredia Crews, host and her guest Douglas Knisely talk about his book titled "Financial Sin and the New Financial Nature". The book talks about the world's infection of financial sin, which filters throughout the society in government, business, and families. The book focuses on forgiveness, dependence on the Lord, confession, suffering, submission to authority, giving, service to others, and perseverance in suffering. It talks of having an attitude change...from suicidal events, like losing a job, into thankfulness by placing trust in God. The tone of the book is one of encouragement and hope.

BASKETBALL - A 60 second PSA that aired on 6-8-19 @ 8:58 AM. This PSA talks about the character we have when things are on the line. If the game is on the line in the heat of a championship basketball game one young man makes a decision that affects his entire team. Sportsmanship, Pass It On!

TIME FOR HOPE – A 30 minute program that aired 5-5-2019 @ 11:00 AM. Dr. Fredia Crews, host and her guest Art Hall talk about his book "God's Plan for You" (Are You Ready?). Dr. Crews and Art Hall discuss that God does have a plan for you and it is tailored to your DNA. Art discusses his true account of personal stories of himself and others, that show how God moves in our lives. His personal story about a "Healing Miracle" of a young boy will inspire and encourage you to seek your own "tailor made plan." His testimony of the compass he brought home from Vietnam shows how God can bless you in very personal ways. His book offers encouragement and insight for others to experience and follow their own individual plan God has for them.

THE GREATEST – a 60 second PSA that aired 4-6-2019 @ 8:58 AM. The Greatest is all about perspective. Just when you think you are failing, when things seem to be going wrong, a change in perspective shines a bright light of realization that you just might be succeeding in other ways. It is a very simple concept but the key, was to find the right young actor to play the part. After countless takes of him throwing the ball up and missing, he never lost his zeal. The last scene was as strong as the first. This inspires us to embrace the value of Optimism as we face similar situations each day.

COLLEGE – A 60 second PSA that aired 5-3-2019 @ 4:28:30 PM. This PSA speaks about looking back on the milestones of our lives and recognize those who have made our path a little easier. We think this scenario will resonate with many people – where a young woman, headed off to college stops...and expresses to her father her appreciation for "everything". We all have someone who helped us get to where we are today. The song, "Because You Loved Me" by Celine Dion, adds a poignant and uplifting touch to this message. Gratitude. Pass It On!
