Subject: Request for Extension for Quarterly Filing Deadlines for Stations WAPA(TV), WTIN(TV) and WNJX(TV)

Dear Barbara:

Stations WAPA-TV, San Juan, PR WNJX-TV, Mayaguez, Puerto Rico and WTIN-TV, Ponce, Puerto Rico, all licensed to Telecentro of Puerto Rico, LLC, are experiencing extreme staffing shortages related to COVID-19. On March 15, the Governor of Puerto Rico issued an executive order locking down most businesses and imposing mandatory around-the-clock curfews. Violators are subject to fines and jail time.

Station personnel who usually prepare children's television reports and issues programs reports are currently prohibited from leaving their homes, and are unable to access air checks and other materials they need to prepare the reports from home.

Therefore, in accordance with our email last week, the stations would like to request a waiver of the March 30 filing deadline for the children's television reports, and of the April 10 deadline for filing issues programs reports, until the later of May 1, 2020 or such time as personnel are permitted by local law to return to work.

Please let me know if you have any questions. Thanks, and stay safe.

Sally
