(TFN)

More than one million athletes now experience concussions each year in the United States, and the American Academy of Neurology (AAN) has issued new guidelines on how to help evaluate and manage athletes with concussion. Athletes of high school age and younger with a concussion should be managed more conservatively regarding return to play, as evidence shows they take longer to recover than college athletes. To review the AAN sports concussion guidelines, please visit www.aan.com/concussion.
