I. METHODOLOGY

METHODOLOGY

The methodology used in determining what issues affect the listening area is a combination of interview, telephone and personal contact with:

- A. The listening public.... their day to day topical concerns
- B. Government leaders and public officials
- C. Community leaders of Central Iowa public welfare programs; non-profits
- D. Central Iowa business leaders

Under changes brought about by the deregulation of the broadcasting industry, the Monthly Community Leader Ascertainment Reports will no longer be filed. Instead, this quarterly record will be submitted every three months. A complete listing of participants is in the record, maintained in Citadel Broadcasting Company's Public Files.

Public affairs programming aired by Citadel Broadcasting Company's stations is designed to address the needs, problems, concerns and issues of the above mentioned (A-D) individuals.
