6502	Southern Illinois University (Chicago)	08/07/2021 03:00:00 UTC	postjobs@siu.edu	<p>WBBM-TV has an immediate opening for a Digital Line Producer jobReqId: 6502 Job Title: Digital Line Producer Job Description/Requisition Details: If you have the innate curiosity of a journalist, the creativity of a storyteller, and a passion for innovating — CBS 2 Chicago wants to hear from you. We’re looking for a Digital Line Producer to own the team of content creators on CBSN-Chicago, our local news digital streaming network. The DLP is at the forefront of transforming our business model to prioritize the needs of a streaming audience, working with the newsroom and control room teams to manage live and on-demand video content for mobile, desktop and OTT platforms. The DLP manages a team of Associate Digital Line Producers to code and stack rundowns. The DLP also takes on many content creation responsibilities from writing headlines, to producing long-form specials, to maximizing SEO and shareability of CBSN-Chicago content. This role requires close coordination with news managers and broadcast line producers during live news programs and special coverage events. Requirements: We are seeking someone with demonstrated expertise in timing in a control room environment. Coding and stacking rundown content in coordination with Associate DLPs and broadcast line producers regarding video, graphics, scripts and other elements. Anticipating the needs of the show with regard to video, graphics, scripts and other elements. Coordinating with news managers and broadcast line producers during live news programs. Building show rundowns. Shooting and editing video in a non-linear platform. Other duties, as assigned. Core competencies: Results-Oriented, Dependable, Detail-Oriented, Courteous; Preferred education and experience requirements: • 2+ years’ experience in creating and building show rundowns in cable, broadcast or digital environment. • Demonstrated success operating in a fast-paced control room. • Ability to work under extremely tight deadlines to write headlines and edit video for live digital broadcast. • Detailed knowledge of social media and the competitive digital news environment. • Familiarity with Edius or other non-linear editing systems. • Familiarity with iNews. • Available for early mornings, nights, overnights, weekends, holidays; this is a 24-hour streaming service. • Experience with Crispin and iNews a big plus. • Understanding of SEO. Please have interested candidates visit our web site at https://career41.sapsf.com/sfcareer/jobreqcareer?jobId=6502&company=viacomcbsi to apply. Consistent with our equal opportunity program, we request that you advise us of any candidate, including disabled persons, minorities or women, you believe may be qualified for this position and advise interested parties to apply as indicated. 6687	Robert Morris College (Chicago)	08/21/2021 02:00:00 UTC	careersdt@roosevelt.edu	<p>WBBM-TV has an immediate opening for a Photographer 403(g) jobReqId: 6687 Job Title: Photographer 403(g) Job Description/Requisition Details: CBS 2 and CBSN Chicago is seeking next innovative and visual broadcast storyteller. A creative keen eye and perfection for detail with professional understanding of NPPA style principles. Highlight your body of work experience, cover news events and uncover stories as a photojournalist for CBS 2 newscasts, local programming. Responsibilities include: Illustrate depth of knowledge with all aspects of ENG news coverage, including Sony HD cameras, GoPros, DSLRs, Edius non-linear editing, ENG lighting, microwave and satellite transmissions. Edit news stories and daily show under urgent deadlines, while maintaining editorial integrity. Safely operate company vehicles, including driving, positioning microwave equipped vans and KU trucks on long drives, in all weather conditions. Take utmost care to ensure that news equipment is protected from theft and damage. Contribute to editorial process in team environment with story ideas and attention to production strategy. Physical ability to carry and manipulate at least 75lbs of gear, set up and breakdown usually alone. Operate and orientate retractable antenna masts within strict safety guidelines; executing long cable runs of perhaps several hundred feet; carrying, setting up and operating tripods, video cameras and batteries. Strengths: Results-Oriented, team driven, creative and innovative. Excellent storytelling skills. Ability to work under deadline pressure. Flexible and able to adapt to extending shifting schedules on short notice including weekends and/or late nights and/or overnights. Capable of potentially lengthy, physically and emotionally stressful assignments in the field. Communicate reliably and accurately, especially safety issues and details associated with editorial content and urgent information at various news locations. Ability to deal with complex logistical situations in the field including competing for position with other news media, coping with interference from the public and inter-act with third-parties such as fire, police and security personnel in a calm and professional manner. Contribute writing content for air, social media strategies as well as multimedia journalism. Qualifications and Certifications: Five years’ experience as a photographer and editor, preferably in a top 30 market. Bachelor’s degree in journalism or similar field. Familiarity with Chicago area, desirable. Strong non-linear editing background, including Edius. Valid Illinois drivers license. SNG experience with DOT and Drone ENG experience with FAA Part 107 certification a plus. Please have interested candidates visit our web site at https://career41.sapsf.com/sfcareer/jobreqcareer?jobId=6687&company=viacomcbsi to apply. 6717	Robert Morris College (Chicago)	08/25/2021 02:00:00 UTC	careersdt@roosevelt.edu	<p>WBBM-TV has an immediate opening for a Photographer 403(g) jobReqId: 6717 Job Title: Photographer 403(g) Job Description/Requisition Details: CBS 2 and CBSN Chicago is seeking a full time groundbreaking broadcast Photojournalist with a passion for storytelling. Do you thrive on the details? Present accurate content that captivates an audience? Do you value integrity and practice NPPA principles? Then we are looking for you to join our team! Show us your body of highlighted work experience, cover news events and uncover stories for CBS 2 newscasts, local programming. Responsibilities Include: Bring depth of knowledge with all aspects of ENG news coverage, including Sony HD cameras, GoPros, DSLRs, Edius non-linear editing, ENG lighting, microwave and satellite transmissions. Edit news stories and daily show under urgent deadlines, while maintaining editorial integrity. Safely operate company vehicles, including driving, positioning microwave equipped vans and KU trucks in all weather conditions. Contribute to editorial process in team environment with story ideas and attention to production strategy. Physical ability to carry at least 75lbs of gear, set up and breakdown usually alone. Operate and orientate retractable antenna masts within strict safety guidelines; executing long cable runs of perhaps several hundred feet; carrying, setting up and operating tripods, video cameras and batteries. Strengths: Results-Oriented, team driven, creative and innovative. Excellent storytelling skills. Ability to work under deadline pressure. Flexible and able to adapt to extending shifting schedules on short notice including weekends and/or late nights and/or overnights. Capable of potentially lengthy, physically and emotionally stressful assignments out. Communicate optimally and accurately around safety issues and urgent information at various news locations. Handle complex logistical situations in the field including competing for position with other news media. Coping with interference from the public and inter-act with third-parties such as fire, police and security personnel in a calm and professional manner. Qualifications and Certifications: Five years' experience as a photographer and editor, preferably in a top 30 market. Bachelor's degree in journalism or similar field. Familiarity with Chicago area, desirable. Strong non-linear editing background, including Edius. Valid Illinois drivers license. SNG experience with DOT and Drone ENG experience with FAA Part 107 certification a plus. Please have interested candidates visit our web site at https://career41.sapsf.com/sfcareer/jobreqcareer?jobId=6717&company=viacombsi to apply. Additional Recruitment Sources Notified of Job Vacancies

13170	Robert Morris College (Chicago)	04/18/2022 22:00:00 UTC	careersdt@roosevelt.edu	<p>WBBM-TV has an immediate opening for a Investigative Multi Skilled Producer jobReqId: 13170 Job Title: Investigative Multi Skilled Producer Job Description/Requisition Details: Are you an investigative journalist, a creative and a strategizer who excels at digging for stories and brainstorming how to tell them? Do you have a record of shepherding successful stories from idea to reality? We want your help producing investigations that will be highlighted in major markets across the nation! CBS Television Stations is seeking an Investigative Multiskilled Producer to generate content for and collaborate with newsrooms across the group. The Producer's primary focus will be identifying and generating original stories of national importance that can be localized for multiple markets, with compelling storytelling and innovative, multiplatform delivery. The Producer will be involved in a specialized investigative unit inside the CTS Innovation Lab, which experiments with next-generation storytelling, and tests new products, workflows and production models for the future. The investigative unit will collaborate with the group's news, investigative and special projects teams, while also collaborating across CBS News and Stations' platforms. PRIMARY RESPONSIBILITIES: - Ideate, research and create investigative stories with consistent frequency and impact for the newscasts, specials, streams, websites and apps of CBS News and Stations. - Collaborate with and support the work of reporters, photographers, graphic designers and website developers to generate pieces. Assist and produce content for reporters and anchors who present the story. Assist with video editing and graphic design for stories. - Efficiently increase newsgathering and investigative tactics to acquire information and story elements, such as developing relationships, cultivating sources, strategically landing interviews, and navigating open records laws. Localize stories through personalization and examples in multiple cities or regions. - Vet tips and story ideas to identify and prioritize original, timely and topical investigative pieces with broad value to the audience. - Urgently develop and implement investigative angles to elevate breaking news coverage. - Improve skills and experience to advise others and lead editorially on projects as well as coordinate the work of colleagues as needed. - Acquire, analyze and visualize data sets for on-air and online reporting, including summarizing findings, writing narratives, and creating graphic elements and interactives. - Understand, interpret and simplify complicated information, and then communicate the points and themes to stakeholders in a clear, concise way. - Work closely with management, journalists, and legal counsel in crafting accurate, well-documented, bulletproof stories. - Communicate frequently and efficiently with respect and candor, and maintain highly collaborative, productive working environments and relationships with management and news personnel. Represent the company professionally at all times in public interactions. - Must be willing to work an unpredictable and adaptable schedule as assigned. MINIMUM EDUCATION AND EXPERIENCE REQUIREMENTS: - 10+ years of experience as an investigative producer or similar role in a medium to large market. - Portfolio of investigative content that led to accountability, change and broad recognition, as well as audience growth and brand definition. - Excellent reading, writing, spelling, grammar, and organizational skills are required. - Video editing skills preferred. - Journalism degree preferred. Please have interested candidates visit our web site at https://career41.sapsf.com/sfcareer/jobreqcareer?jobId=13170&company=viacomcbsi to apply. 17078	Robert Morris College (Chicago)	04/27/2022 16:00:00 UTC	careersdt@roosevelt.edu	<p>WBBM-TV has an immediate opening for a Investigative Data Journalist jobReqId: 17078 Job Title: Investigative Data Journalist Job Description/Requisition Details: If you're an expert data journalist who thrives on finding stories that would otherwise be unseen or ignored, we want your help creating data-driven stories that will be highlighted in major markets across the nation! CBS Television Stations is seeking an Investigative Data Journalist to generate content for and collaborate with newsrooms across the group. The Data Journalist's primary focus will be obtaining and analyzing data sets to identify and generate original stories of national relevance that can be localized for multiple markets, with compelling data-visualization, storytelling and innovative, multiplatform delivery. The Data Journalist will be part of a specialized investigative unit inside the station, which experiments with next-generation storytelling, and tests new products, workflows and production models for the future. The investigative unit will collaborate with the group's news, investigative and special projects teams, while also collaborating across CBS News and Stations's platforms. Primary Responsibilities: Ideate, research and create data-driven stories with consistent frequency and impact for the newscasts, specials, streams, websites and apps of CBS News and Stations. Obtain, analyze and visualize data sets for on-air and online reporting, including summarizing findings, writing narratives, and creating graphic elements and interactives. Perform exhaustive, accurate and efficient computer-assisted analysis using current software, techniques and statistical tools. Understand, interpret and simplify complicated information, and then communicate the points and themes to stakeholders in a clear, concise way. Localize stories through personalization and examples in multiple cities or regions. Collaborate with and support the work of reporters, producers, graphic designers and website developers to bring stories to publication. Certain assignments will include assisting and producing content for reporters and anchors who present the story on-air. Maximize skills and experience to advise others and lead editorially on data projects as well as oversee the data work of colleagues as needed. Efficiently maximize newsgathering and investigative tactics to obtain information and story elements, such as developing relationships, cultivating sources, strategically landing interviews, and navigating open records laws. Solicit and vet tips and story ideas to identify and prioritize original, timely and topical investigative stories with broad value to the audience. Urgently develop and execute investigative angles to elevate breaking news coverage. Work closely with management, journalists and legal counsel in creating accurate, well-documented, bulletproof stories. Communicate frequently and effectively with respect and candor, and maintain highly collaborative, productive working environments and relationships with management and news personnel. Represent company professionally at all times in public interactions. Must be willing to work an unpredictable and flexible schedule as assigned. This is primarily not an on-air position. Minimum Education and Experience Requirements: Portfolio required demonstrating visualization and integration of data, combined with compelling, creative writing and design, which results in high-impact, high-caliber storytelling. Experience producing multiplatform content preferred. Advanced skills required in Excel, Access, SQL and GIS or other mapping software. Additional knowledge in systems such as Python and R preferred. Advanced CMS skills required, plus expertise with systems such as Tableau, Infogram and Flourish to create interactives. Basic scripting and HTML knowledge preferred. Excellent reading, writing, spelling, grammar and organizational skills required. 10+ years' experience as a data journalist and journalism degree preferred. 35128	Robert Morris College (Chicago)	12/29/2022 17:00:00 UTC	careersdt@roosevelt.edu	<p>WBBM-TV has an immediate opening for a Director/Technical Director jobReqId: 35128 Job Title: Director/Technical Director Job Description/Requisition Details: WBBM-TV CHICAGO has an immediate opening for the combined position of Director/Technical Director. This single-operating position is responsible for the editorial and technical execution of all WBBM live and recorded produced programming and is covered under the Collective Bargaining Agreements of the DGA and IBEW and will be a hyphenated position. Job Function: The main responsibilities of this combined position are to provide daily on-air production direction and physical execution of WBBM-TV programming as assigned. In collaboration with the WBBM-TV editorial staff, the operator will prepare the broadcast through automation protocols (coding) as well as prepare the technical infrastructure (ELC testing, mic checks and camera targeting) on a daily basis. Once a show is prepared, the operator will assume the single operator position in the control room and be responsible for the editorial and technical execution of the program. This role will assume supervisory responsibilities including the supervision of other crew positions including but not limited to News TOC, teleprompting and staging. Candidate must be willing to work a very flexible work schedule that may include early mornings, nights, weekends and holidays. This is NOT negotiable. Vacations, holidays and personal time are per the combined CBA as determined at the time of hire. Required: 3-5 years in a top 20 market as a newscast director and/or technical director. Previous Control Room Automation experience is required including Sony ELC, Ross OverDrive or equivalent control room automation technology. Knowledge of video and audio servers, graphics systems, audio consoles and robotic cameras. Excellent computer skills with a high level of the INews production system required. Ability to work in fast paced, high pressure environment. Must be a self-starter with excellent organizational skills. Strong work ethic, positive attitude and leadership qualities with the ability to handle multiple tasks and priorities. Good conflict resolution and problem-solving skills. Please have interested candidates visit our web site at https://career41.sapsf.com/sfcareer/jobreqcareer?jobId=35128&company=viacombsi to apply.
