Re: KFQX Retransmission Consent Election

Dear Mr. Hubbard:

Parker Broadcasting of Colorado, LLC ("Parker") is in receipt of your letter stating that Delta Montrose Electric Association intends to initiate a multichannel video service to communities in Montrose County, Colorado and asking for an election of retransmission consent or must carry for television station KFQX. Although the letter is dated August 16, 2016 the envelope post mark is September 16, 2016. Accordingly, this response is timely.

Parker is the licensee of television broadcast station KFQX, Grand Junction, CO ("Station"), which is assigned to the Grand Junction-Montrose, CO Designated Market Area. Please be advised that Parker hereby invokes its rights pursuant to Section 325(b) of the Communications Act of 1934, as amended, and Section 76.64(a) of the FCC's rules, to bar retransmission of the Station's signal by your cable system(s) and/or video service without our prior express written authority granted pursuant to a retransmission consent agreement to be negotiated between you and us. This election is made for each and every community or video service that Delta Electric intends to serve or initiate in the Grand Junction-Montrose, CO DMA. When you are ready to commence retransmission consent negotiations for KFQX please contact:
