

J. C. Curley & Company  
Broadcast Consultants  
Naples Orlando

To: Administrator or Biomedical Engineer

From: WWJ-TV Detroit, Michigan, USA Area Television Station

Date: February 23, 2010

**NOTICE OF MAXIMIZATION OF DIGITAL TELEVISION (DTV) OPERATIONS**

**THIS LETTER CONCERNS TELEMETRY OPERATION. PLEASE ASSURE THAT THOSE WHO SUPERVISE OR MAINTAIN CLINICAL OR BIOMEDICAL ENGINEERING AT YOUR FACILITY RECEIVE IT.**

The station listed above has retained Curley & Company, Inc., broadcast consultants, to inform you of its intention to begin digital television (DTV) maximization operations in your area.

All full power television stations are required by law to begin providing DTV services, and have been given digital television channels for that purpose. We are notifying you of our intention to begin DTV maximization operations because patients within your facility may use biomedical telemetry devices that operate in the television broadcast band, and may be affected when we begin our maximization DTV service.

The rules of the Federal Communications Commission (codified at 47 CFR 15.242) have allowed certain biomedical telemetry devices to use unoccupied DTV channels in their area *on a secondary basis*. This means that the medical facility or operator of the device is responsible for resolving any interference problems that may arise with the digital television-broadcast service or, alternatively, must cease its operations on that channel.

The purpose of this notice is to provide you information and a reasonable opportunity to resolve problems. However, you will want to discuss this with your technology supplier especially if you believe that biomedical devices used in your facility are likely to malfunction when we begin our DTV maximization operations. *If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.*

The commencement date, DTV channel and frequency band for each station are listed on the attached pages (or reverse) along with contact information for the broadcast executive in charge of DTV for the station. If you wish more information or you want to report anticipated or actual interference problems please contact the individual listed on the attached page who is associated with the specific channel.

Respectfully,

J. C. Curley & Company

1616 Point Pleasant Ave. West, Bradenton, Florida 34205

Page 2 The relevant technical details of our proposed DTV operations:

*Please Note: This notice is being sent to announce WWJ-TV's intention to Maximize their digital operating power.*

*The initial notice was sent on or about May, 1999, announcing this stations intention to begin DTV Operations on digital channel 44 located at 650-656 MHz. Station WWJ-TV began digital television transmission on or after July 15, 1999 at 200 kW of power under authority of the Federal Communications Commission. Subsequently, on or about June 13, 2008 station WWJ-TV informed medical facilities in the Detroit, MI. area of its intention to increase operating power up to 345 kW ERP of power.*

***In order to ensure there is no interruption in patient care or interference to telemetry equipment, this notice is to inform you that WWJ-TV will begin operating at an increased power as indicated below.***

*WWJ-TV also ceased analog operations on Channel 62, by law, on or after June 12, 2009.*

**WWJ-TV Channel 44; Network CBS  
Detroit, MI. USA**

**WWJ-TV**

DTV Channel:	44
Frequency Band:	650-656 MHz
Scheduled On-air Date:	On or after April 7, 2010
Effective Radiated Power:	425 kW ERP Fully Authorized by the Federal Communications Commission.
Antenna Location	42-26-53 North Latitude; 83-10-23 West Longitude (NAD-83) Located at Meyers and Eight Mile Road, Oak Park, MI. USA
Antenna Height:	323 meters Height Above Average Terrain 522.8 meters Radiation Center Above Mean Sea Level 321 meters Radiation Center Above Ground Level
