## FAMILY TALK

**All Life is Sacred - DR. JAMES DOBSON – GUEST:CHRISTENE JACKMAN AND CORT LANGELAND - JANUARY 19, 2022**

Because Christene Jackman felt estranged from her alcoholic father, she moved out at age 17 and married the first boy who paid attention to her. Not surprisingly, that relationship dissolved in divorce, and when her new relationship resulted in her being pregnant again, Christene got an abortion despite her unsettling conscience. On today's edition of Family Talk, she shares the remarkable story of her conversion to Christ and God's restoration. Cort Langeland, who produced Christine's album entitled "The Choice," urges all Christians to move beyond understandable outrage over abortion toward gracious outreach and empathy to those who made that regrettable decision.

**Standing Strong for Life - Part 1 - DR. JAMES DOBSON - GUEST: DR. WILLIAM LILE - JANUARY 20, 2022**

As an obstetrician and gynecologist, Dr. William Lile has performed blood transfusions on babies in the womb as early as 18 weeks gestation. Not to mention operating on the heart of a 22-week-old baby in utero, when that vital organ is just the size of a grape! On today's edition of Family Talk, Dr. Lile asks the logical question, "If I'm providing medical care, doesn't that qualify the developing baby as my patient? It sure does! And if he's my patient, then he's a person, no matter how small." The scientific evidence that life begins at conception has become inescapable.

**Standing Strong for Life - Part 2 - DR. JAMES DOBSON - GUEST: - DR. WILLIAM LILE - JANUARY 21, 2022**

Tragically, chemical abortions now represent 50 percent of all abortions performed in the U.S. On today's edition of Family Talk, Dr. William Lile, a Christian obstetrician and gynecologist, documents 2,500 successful abortion pill reversals through AbortionPillReversal.com. Each baby saved is a precious victory against the abortion industry. Dr. Lile explains that those who support abortion are clearly going against God's design. Not surprisingly, they're attacking the babies created in the very image of God.

**When Family Disappoints - Part 1 - DR. TIM CLINTON - GUEST: DR. SHARON MAY - FEBRUARY 09, 2022**

When your extended family gathers for Thanksgiving or Christmas, does it ever become tense or result in cross words or a heated argument at the dinner table? On today's edition of Family Talk, Dr. Sharon May explains that we each long to be loved and stay connected with our God-given family, despite the past disappointments we've endured. Because

families can be messy, she recommends establishing healthy boundaries and following three keys: Choose to be self-reflective, speak with gentle honesty, and ask God to restore the peace.

### **When Family Disappoints - Part 2 - DR. TIM CLINTON - GUEST: DR. SHARON MAY - FEBRUARY 10, 2022**

God created families to be a safe haven from a dangerous world. But oftentimes, our families themselves are the source of emotional danger. On today's edition of Family Talk, Dr. Sharon May explains that we all experience family disappointments on some level. If it's not addressed, that pain and anguish can lead to greater discouragement. That, in turn, can lead to depression, estrangement or even despair. As time passes, even as mature adults, we can feel lost and unseen in our families, which can prompt angry outbursts. Unless there's abuse, Dr. May counsels against cutting off family members. In every situation, she recommends open communication and healthy boundaries.

### **The Frontlines of Pro-Life Conscience and Care - Part 1 - DR. TIM CLINTON - GUEST: DR. CHRISTINA FRANCIS - MARCH 31, 2022**

Did you know that before *Roe v. Wade*, the once reputable American College of Obstetricians and Gynecologists opposed killing babies in the womb? Tragically, the group by and large became aggressively pro-abortion once the egregious law was passed in 1973. In the late 2000s, the organization declared that if a physician will not perform or refer an abortion, he or she is unethical, and should even lose his or her license. On today's edition of Family Talk, Dr. Christina Francis explains that the American Association of Pro-life Obstetricians and Gynecologists was formed to reaffirm the value and dignity of individual human life in all stages of growth and development. Their pro-life members, who are all doctors, assert that science is demonstrably on the side of life — from the moment of conception.

The author of *Parenting by The Book: Biblical Wisdom for Raising Your Child*, Rosemond throws frazzled parents a lifeline, encouraging them to return to a biblical method for raising and disciplining their kids that both instills respect and inspires obedience. ## FAMILY TALK

**Shared Hope: Rescuing Children from Sex Trafficking - DR. JAMES DOBSON - GUEST: LINDA SMITH - JANUARY 11, 2022**

When Congresswoman Linda Smith traveled into the brothel district of Mumbai, India on a fact-finding mission, she was horrified by the brutal reality she encountered there. Linda shares that she quit her political career to found Shared Hope International. Her goal? To help and heal those who have been exploited or are enslaved, and to assist people in identifying individuals in their communities who are trapped in the dark web of trafficking.

**Unlikely Fighter - Part 1 - DR. TIM CLINTON - GUEST: GREG STIER - JANUARY 31, 2022**

Greg Stier grew up as a fatherless street kid in north Denver. During his childhood he witnessed bloody brawls instigated by his brutish, violent uncles. Greg shares that his home life was a mess, he was afraid of his own family, and he almost died three times in two years. But after the Lord radically saved him through an altar call at his grandparents' church, Greg set out on a mission to lead every family member to Christ, including his guilt-ridden mother, who didn't think God could forgive her.

**When Family Disappoints - Part 1 - DR. TIM CLINTON - GUEST: DR. SHARON MAY - FEBRUARY 09, 2022**

When your extended family gathers for Thanksgiving or Christmas, does it ever become tense or result in cross words or a heated argument at the dinner table? Dr. Sharon May explains that we each long to be loved and stay connected with our God-given family, despite the past disappointments we've endured. Because families can be messy, she recommends establishing healthy boundaries and following three keys: Choose to be self-reflective, speak with gentle honesty, and ask God to restore the peace.

**Life Lessons and Love Languages - Part 2 - DR. TIM CLINTON - GUEST: GARY CHAPMAN, PH.D - FEBRUARY 15, 2022**

You might be surprised to learn that Gary Chapman, best-selling author of *The Five Love Languages*, had a rough start in his own marriage. Long before he discovered the five love languages, his relationship with his wife, Karolyn, was rocky to say the least! Gary explains that it wasn't until he began serving his wife, as Christ serves the church, that things really started to turn around.

**The Frontlines of Pro-Life Conscience and Care - Part 1 - DR. TIM CLINTON - GUEST: DR. CHRISTINA FRANCIS - MARCH 31, 2022**

Did you know that before *Roe v. Wade*, the once reputable American College of Obstetricians and Gynecologists opposed killing babies in the womb? Tragically, the group by and large became aggressively pro-abortion once the egregious law was passed in 1973. In the late 2000s, the organization declared that if a physician will not perform or refer an abortion, he or she is unethical, and should even lose his or her license. Dr. Christina Francis explains that the American Association of Pro-life Obstetricians and Gynecologists was formed to reaffirm the value and dignity of individual human life in all stages of growth and development. Their pro-life members, who are all doctors, assert that science is demonstrably on the side of life — from the moment of conception.
