

KRKT-FM
Albany, Or
Quarterly Issues/Programming List
4th Quarter, 2015

KRKT-FM provides listeners with programming and public service announcements addressing issues of concern, as well as community events to Linn and Benton Counties, and surrounding areas. Among the issues determined to be of concern to our community during the calendar quarter were:

Historical Education: The Holocaust is no longer a part of the regular curriculum in Oregon schools. There are some who believe that without remembering the tragic history of seven decades ago, it likely will happen again.

Health: Antibiotic resistant bacteria are the new bogey-men in medicine. Formerly curable diseases from tuberculosis to gonorrhea are making a new appearance and are increasing resisting most, antibiotics. The question is, what happens when disease no longer responds to therapy?

Addiction: 6 percent of Oregon parents have at least one child who is addicted to alcohol and/or drugs. Many of those parents will lose themselves and their identities struggling with their child's addiction, and end up losing more than just the addicted child.

Terrorist Recruitment: It was once thought that terrorist were a "foreign" problem, when in truth more frequently, the young are being recruited from within our so-called safe borders.

SECTION 1

Section I lists the local issue oriented programming that the station broadcast during the preceding calendar quarter

Date: 10/04/15 Time: 7am Length: 29:00
Issue: Oregon and Mars Research
Guest: Mars Geologist, Dr. Gregory Retallack, of the University of Oregon
Show: NASA has announced the presence of water “streaks” on Mars terrain. The discovery was made by a Mars rover on the planet’s surface. What hasn’t been discussed is that these streaks were actually first observed over 10 years ago by a University of Oregon student interning at NASA. At the time, the observation was discounted by NASA researchers. The new so-called discovery not only proves the initial observation, but opens up a series of other questions about the water’s source, and its importance to Mars exploration.

Date: 10/11/15 Time: 7am Length: 29:00
Issue: PTSD and the ongoing war in Iraq
Guests: Chris and Rahnella Adsit, Counselors and Founders of Branches of Valor
Show: PTSD is a major issue for returning vets who have served in Afghanistan and Iraq. It is also an issue for the Kurds in Iraq who are currently fighting ISIS in a fractured Iraq. The Adsits have been treating returning Willamette Valley soldiers from the war on terror and recently visited Iraq to work with Iraqi and Syrian refugees displaced by ISIS/ISIL and to help treat Kurds currently fighting ISIL militants. The Adsits have a unique perspective on those returning from war, and those continuing to fight, and how PTSD affects both.

Date: 10/18/15 Time: 7am Length: 29:00
Issue: The Cascadia Subduction Zone
Guest: Oregon State University Professor Emeritus of Geosciences, Bob Yates
Show: Yates was the first researcher to note the regular 400 year reoccurrence of mega quakes off the coast of Oregon. Much recently has been written in the national media about what a quake in excess of 7.0 would do to the NW. Yates discusses the accuracy of the increased media coverage, and in particular focuses on what the individual needs to do to prepare ones self, and family for a massive quake that scientists believe will happen within the 50 years. Yates also talks about volcanic activity recently discovered on the floor of the Pacific just off the Oregon Coast.

Date: 10/25/15

Time: 7am

Length: 29:00

Issue: Nazi Hunting in the 21st Century

Guest: John Loftis, author of American Nazi

Show: Post WWII was a confusing time in American and World history. Even though the Nazi's had been defeated, and the Allies were bent on bringing war criminals to justice, both the U.S. and Soviet Unions were also interested in using Nazi research and developments for their own ends and some would argue security. Loftis, through years of research has tracked who made it out of Germany to the U.S. and Soviet Union without punishment, and who were tried as war criminals and why. The upshot, even the most amoral researchers were spared.

Date: 11/1/15

Time: 7am

Length: 29:00

Issues: Recreational Pot Rules and Diabetes Caused Alzheimer's Disease

Guests: Tom Towslee, Outreach at the Oregon Liquor Control Commission and Dr.

Mitchell Gaynor, Founder of Gaynor Integrative Health.

Show: Recreational Marijuana becomes legal July 1st, 2015 yet the OLCC is still writing the rules around how it will be taxed, who can sell it, and where it can't be used. While state officials are in a quandary, individuals have no ideas as to the rules regarding usage, possession limits, and who can sell pot, and who can't. Towslee tries to address those issues. Part II deals with dementia, and new research that shows Diabetes is linked directly to memory loss, and even Alzheimer's. How America's Diabetes problem could be tomorrow's Alzheimer's epidemic.

Date: 11/8/15

Time: 7am

Length: 29:00

Issues: The Quality and Safety of Chinese Products

Guest: Paul Midler, Author of Made in China Poorly

Show: As the holidays approach much of the money spent for gifts, will be spent of items made in China. This money will be spent not only on consumer goods, but also food, health, and beauty products. Midler, who spent years acting as a go-between for American importers and Chinese companies, says the perceived lack of quality of Chinese products is accurate, and much of it has to do with cultural differences. Midler says Chinese manufacturers believe in the axiom "you get what you pay for" and if a product sort of works, it is as good as working. Midler claims another part of the problem is American companies contracting with Chinese companies do a poor job of quality oversight, and in many cases an even poorer job in explaining what they really want.

Date: 11/15/15

Time: 7am

Length: 29:00

Issue: Dealing with Drug and Alcohol Addicted Children

Guest: Charles Rueben, Author of Don't Let Your Children Kill You: A Guide for Parents of Drug and Alcohol Addicted Children.

Show: Oregon has a higher than national average rate of children who are addicted to drugs or alcohol. It is an issue that about 6 percent of Oregon parents deal with daily. Rueben, who had two addicted children, says that parents of addicted kids many times lose themselves in their child's addiction. It is common for parents to neglect themselves and normally blame themselves for circumstances that are out of their control. Rueben's belief is that for a parent to deal with an addicted child, the parent has to take care of their own self interests first, or the child's addiction can and will destroy the parent's life too.

Date: 11/22/15

Time: 7am

Length: 29:00

Issue: Rape on Oregon College Campuses

Guests: Attorneys Mike Arnold and Kevin Boondy

Show: Both Oregon State University and the University of Oregon have recently been sued because of alleged rapes involving their athletic programs. Beyond the public scrutiny and criminal aspect of the alleged crimes, the issue is complicated by Title IX. Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits discrimination on the basis of sex in any education program or activity that receives federal funding. Sex discrimination includes sexual harassment, sexual battery, sexual assault, and rape that are "so severe, pervasive, and objectively offensive that it effectively bars the victim's access to an educational opportunity or benefit." Even a single instance of rape or sexual assault by another student, faculty, or staff member could meet this standard. Arnold and Boondy discuss the differences and similarities between the two universities lawsuits and the larger picture of how they deal with Title IX complexities.

Date: 11/29/15

Time: 7am

Length: 29:00

Issue: Muslim Extremism, Terror Recruitment

Guest: Haseem Hafeez, former Al Qaeda recruit and terrorist trainee

Show: Hafeez was a Pakistani child growing up in the suburbs of Portland, Oregon when he began his descent into extremism. As Muslim teenager, Hafeez was recruited online to join Al-Qaeda and he went through indoctrination, and training to become a human weapon of terrorism after ending up in Europe. Hafeez says he was taught to despise the Jews, and was taught that Israel and its citizenry were evil. Hafeez says he wanted to "learn more about his enemy" and traveled to Israel to view its people personally, and study the culture. Hafeez says that he had an epiphany and realized he had made a mistake. Hafeez discusses how impressionable Muslim youth are approached and sucked into extremism both personally, and online, and how recruits are subtly brainwashed.

Date: 12/6/15

Time: 7am

Length: 29:00

Issues: Recreational Pot Rules and Diabetes Caused Alzheimer's Disease

Guests: Tom Towslee, Outreach at the Oregon Liquor Control Commission and Dr. Mitchell Gaynor, Founder of Gaynor Integrative Health.

Show: Recreational Marijuana becomes legal July 1st, 2015 yet the OLCC is still writing the rules around how it will be taxed, who can sell it, and where it can't be used. While state officials are in a quandary, individuals have no ideas as to the rules regarding usage, possession limits, and who can sell pot, and who can't. Towslee tries to address those issues. Part II deals with dementia, and new research that shows Diabetes is linked directly to memory loss, and even Alzheimer's. How America's Diabetes problem could be tomorrow's Alzheimer's epidemic.

Date: 12/13/15

Time: 7am

Length: 29:00

Issue: Oregon and Mars Research

Guest: Mars Geologist, Dr. Gregory Retallack, of the University of Oregon

Show: NASA has announced the presence of water "streaks" on Mars terrain. The discovery was made by a Mars rover on the planet's surface. What hasn't been discussed is that these streaks were actually first observed over 10 years ago by a University of Oregon student interning at NASA. At the time, the observation was discounted by NASA researchers. The new so-called discovery not only proves the initial observation, but opens up a series of other questions about the water's source, and its importance to Mars exploration.

Date: 12/20/15

Time: 7am

Length: 29:00

Issues: Infectious Disease

Guests: Dr. John Dye, Director of the U. S. Army Medical Research Institute of Infectious Diseases, Viral Immunology Branch.

Show: Dye talks about Ebola, infectious diseases, virus hunting, and what the Government and scientists are doing to try and prevent a pandemic. Dye discusses how Ebola may potentially never go away in those that survive it, living forever in their systems with the possibility of becoming active again, or being transmitted to others through sexual activity. Dye also talks about what he believes is the bigger concern, antibiotic resistant bacteria. Dye believes the next approach in fighting super-bugs is potentially creating other bacteria or viruses in the lab to kill the bad bugs.

Date: 12/27/15

Time: 7am

Length: 29:00

Issue: History in Oregon Schools, and Forgetting the Holocaust

Guest: Irving Roth, Holocaust Survivor

Show: Irving Roth and his family were living in Europe during the rise of Hitler. The Jewish Family attempted to escape Europe, but were captured. Roth was in both Auschwitz and Buchenwald, and lost most of his family. Roth discusses the need to continue teaching the Holocaust in schools, which is no longer a part of the regular curriculum in Oregon, and how he believes in some parts of the world history may actually be repeating itself. Roth believes that remaining holocaust survivors need to spent their last remaining time on this plane being a warning from the past.

SECTION II

Section II lists the national/syndicated issue oriented programming that the station broadcast during the preceding calendar quarter.

Call Letters: KRKT FM

Weekly Public Affairs Program

QUARTERLY ISSUES REPORT, OCTOBER-DECEMBER, 2015

Show # 2015-27

Date aired: 10/04/15 Time Aired: 7:30AM

John R. Baker, PhD, Professor of Political Science at Wittenberg University, author of *"Government in the Twilight Zone: Volunteers to Small-City Boards and Commissions"*

97 percent of all American cities have a population fewer than 50,000 and Dr. Baker studies the workings of these smaller local governments. He discussed how local board systems operate, who the board members are and what motivates them to serve. He explained why it is important for citizens to understand how government functions, even in small towns.

Issues covered:

Citizenship

Government Policies

Length: 6:54

Lennard J. Davis, PhD, Professor in the English Department in the School of Arts and Sciences at the University of Illinois at Chicago, Professor of Disability and Human Development in the School of Applied Health Sciences of the University of Illinois at Chicago, Professor of Medical Education in the College of Medicine, author of *"Enabling Acts: The Hidden Story of How the Americans with Disabilities Act Gave the Largest US Minority Its Rights"*

Disabled Americans are the largest minority group in the country. Dr. Davis believes the Americans with Disabilities Act (ADA) is the widest-ranging and most comprehensive piece of civil rights legislation in history. He explained the unusual path the law took to passage, some of the challenges in implementing it and the enormous impact of the ADA, 25 years after its adoption. He also outlined several potential reforms which he believes could improve it.

Issues covered:

Disabilities

Civil Rights

Government Policies

Length: 10:21

Michael A. Fischer, MD, MS, Instructor in Medicine at Harvard Medical School, Associate Physician at the Division of Pharmacoepidemiology and Pharmacoeconomics at Brigham and Women's Hospital in Boston

Dr. Fischer led a study that found that many people whose doctors start them on medications for conditions like diabetes and high blood pressure may never fill those prescriptions. He explained the reasons behind this problem and how doctors and patients can improve communication.

Issues covered:
Personal Health
Medical Issues

Length: 5:00

Show # 2015-41

Date aired: 10/11/15 Time Aired: 7:30AM

Michelle Garcia, Director of the Stalking Resource Center at the National Center for Victims of Crime

Nearly 3.5 million people over the age of 18 are stalked each year in the United States. Ms. Garcia talked about the most common stalker scenarios, and why the crime is so difficult to define. She also explained why new developments such as GPS and social networking sites have made it much easier for stalkers to target their victims.

Issues covered:
Stalking
Crime
Women's Issues

Length: 9:43

John Izzo, PhD, business consultant, author of "*Stepping Up: How Taking Responsibility Changes Everything*"

Mr. Izzo said that almost every problem, from personal and business challenges to social issues, can be solved if Americans looked to themselves to create change rather than expecting others to do it. He offered advice to employees who are afraid to speak up at work and how to encourage children to step up and improve problems they see in their community.

Issues covered:
Workplace Matters
Community Involvement
Parenting

Length: 7:33

Ron Shevlin, Senior Analyst with Aite Group, an independent research and advisory firm serving the financial services industry

Social media sites like Twitter and Facebook have empowered consumers in many new ways. Mr. Shevlin explained how these new tools have made it much easier to complain about a problem or to influence corporate policies. He offered advice for the best ways for consumers to use social media to interact with companies.

Issues covered:
Consumer Matters

Length: 4:55

Technology

Show # 2015-42

Date aired: 10/18/15 Time Aired: 7:30AM

Phil Gaddis, President, Executive Search at the Addison Group, a Chicago-based provider of professional staffing and search services

Recent statistics show that the average American changes careers seven times. Mr. Gaddis explained why the turnover has increased so rapidly in recent decades, and offered advice for people who are considering a career change.

Issues covered:
Employment

Length: 8:04

Lance LoRusso, Atlanta-based attorney, former law enforcement officer, author of *"When Cops Kill: The Aftermath of a Critical Incident"*

Mr. LoRusso said police officers are well-trained on when and how to use their weapons, but are ill-prepared for what to do in the aftermath. He explained how the investigation of a police shooting differs significantly from one involving a civilian. He estimated that 75% of officers involved in a deadly force incident are the target of a civil lawsuit, whether the shooting was justified or not.

Issues covered:
Police & Crime
Violence
Legal Matters

Length: 9:10

Jonathan T. Jefferson, PhD, school administrator, author of *"Mugamore: Succeeding without Labels—Lessons for Educators"*

Dr. Jefferson said he believes that today's education system needs to change the way it handles problem students. He said zero tolerance policies and the application of labels to students who have behavioral or learning disorders causes many of them to be left behind. He believes that schools personnel need to exercise more patience with immature students to give them time to grow into productive students.

Issues covered:
Education
Youth at Risk

Length: 5:07

Show # 2015-43

Date aired: 10/25/15 Time Aired: 7:30AM

Cary Funk, Associate Director of Research at Pew Research Center

A recent survey by the Pew Research Center found that Americans' grasp of common science topics could be better. She outlined the results of the survey, including differences between genders, ages and education levels. She explained why a basic

understanding of scientific principles is important for Americans to understand many of today's civic issues.

Issues covered:

Length: 7:07

Education

Science

Citizenship

Julie Lythcott-Haims, former Dean of Freshmen and Undergraduate Advising at Stanford University, author of *"How to Raise an Adult: Break Free of the Overparenting Trap and Prepare Your Kid for Success"*

Ms. Lythcott-Haims believes that overparenting is out of control in America, and that it harms children, their stressed-out parents, and society at large. She explained how parents can allow children to make their own mistakes and develop the resilience, resourcefulness, and inner determination necessary for success.

Issues covered:

Length: 10:11

Parenting

Karina Davidson, PhD, researcher and clinical psychologist at Columbia University Medical Center in New York

Dr. Davidson recently led a 10-year study that found that happiness may prevent a heart attack. She explained the science behind this finding and suggested ways that people can improve their outlook to improve their health.

Issues covered:

Length: 4:30

Personal Health

Mental Health

Show # 2015-44

Date aired: 11/01/15 Time Aired: 7:30AM

Denise Pope, Senior Lecturer, Co-Founder, Challenge Success at Stanford University Graduate, co-author of "Overloaded and Underprepared"

Dr. Pope explained why parents and teachers should be concerned that many America's students are stressed out or have given up. She outlined steps that schools can take to provide kids with academic, social and emotional skills needed to succeed in school now and as adults later. She talked about the Challenge Success program at Stanford and how the program is customized for each school in which it is applied.

Issues covered:

Length: 9:53

Education

Parenting

Brooks Palmer, professional organizer, author of *"Clutter Busting: Letting Go of What's Holding You Back"* and *"Clutter Busting Your Life: Clearing Physical and Emotional Clutter to Reconnect with Yourself and Others"*

Most Americans struggle with clutter and disorganization. Mr. Palmer talked about the emotionally suffocating effects of clutter and why people have problems letting go of items they no longer need or use. He offered suggestions for how to get started and how to look at items in a different way to assess whether they are worth keeping.

Issues covered:

Length: 7:27

Personal Productivity

Workplace Matters

Mental Health

Kevin Haley, Director of Product Management for Symantec Security Response

Today's smartphones hold a wealth of personal, financial and work-related data that thieves would love to get their hands on. So what happens when a phone is lost or stolen?

Mr. Haley led a research project that intentionally lost 50 phones to see what data was accessed by the finder and whether the phones would be returned to their owners. The results were Showoncerting. Mr. Haley offered advice for phone owners to protect their data.

Issues covered:

Length: 5:04

Crime

Privacy

Workplace Matters

Show # 2015-45

Date aired: 11/08/15 Time Aired: 7:30AM

Barry Schwartz, PhD, Professor of Psychology at Swarthmore College, author of "*Why We Work*"

Dr. Schwartz discussed his research that examined why Americans work. He said the reasons are surprising and complex, but that the need for a paycheck is not the primary factor. He discussed the most common trends and patterns that lead to happiness in the workplace, and how employers can try to improve productivity and employee satisfaction.

Issues covered:

Length: 9:27

Workplace Matters

Mental Health

William MacAskill, PhD, Associate Professor in Philosophy at Oxford University, cofounder of the nonprofit organizations Giving What We Can and 80,000 Hours, author of "*Doing Good Better: How Effective Altruism Can Help You Make a Difference*"

Dr. MacAskill said Americans often base their decisions on where to donate money and what career to pursue on emotions and false assumptions. He outlined five key questions that may help consumers make wiser altruistic decisions. He explained how to use evidence and careful reasoning to chart the best course to help others.

Issues covered:

Length: 7:58

Charitable Giving

Consumer Matters

Career

Katie Liljenquist, Assistant Professor of Organizational Leadership and Strategy at Brigham Young University's Marriott School of Management, expert in behavior and decision making

Prof. Liljenquist led a study that found that the smell of cleaning products can make people act more virtuous. She explained the reasons behind the behavioral changes. She also talked about potential ways to smells could be used to reduce societal problems such as crime or vandalism.

Issues covered:

Health

Parenting Issues

Length: 4:57

Show # 2015-46

Date aired: 11/15/15 Time Aired: 7:30AM

Dara Feldman, award-winning teacher, Director of Educational Initiatives for The Virtues Project, author of *"The Heart of Education"*

Ms. Feldman noted that 50 percent of new teachers get burned out in their first five years on the job and end up leaving the profession. She explained why this is such a costly problem and how it damages our nation's education system. She offered suggestions for concerned parents who would like to help and encourage stressed-out teachers.

Issues covered:

Education

Parenting

Length: 8:57

Sheldon Krantz, Distinguished Visiting Professor of Law at the University of Maryland Carey School of Law, former dean of the University of San Diego Law School, former law professor at the Boston University Law School, former federal prosecutor, author of *"The Legal Profession: What Is Wrong and How to Fix It"*

Mr. Krantz said legal services should be available to every American, whether they can afford it or not. He said attorneys do not provide nearly enough pro bono services. He said many of today's law students would be willing to work in the public interest, but are often mired down in student debt. He would like to see loan forgiveness programs or other new initiatives that would enable young lawyers to help lower-income litigants.

Issues covered:

Legal Matters

Poverty

Government Policies

Length: 8:09

Brenda Shields, M.S., research coordinator, Center for Injury Research and Policy, Columbus Children's Hospital in Ohio

Ms. Shields discussed a recent study into the increasing dangers for young people involved in cheerleading. Her research found that emergency room visits are becoming much more common as cheerleading routines have added complex gymnastic moves. She outlined the questions that parents should ask, to be sure coaches are properly qualified.

Issues covered:
Personal Health
Children
Parenting

Length: 4:45

Show # 2015-47

Date aired: 11/22/15 Time Aired: 7:30AM

Yasmin Hurd, PhD, Professor of Psychiatry and Neuroscience at the Icahn School of Medicine at Mount Sinai Hospital in New York

Dr. Hurd's research found that teenagers who smoke marijuana may make their future offspring more vulnerable to substance abuse problems. She believes that marijuana use causes structural changes in DNA that may last for generations. Dr. Hurd said much more research into the health effects of marijuana is needed. She also explained how parents can deal with the mixed messages society is conveying to young people about marijuana.

Issues covered:
Substance Abuse
Government Regulations
Parenting

Length: 9:22

Chris Malone, Managing Partner of Fidelum Partners, a research-based consulting and professional services firm, author of "*THE HUMAN BRAND: How We Relate to People, Products and Companies*"

Mr. Malone explained why upstart businesses have surged in popularity while many traditionally dominant companies and brands have been falling behind. He outlined the reasons that social media has become such a valuable tool for both consumers and the companies they do business with. He said business schools fail to teach students how to nurture relationships with customers, causing much less loyalty to brands and products.

Issues covered:
Consumer Issues
Education

Length: 7:52

Janet Larson, Director of Research, the Earth Policy Institute

The US is the world's largest consumer of bottled water. Ms. Larson talked about the huge environmental impact of bottled water, both in its manufacture and disposal. She also explained how consumers can wisely decide whether to use bottled water.

Issues covered:
Environmental Issues
Consumer Issues

Length: 4:54

Show # 2015-48

Date aired: 11/29/15 Time Aired: 7:30AM

Karl Pillemer, PhD, Hazel E. Reed Professor in the Department of Human Development and Professor of Gerontology in Medicine at the Weill Cornell Medical College, Founder

and Director of the Cornell Institute for Translational Research on Aging, author of “*30 Lessons On Living: Tried and True Advice from the Wisest Americans*”

Dr. Pillemer interviewed more than 1,000 Americans over the age of 65 to seek their counsel on all of life’s big issues: children, marriage, money, career and aging. He explained why younger people should take advantage of this rich resource of older Americans’ wisdom. He recommends that young people talk to older members of their own family before it is too late.

Issues covered:

Length: 9:17

**Senior Citizens
Personal Health
Career**

Scott Bittle, policy analyst, Senior Fellow and Founding Editor of PublicAgenda.org, a non-partisan public opinion research organization, author of “*Where Did the Jobs Go And How Do We Get Them Back?*”

The subject of unemployment remains the public's top concern in polls and is continually marked as the most damaging result of the Great Recession. Mr. Bittle explained why the issue is so complex and why the nation needs to take a long-term approach to resolving it. He also analyzed various solutions proposed by each side of the political spectrum.

Issues covered:

Length: 7:57

**Unemployment
Government Policies
Economy**

John Hayes, PhD, Assistant Professor of Food Science and Director of the Sensory Evaluation Center at Penn State University

Nine out of 10 Americans get too much sodium in their diets. Dr. Hayes discussed a recent government report that found that just 10 foods are responsible for 44 percent of the sodium in the average diet. He outlined steps to cut sodium intake and the reasons why everyone should do it.

Issues covered:

Length: 4:54

Personal Health

Show # 2015-49

Date aired: 12/06/15 Time Aired: 7:30AM

Lisa J. Servon, PhD, Professor and former dean at the Milano School of International Affairs, Management, and Urban Policy at The New School in New York

Alternative financial providers such as check cashers and payday lenders are often accused of preying on the poor, with high fees and interest rates. Dr. Servon conducted a study that examined why many lower income residents make the conscious decision to use these services, rather than traditional banks. She was surprised to find that the choice actually makes sense for many people who live paycheck to paycheck.

Issues covered:

Length: 11:05

Poverty

Government Regulations
Personal Finance

Dan McCue, Research Manager, Joint Center for Housing Studies of Harvard University

The cost of renting an apartment or house has jumped in the past decade, according to a study led by Mr. McCue. A rise in prices, combined with the drop in renter incomes, has made affordability a major concern. Much of the jump in prices is because of increased demand for rental homes as a result of the mortgage crisis. He said a quarter of all U.S. households are paying more than half of their income for housing, which is dangerously high.

Issues covered:
Affordable Housing
Poverty
Consumer Issues

Length: 6:07

Debbie Magids, PhD, psychologist, author of *"All the Good Ones Aren't Taken"*

Dr. Magids discussed the trend of serial dating and why dating is so difficult for women in particular. She explained the most common dating errors and suggested ways that a person can analyze their own patterns of behavior, to clear the way for more fulfilling relationships.

Issues covered:
Mental Health
Women's Issues

Length: 4:48

Show # 2015-50

Date aired: 12/13/15 Time Aired: 7:30AM

Alvin E. Roth, PhD, Craig and Susan McCaw Professor of Economics at Stanford University, Gund Professor of Economics and Business Administration Emeritus at Harvard University, author of *"Who Gets What — and Why: The New Economics of Matchmaking and Market Design"*

Dr. Roth is one of the world's leading experts on matching markets, where "sellers" and "buyers" must choose each other, and price isn't the only factor that determines who gets what. He explained how market designs affect many less obvious aspects of life, such as the chances of getting a job or whether a university accepts a prospective student.

Issues covered:
Economics
Career
Education

Length: 9:17

Joel Kahn, MD, Clinical Professor of Medicine at Wayne State University School of Medicine and Director of Cardiac Wellness, Michigan Healthcare Professionals PC, author of *"The Whole Heart Solution"*

According to Dr. Kahn, more than 75 percent of cases of heart attacks, strokes and other cardiovascular disease events are preventable. He explained how lifestyle choices can

make a huge difference in the development of heart disease and he said changes in diet and exercise can often reverse the disease.

Issues covered:
Personal Health

Length: 8:01

Paul Tough, former editor at the New York Times Magazine, nationally recognized writer on poverty, education and the achievement gap

Mr. Tough discussed a groundbreaking anti-poverty initiative called the Harlem Children's Zone. The creator of the program theorized that in order for poor kids to compete with their middle-class peers, everything in their lives—their schools, neighborhoods, parenting practices—all must be changed at once.

Issues covered:
Poverty
Education
Minority Concerns
Parenting

Length: 5:00

Show # 2015-51

Date aired: 12/20/15 Time Aired: 7:30AM

Russell E. Johnson, PhD, Assistant Professor of Management in the Eli Broad College of Business at Michigan State University.

Dr. Johnson's research has found that people who check their work emails on smartphones at night could end up hurting their ability to work the following day. He found that smartphones appeared to have a greater effect on people's energy levels and sleeping abilities in comparison to other electronic screens. He offered several suggestions on how to control smartphone use at night.

Issues covered:
Personal Health
Workplace Matters
Career

Length: 7:24

Daniel J. Siegel, MD, neuropsychiatrist, Clinical Professor of Psychiatry at the UCLA School of Medicine, Executive Director of the Mindsight Institute, author of "*Brainstorm: The Power and Purpose of the Teenage Brain*"

Dr. Siegel said that between the ages of 12 and 24, the brain changes in dramatic and important ways. He believes this brain development is the explanation for sometimes erratic, unusual and creative behavior in teens. He said that if parents understand the science behind these changes, they can better help their teenagers navigate this challenging phase of life.

Issues covered:
Parenting
Personal Health

Length: 9:36

Kenneth Dautrich, PhD, Associate Professor of Public Policy, University of Connecticut

Dr. Dautrich recently conducted a survey of students to learn their attitudes toward the First Amendment. He found that schools are spending more class time on the First Amendment, but a sizeable number of students either do not view the First Amendment favorably or take its protections for granted.

Issues covered:
Citizenship
Education

Length: 4:52

Show # 2015-52

Date aired: 12/27/15 Time Aired: 7:30AM

John M. Leventhal, MD, Professor of Pediatrics and Medical Director of the Child Abuse and Child Abuse Prevention Program at Yale Medical School, expert in child abuse prevention

Dr. Leventhal has dedicated his career to the prevention of child abuse. He recently conducted a study that found that the first year of life is the most dangerous for children. He said that parents from any income, educational or social level can be the perpetrators of abuse, largely because they are unprepared to deal with infants' crying. He believes that educational programs for new parents could help reverse the trend.

Issues covered:
Child Abuse
Parenting

Length: 8:31

Erin Botsford, financial planning expert, author of "*The Big Retirement Risk: Running out of Money Before You Run Out of Time*"

For many baby boomers, the recession didn't wipe out their nests egg completely, but it did shrink it considerably. Ms. Botsford discussed the turbulence in today's economy and how it has changed retirement planning. She explained how people approaching their golden years can assess their financial needs and take steps to ensure a sound retirement.

Issues covered:
Retirement Planning
Senior Citizens
Personal Finance

Length: 8:41

Aaron W. Smith, Senior Research Specialist with Pew Research Center's Internet & American Life Project

Mr. Smith surveyed 1,000 US adults and found that more half of consumers used cell phones in stores during the holidays. He outlined the most common ways that consumers use their phones as shopping tools. He also explained how brick-and-mortar stores may react to the trend by changing policies, products and prices.

Issues covered:
Economy
Consumer Matters

Length: 5:01

SECTION III

Section III lists public service announcements that the station broadcast during the preceding calendar quarter that address community issues.
