Date(s)	Host	Guests Names / Title / Affiliation	<u>Title of discussion:</u>
02/04/24	Dr. Navab	Dr. Mohammad Bagher Bagheri, a highly regarded international researcher in Critical Thinking, holds a doctorate from Tehran University of Science and Research. His groundbreaking dissertation proposed a comprehensive definition and an applicable educational model. Dr. Bagheri's global recognition includes frequent invitations to the "International Conference on Critical Thinking and Educational Reform" since 1980 and numerous publications in esteemed journals, showcasing his significant impact on the field.	How learning changes the brain and how the brain rewires to support learning
02/11/24	Dr. Abedini	Dr. Reza Lakeh,, is an Associate Professor of Mechanical Engineering, who joined Cal Poly Pomona in 2014. Dr. Lakeh concentrates his research on developing novel and low-cost renewable energy systems and water treatment technologies. His current research focus is the development of a low-cost thermal energy storage system using reclaimed minerals for different applications such as grid-scale energy storage and solar desalination. The project has resulted in two provisional patents and inspired him to co-found a start-up company, Waste Salt Technologies, LLC, to facilitate commercialization of the technology. 02/18/24	Dr. Heidarzadeh	Dr. Nima Chartab is an astrophysicist currently serving as a postdoctoral researcher at the Carnegie Institution for Science in Pasadena. He studies the formation and evolution of galaxies using both ground and space-based telescopes. Before this position, he was a postdoctoral researcher at the University of California Irvine. His research focuses on constructing the largest 3D map of dark matter in the two-billion-year-old universe and studying the detailed properties of galaxies in diverse environments. Chartab earned his Ph.D. in Physics and Astronomy from the University of California Riverside, after completing his MSc in Physics at the Sharif University of Technology.	The Universe Through New Eyes: Insights from JWST and Euclid
02/25/24	Dr. Akbari	Ali Faramarzi is a renowned painter, designer, and painting critic. He has held 26 solo exhibitions in Tehran and other countries such as United States, Italy, Qatar, Singapore, Pakistan, South Korea, China, etc. Over 47 years of teaching in his personal art complex (gallery and painting school), he became a distinguished master to teach painting at the master's level. In 2006, he started teaching at Sourah University in Tehran. Holding various workshops and lectures abroad, including at Stanford University, and the repeated presence of his works in Tehran's art auctions have introduced him more than ever before. Faramarzi has published several hundred articles about painting and art in Iran, along with publishing a book on this matter, has established him as a recognized critic in the most renowned publications in Iran. His views on artistic identity, Mental Observer etc., have gained attention both in Iran and internationally, establishing him as a thoughtful art critic. Conducting numerous private and collective exhibitions in Iran and abroad is another ongoing activity in his painting career.	The Role of Mental Observer
