

Quarterly Issues and Program List

FIRST QUARTER 2019

Pursuant to the disclosure requirements in 47 C.F. R. 73.3526(11)(i), and during the quarter referenced above, this station provided information to its viewers regarding the following significant issues, including:

- Education
- Health/Healthcare
- Economy
- Consumer Issues
- Transportation
- Business & Industry
- Politics

COMMUNITY AFFAIRS REPORT

January 2019

Date:	Show:	Topic:	Time:	Context:
1/1	Passe Partout	Health	1:04	Researchers in England found people who gave up alcohol for the first month of 2018 reported drinking less eight months later. The study also found seven in ten participants slept better and three in five participants lost weight.
1/2	Passe Partout	Health	1:14	A new study finds the lack of fluoride in tap water increases cavities in children.
1/3	Passe Partout	Health	1:03	A study from Columbia University Irving Medical Center finds elderly patients with hearing loss have more symptoms of depression. The worse the hearing loss, the higher the risk of depression symptoms.
1/4	Passe Partout	Health	:54	A new study finds women who have persistent hot flashes and night sweats may be more likely to be diagnosed with breast cancer than women who do not have those symptoms. Researchers add while there is an increased risk of disease, there isn't a significant increase in mortality rates.
1/7	Passe Partout	Health	1:04	One in every ten adults suffer from food allergies. The number one food allergy is shell fish.
1/11	Passe Partout	Health	:56	A new study suggests boys and girls with more muscle mass as children may have better lung function later in life. British researchers also found boys, not girls, with more fat mass developed lower lung capacity.

1/14	Passe Partout	Health	:55	A new Canadian study on back pain followed about 13,000 people for 2 decades. Researchers found nearly half reported back pain at some point. But they also say at least 1 in five patients with back pain will recover.
1/14	News 10 at 10	Health	1:30	There is an urgent need for blood here in Acadiana and across the nation.
1/15	Passe Partout	Health	1:17	Getting out of your chair and moving around for 30 minutes reduces your risk of early death by as much as 35 percent.
1/16	Passe Partout	Health	1:16	A Norwegian study finds staying fit can cut your risk of heart attack by half. Researchers say even people with no symptoms of cardiovascular disease, cancer or high blood pressure are at a higher risk of heart attack due to poor cardiorespiratory fitness.
1/17	News 10 at 5	Health	1:30	A report is prompting new concerns about the safety of our food. The report claims recalls of hazardous meat and poultry have gone up 83 percent in the last six years.
1/17	Passe Partout	Health	1:07	A new study suggests nearly a quarter of antibiotic prescriptions for children and adults may be unnecessary. Researchers at the University of Michigan found many doctors write antibiotic prescriptions for illnesses that would get better on their own.
1/18	Passe Partout	Health	1:00	Researchers in Seattle have developed a new way of classifying babies and adults most at risk for developing type 1 diabetes. Their new risk score considers detailed genetic information from a person's genome. They found it's almost twice as effective as current

				methods for identifying babies at high risk.
1/21	Passe Partout	Health	1:00	A new brain training game designed at the University of Cambridge may support concentration. Researchers found playing 'decoder' on an iPad for eight hours over one-month improved attention and concentration.
1/22	Passe Partout	Health	1:00	A new study published in the journal "Pediatrics" finds the HPV vaccine appears to offer considerable "herd immunity." That happens when a high percentage of a group is vaccinated. That makes it harder for a disease to spread because there are few susceptible people left to infect.
1/23	Passe Partout	Health	:53	The risk of heart disease may begin even before childbirth. A new British study finds children whose mothers had low oxygen levels during pregnancy may be at greater risk of heart disease later in life. Pre-eclampsia, gestational diabetes and maternal smoking can lower oxygen levels.
1/25	Passe Partout	Health	:58	A new study finds lack of sleep speeds up Alzheimer's-related brain damage. Researchers suggest good sleep habits may help preserve brain health.
1/28	Passe Partout	Health	1:09	A new study in the journal Pediatrics finds deaths of young children from firearms have almost doubled over the last decade. Firearm injury is the third leading cause of death among children.
1/28	News 10 at 5	Health	1:30	Researchers in Scotland have genetically modified chickens that can lay eggs that contain drugs for arthritis and some

				cancers. Scientists believe that in time production can be scaled up to produce medicines in commercial quantities.
1/29	Passe Partout	Health	1:13	A good night's sleep may be especially important for people experiencing the agony of sickness and injury. Researchers say the findings indicate that good sleep should be a higher priority in patient care.
1/30	Passe Partout	Health	:48	A new study finds Vitamin D could reduce your risk of developing Type 2 diabetes.
1/31	Passe Partout	Health	1:08	A new study suggests that eating breakfast may not be the best strategy to lose weight. Findings also showed missing breakfast does necessarily lead to increased appetite later in the day.
1/3	News 10 at 5	Government	1:15	The 116 th Congress was sworn in today. It is the most diverse group of lawmakers ever.
1/8	News 10 at 10	Government	1:30	We explained how the partial federal government shutdown is affecting police agencies and contract workers here in Acadiana.
1/17	News 10 at 10	Government	1:00	President Trump and top Democratic leadership in the House appear to be miles apart on funding for border wall security. And now the President and House Speaker seem to be involved in new tit-for-tat dispute.
1/23	News 10 at 10	Government	1:45	We explained how the 33-day partial government shutdown is affecting people who want to buy and sell homes in Youngsville.
1/4	News 10 at 10	Consumer Issues	:55	A study from AAA finds the light that cloudy or yellow car headlights generates is 80 percent less than what new

				headlights produce. Experts say that's concerning because many car accidents take place at night.
1/7	News 10 at 10	Consumer Issues	1:00	We told people about a fake check scam using the name of a local oil and gas company and gave pointers about how not to fall victim to conartists.
1/10	News 10 at 10	Consumer Issues	1:00	A new smartphone app is giving moms and dads the upper hand - forcing kids to reply to their texts.
1/14	News 10 at 6	Consumer Issues	:50	The holidays are over and many of you may want to use your gift cards. The Better Business Bureau is urging you to beware of scammers trying to take advantage of you and get money on the card.
1/9	News 10 at 5	Education	1:00	There is a new elementary school being built in Broussard. There will be rezoning because of the new school. That means some students will change schools to get their education.
1/11	News 10 at 10	Education	1:45	Concerns are mounting about the amount of space Lafayette Parish's newest high school, Southside High, has in order to educate students zoned to attend the school.
1/22	News 10 at 10	Traffic/Road Conditions	1:30	The DOTD is rebuilding LA 95 in Evangeline Parish. The road is worn out and hasn't been worked on in decades.
1/25	News 10 at 10	Traffic/Road Conditions	:50	The Southwest Louisiana Economic Development Alliance has an ambitious plan for building a new I-10 bridge in Lake Charles. The bridge will help with traffic flow in the area.
1/29	News 10 at 10	Traffic/Road Conditions	1:35	LCG will spend \$2 million to extend Frem Boustany Drive one-half mile south from Farrell Road. It will be a two lane boulevard with bike lanes. The

				construction project will help ease traffic congestion in the area.
1/30	News 10 at 10	Economy	1:30	Local employers have many positions available for skilled workers. However, there aren't people that are available to fill them.

COMMUNITY AFFAIRS REPORT

February 2019

Date:	Show:	Topic:	Time:	Context:
2/1	Passe Partout	Health	1:06	A new study finds statin therapy reduces the risk of cardiovascular disease even in patients who are more than 75 years old. Researchers say the findings are important because the risk of heart attacks and strokes increases with age, but statins aren't currently used as widely in older people as they are in younger people.
2/1	News 10 at 5	Health	1:30	On this National Wear Red Day, the American Heart Association wants to raise awareness about cardiovascular disease in women.
2/4	Passe Partout	Health	1:07	A new Canadian study finds infertility treatments may increase a woman's risk for developing postpartum hemorrhage and sepsis. Researchers found women who turned to in vitro fertilization and other treatments were about 40 percent more likely to experience some type of complication compared to women who conceived naturally.
2/4	News 10 at 10	Health	1:30	Cancer treatments are constantly changing and evolving. We talk to local doctors about treatment for prostate cancer.
2/5	Passe Partout	Health	:57	A new study suggests exercise can help young athletes recover faster from concussions.

2/6	Passe Partout	Health	:58	A new study adds to the evidence that women with benign ovarian cysts should have them monitored rather than removed. Researchers found in 80 percent of the cases there was no need for intervention.
2/6	News 10 at 10	Health	1:30	Fourteen people were hospitalized or sent to the doctor after coming in contact with the hydrated lime substance released from an LUS plant.
2/7	Passe Partout	Health	1:05	Patients with common shoulder pain also known as rotator cuff disease should avoid surgery as a way to stop discomfort. That's the advice from an international panel of experts. The team found having shoulder surgery does not improve pain, movement or quality of life. The group recommends doctors avoid the procedure but stopped short of offering alternative treatments.
2/8	Passe Partout	Health	:55	Researchers at Brigham and Women's hospital have pioneered a pea-size like capsule that can deliver insulin orally rather than by injection. More testing is needed.
2/12	Passe Partout	Health	1:04	The FDA is launching a new push to regulate the \$50 billion a year dietary supplement industry. The agency will start policy changes to protect the public from unsafe products, including spiked supplements with unlisted drug ingredients. It will also hold manufacturers accountable especially when it comes to misleading claims about health benefits.

2/13	Passe Partout	Health	1:07	A new study is calling on the health insurance industry to give patients more access to buprenorphine, a drug used to treat opioid and heroin addiction.
2/14	Passe Partout	Health	1:04	New research shows teens who use marijuana face an increased risk of depression and suicidal thoughts as young adults.
2/15	Passe Partout	Health	:58	Australian research shows infants exposed briefly to anesthesia for minor surgeries will not develop brain or behavioral problems. The study finds one hour of general anesthesia is safe.
2/18	Passe Partout	Health	1:08	Skin cancer patients with a history of smoking cigarettes are 40 percent less likely to survive their skin cancer than people who have never smoked, according to a new U.K. study. Researchers think smoking may damage the immune system's response to melanoma.
2/19	Passe Partout	Health	:56	Doctors in Canada say a medicine commonly used to treat yeast infections is linked to higher rates of miscarriage when taken by pregnant women. Scientists tracking hundreds of thousands of pregnancies found women taking oral fluconazole may be more likely to miscarry or have a newborn with a heart defect.
2/20	Passe Partout	Health	1:05	A study by researchers at Johns Hopkins University finds that the food and drug administration and some drug makers failed to adequately

				monitor Fentanyl prescriptions.
2/21	Passe Partout	Health	1:01	The HPV vaccine is helping to prevent cervical disease in women, and researchers say the trend will continue as more young people get vaccinated. A team from the Centers for Disease Control studied two types of human papillomavirus that are responsible for the majority of cervical cancers. Since the vaccine was introduced in 2006, both strains have declined.
2/23	News 10 at 10	Health	1:45	An Iberia Parish woman is fighting for her life as she's put back on the kidney transplant list for a second time.
2/25	Passe Partout	Health	1:00	New research is promising for early stage testicular cancer patients. A study in Annals of Oncology finds men can receive one course of chemotherapy without the treatment affecting their long term sperm count.
2/26	Passe Partout	Health	1:32	Moringa is making a name for itself as a true superfood. Used for centuries in tropical locations around the globe, it's loaded with vitamins, minerals and protein and is a proven anti-inflammatory. The hearty plant is helping fight hunger in developing countries and changing lives by growing a new source of income.
2/27	Passe Partout	Health	1:11	Scientists at Western university in California studied the link between obesity and self-control. They found people with lower brain activity in the pre-frontal cortex are more likely to be

				pre-disposed to overeating. Researchers say exercise and mindfulness increases activity in that part of the brain, helping a person better ignore food cravings.
2/28	Passe Partout	Health	1:06	The CDC says the number of HIV infections nationwide is no longer declining but has stalled. The new report finds HIV cases have increased disproportionately among African Americans and Latinos. The CDC says effective HIV prevention and treatment are not reaching people who can benefit from it most, in rural areas and in the south.
2/5	News 10 at 10	Traffic/Road Conditions	1:40	The DOTD has now shifted lanes on two sections of the massive project on Interstate 10. The section between I-49 and Breaux Bridge and the section between Henderson and the Atchafalaya Basin Bridge is being worked on.
2/19	News 10 at 10	Traffic/Road Conditions	1:45	LCG has a long-term plan to build another Vermilion River crossing by extending South City Parkway from Robley Drive to Kaliste Saloom Road. This will help better traffic flow in Lafayette.
2/26	News 10 at 10	Traffic/Road Conditions	:45	During a town hall meeting, residents voiced their concerns to DOTD about traffic and safety of the Verot School Road and Vincent Road intersection.
2/7	News 10 at 10	Consumer Issues	1:45	We alerted people about scammers who are using fake change-of-address websites to pose as the United States Postal Service.

2/18	News 10 at 10	Consumer Issues	1:00	We aired a report explaining how to recognize a scam, which is the first step to avoid being victimized and what people should do before buying a ticket for an event such as the LSU vs. Tennessee game, which is already sold out.
2/12	News 10 at 10	Economy	1:00	Seventy employees at Cameron-Schlumberger in Evangeline Parish were laid off. Officials say it's because of the downturn in the oil and gas industry.
2/15	News 10 at 10	Economy	1:00	Governor John Bel Edwards was in Lafayette with city and community leaders to talk about the expansion of Waitr. The expansion will create more than 200 jobs.
2/22	News 10 at 6	Economy	:20	Waitr is looking for fill 250 driver positions. There will be a job fair in order to find qualified employees.
2/27	News 10 at 10	Economy	1:20	Leonardo Choppers is a new aviation company in Acadiana. Right now, there are 15 employees. Company officials hope to double the amount of employees in the next two years.
2/14	News 10 at 10	Government	1:30	Congress passed a bill to fund the government and avoid a shutdown again.
2/20	News 10 at 10	Education	:55	St. Landry Parish School board held a public forum tonight about rezoning elementary schools in Opelousas. Some students

				may have to get educated at other schools in the future.
2/28	News 10 at 10	Education	1:45	After a scathing New York Times report on practices of the founders of T.M. Landry College Prep, the school is moving locations. Students will now be educated at a school in Lafayette.

COMMUNITY AFFAIRS REPORT

March 2019

Date:	Show:	Topic:	Time:	Context:
3/1	Passe Partout	Health	:54	Medical marijuana may help relieve some symptoms of chronic diseases for older people. A new study at the American Academy of Neurology annual meeting shows medical marijuana may be safe and effective for treating pain, sleep problems and anxiety related to Parkinson's disease and multiple sclerosis.
3/4	Passe Partout	Health	1:07	Another European study finds women are good about calling an ambulance for family members, but they skimp when it comes to their own health. Researchers analyzed nearly 7500 heart attack cases and found women experiencing symptoms were less likely to call for help within the 90-minute time frame needed for treatment.
3/5	Passe Partout	Health	1:10	Two studies found young women aren't thinking about their hearts first. The American Heart Association says while young women are trying to stay healthy, they're more concerned about stress, anxiety and depression. Only ten percent identified heart disease as the leading cause of death in women.
3/6	Passe Partout	Health	:45	A new British study shows many pregnant women ages 16 to 24 have mental health issues. Researchers found almost 70 percent had mental health problems with anxiety disorders such as social phobia especially high.

3/6	News 10 at 5	Health	1:30	One in nine men will be diagnosed with prostate cancer in their lifetime. Researchers say new technology is improving survival rates. The new software fuses MRI Scans with ultrasound images to better pinpoint prostate cancer.
3/8	Passe Partout	Health	1:10	A new study finds a link between secondhand smoke and an increased risk of developing chronic kidney disease. Researchers found the risk for developing the disease was 66 percent higher in participants who were exposed to secondhand smoke three or more days per week.
3/11	Passe Partout	Health	1:04	A new study reveals unique differences in the colorectal cancers diagnosed in younger patients compared to older patients. Researchers in Texas found the cancer in younger patients has different genetic and clinical features compared to patients with traditional colorectal cancers diagnosed later in life.
3/11	News 10 at 10	Health	1:30	Thousands of people, including two in Acadiana, have died from flu related symptoms. Now, there's an app to help track illnesses in Acadiana.
3/12	Passe Partout	Health	:52	A new study shows a health condition called Nocturia that leads to more frequent trips to the bathroom at night could cost the U.S. economy more than 44 billion dollars a year. The condition affects the lower urinary tract. Researchers say when it causes people to wake up more than twice at night to use the bathroom, it reduces their productivity at work.
3/13	Passe Partout	Health	:49	A new CDC report suggests more people are getting tested for HIV.

3/14	Passe Partout	Health	1:14	New research shows a 50 percent drop in monthly prescribing of opioids to new patients. A Harvard Medical School study found despite the decrease, some doctors still prescribe prescription pain killers at concerning dosages and length of time, while others don't prescribe them at all, suggesting some patients may not be getting adequate pain treatment.
3/15	Passe Partout	Health	:48	A new study looking at 7th and 8th graders in Ohio found a third had abnormal levels of blood sugar or high cholesterol. The American Academy of Pediatrics recommends routine screening for diabetes for middle schoolers, but most are not tested.
3/18	Passe Partout	Health	1:00	A new study says people with atherosclerotic heart disease can cut the risk of developing a second heart problem by nearly 50 percent by simply taking statin medication. Researchers say it's really important that patients prescribed the cholesterol lowering medication actually stick to their regimen.
3/18	News 10 at 10	Health	1:45	We talked about Dr. Tina Stefanski's impact on the healthcare industry here in Acadiana.
3/19	Passe Partout	Health	:42	British researchers say they've found a link between depression and heart disease. They say its inflammation, the body's response to stress from either psychological or lifestyle factors including smoking and obesity.
3/20	Passe Partout	Health	:57	A new study finds women are more likely to experience stillbirth if their diabetes is undiagnosed during pregnancy.

				Researchers suggest improvements are needed in screening for gestational diabetes.
3/21	Passe Partout	Health	:53	A new study out of Norway shows a woman's age and pregnancy history could affect her chances of having a miscarriage. Researchers found women are more at risk if they've had a previous miscarriage. Pregnancy complications such as gestational diabetes or preterm delivery also increase a woman's risk.
3/22	Passe Partout	Health	1:03	The CDC says 12 percent of women and nearly nine percent of men did not get needed dental care in 2017 because they couldn't afford it. Poor oral hygiene is linked to health problems including an increased risk for stroke.
3/25	Passe Partout	Health	1:15	The American Academy of Pediatrics and the American Heart Association are jointly calling for a tax on sugary drinks to discourage children and parents from purchasing them. They also want limits on marketing the drinks to children.
3/26	Passe Partout	Health	1:02	Patients using medical marijuana to help treat various diseases and conditions prefer different types of the drug. A new study finds cancer patients are more likely to choose forms with higher levels of THC and prefer taking oil droplets under the tongue versus vaping. Non-cancer patients, including those with epilepsy or multiple sclerosis, are more likely to pick medical marijuana with higher levels of cannabidiol or CBD.
3/27	Passe Partout	Health	1:03	A new study finds no link between smoking and an increased risk of dementia. Researchers stress that

				smoking is still associated with many other health risks.
3/27	News 10 at 5	Health	1:30	A new study in the Journal Pediatrics finds real books' have an advantage over electronic books when it comes to creating quality interactions.
3/28	Passe Partout	Health	1:00	African American women with poor oral health may be at increased risk for pancreatic cancer. Researchers used data from the Black Women's Health Study and say bacteria in the mouth and inflammation may increase the risk.
3/5	News 10 at 10	Traffic/Road Conditions	2:00	Residents and city leaders look at plans for a toll loop around Lafayette and try to get their questions answered. The loop will help alleviate traffic backups in and around Lafayette.
3/12	News 10 at 10	Traffic/Road Conditions	1:35	The DOTD is planning to make major improvements to 40 intersections on Johnston Street or U.S. Highway 167. The improvements will help with traffic flow and safety in the area.
3/28	News 10 at 10	Traffic/Road Conditions	:30	One lane of I-49 north was closed in Evangeline Parish due to an 18-wheeler fire. The closure affected traffic flow in the area.
3/6	News 10 at 10	Government	1:30	Today the U.S. House begins debate on a sweeping bill to change elections by reforming campaign finance, lobbying, ethics and voting.
3/28	News 10 at 10	Government	:50	Two republicans looking to unseat democratic Louisiana governor John Bel Edwards shared a stage this afternoon. Both candidates billed themselves as career men who just happen to be seeking political office.
3/7	News 10 at 10	Consumer Issues	1:45	The Better Business Bureau of Acadiana is warning consumers

				about a “Car Wrap” Employment Scam. Experts remind consumers to beware of deals that sound too good to be true.
3/13	News 10 at 10	Consumer Issues	1:55	There’s a warning about ads on social media promising incredible sales on discounted name brand products.
3/19	News 10 at 5	Consumer Issues	:25	LUS Fiber announced the expansion of internet, television, and phone services into the city of Carencro. Consumers will have the option to purchase those services.
3/22	News 10 at 10	Economy	:45	Gov. John Bel Edwards and LHC Group broke ground on 500 Job Expansion of its Lafayette Home Office.
3/25	News 10 at 10	Education	:30	St. Landry Parish School Board decided to close two elementary schools and reconfigure what students will attend classes where in order to better their education.
3/8	News 10 at 6	Education	1:00	With UL Lafayette increasing its fees, we talked about what options are available to students who are attending classes to get better educated.
